SUPPLEMENTARY MAINTENANCE INFORMATION

Scheduled Maintenance Log	3
Vehicle Identification	20

For other warranty and maintenance information, refer to the publications entitled *2001 Owner's Warranty Information* and *2001 Scheduled Maintenance Guide*, located in your vehicle's glove box.

California Emission Control Warranty

Coverage Details

The complete text of the California Emission Control Warranty is found on pages 20-25 of the *2001 Owner's Warranty Information* booklet. Except for the parts listed on pages 22-23, the entire content of that warranty applies to the 2001 Camry CNG.

Parts List: Long-Term Emission Defect Warranty

For the 2001 Camry CNG, the following parts list replaces the parts list on pages 22-23 of the *2001 Owner's Warranty Information* booklet. The parts listed here are covered for seven years or 70,000 miles from the vehicle's in-service date, whichever comes first.

Air/Fuel Metering System

- Engine control module
- Fuel pressure regulator
- Manifold absolute pressure sensor
- Throttle body

Air Induction System

- Intake manifold

Catalyst System

- Exhaust front pipe (including rear catalytic converter)
- Exhaust manifold (including front catalytic converter)

Evaporative Control System

- Fuel tank

General Information

For information on determining your vehicle's maintenance needs and an explanation of maintenance items, see the *2001 Scheduled Maintenance Guide*, located in your glove box. The booklet also discusses the relationship between maintenance and warranty coverage and includes helpful information on Toyota maintenance and repair support.

For the 2001 Camry CNG, the scheduled maintenance charts on the following pages replace those found in the *2001 Scheduled Maintenance Guide*.

Important Note: Fuel Tank

The Camry CNG's fuel tank should be inspected by an authorized Toyota CNG dealer every 36 months or 36,000 miles (whichever comes first) and replaced every 15 years from the fuel tank's production date. These intervals are noted in the maintenance charts on the following pages.

Scheduled Maintenance Log

5,000-Mile Maintenance Intervals

7,500-Mile Maintenance Intervals

To determine the appropriate maintenance interval for your vehicle, see page 17 of the 2001 Scheduled Maintenance Guide.

5,000 Miles or 4 Months

- ☐ Replace engine oil and oil filter

Additional Maintenance Items for Special Operating Conditions:¹

- ☐ Inspect the following:

- | | |
|---|---|
| ☐ Ball joints and dust covers | ☐ Fuel filter |
| ☐ Brake linings/drums and brake pads/discs | ☐ Nuts and bolts on chassis and body |
| ☐ Drive shaft boots | ☐ Steering linkage and boots |
| ☐ Engine air filter | |

- ☐ Rotate tires
