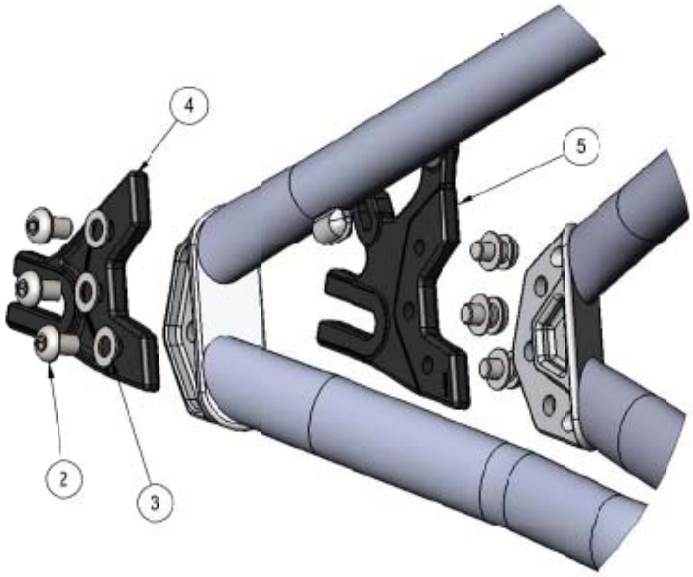
Service Information

2012 Ticket Single Speed Assembly 1020xxx12



Note: All threaded fasteners in the assembly have a retention compound on either the bolt or nut threads. If a fastener is removed after initial installation, clean the threads and reapply a removeable strength threadlocker such as LOCTITE 243. Failure to do so may result in fasteners loosening during use.

Pars for 2012 Ticket Single Speed Assembly

Item Number	Part Number	Description	Assembly Details	QTY.
2	313891	Steel bolt M8x1.25x12	not available individually	6
