Frequency Response (-/+ 3dB)	25–150Hz
Low-Pass Crossover Freq	40–140Hz
Phase Adjustment	-135 to 180 degrees (In 45 degree increments)
LFE	Single RCA
Speaker	Left/Right 5-Way Binding Posts
What's in the Box	Subwoofer Slim Remote Control (Batteries Included) Power Cord Quick Start Guide

KEY BENEFITS

Reference-Level Bass for Any System
Powered by Class H digital amplification and featuring an advanced 56-bit DSP, DN12 plays exceptionally impactful bass down to 25Hz.

Loud & Clear
DN12's unique 3XR™ Architecture featuring dual 12" bass radiators ensures that it plays louder and lower than ported subs without unwanted port noise distortion.

Blends Beautifully
Intelligent Phase Control™ provides 360 degrees of tuning, ensuring your bass blends perfectly with your entire system.

Customizable Sound
Its groundbreaking phase, volume, frequency, EQ and controllability make the DN12 sound precisely how you like it.

Get in Phase for Tighter Performance
Intelligent Phase Control™ provides a full 360 degrees of customizable phase adjustment, always centered around the settings of the low-pass filter.

PRODUCT FEATURES

3XR™ Architecture: for shockingly loud, clear, deep bass

Intelligent Phase Control™: for seamless system blending

Class H Digital Amplifier: for pure power

Plays as Low as 25Hz: for deep impact in any system
