Before Mounting

1. Download eufy App

Make sure your app is updated to the latest version.

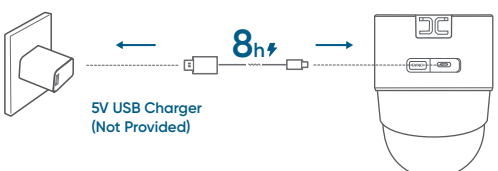
eufy

Download on the App Store

GET IT ON Google Play

2. Fully Charge the Camera

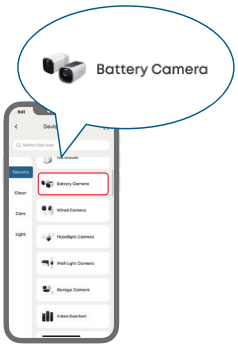
Fully charge the camera before first use.



You can check the battery level in the app.

3. Add the Camera

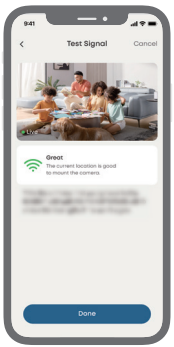
Open the eufy app, and follow the in-app instructions to add the camera.



4. Recheck in the App

Check before installation:

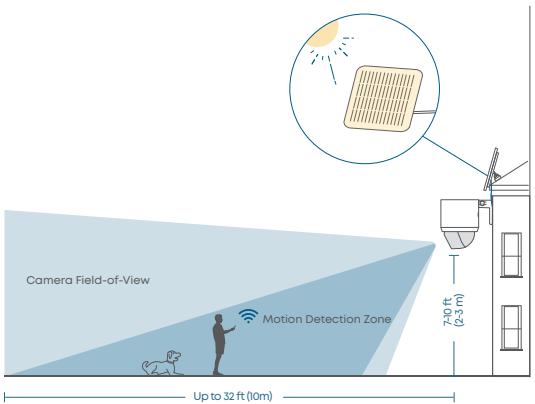
- Strong Wi-Fi signal
- Smooth live streaming



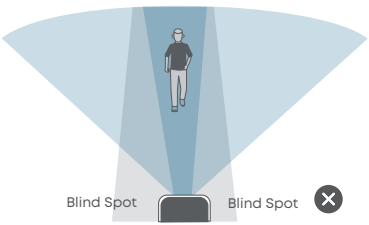
5. Choose a Location

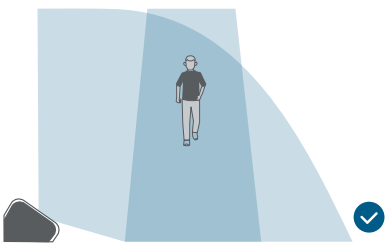
Recommended location:

- Height of 2 m to 3 m (7 ft to 10 ft)
- Where solar panels get enough sunlight
- Strong Wi-Fi signal



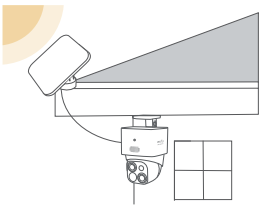
To avoid missed detections, install the cameras at an angle rather than directly facing the monitoring area.



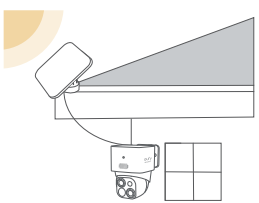


Mount the Solar Panel

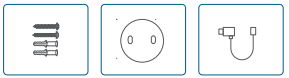
Option 1 **Flexible Mounting (Best Sunlight)**

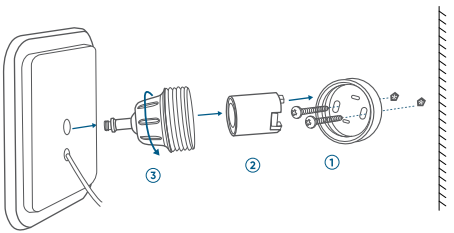


Top Mounting

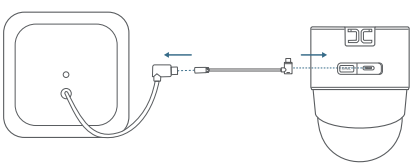


Wall Mounting



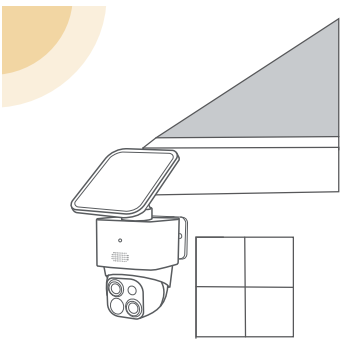


① Install the base
② Install the supporting piece
③ Screw the mounting bracket



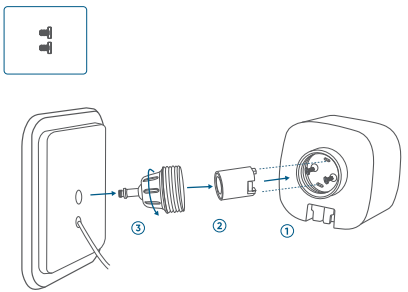
④ Connect the solar panel to the camera

Option 2 Integrated Mounting (Less Drilling)

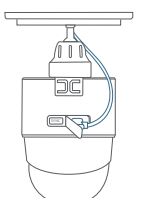


Wall Mounting Only

Use the 5 mm screws to install the solar panel onto the camera.



① Install the base
② Install the protecting piece
③ Screw the mounting bracket



④ Connect the solar panel to the camera

Mount the Camera

Top Mounting
