Quick Reference Guide
Mercury Mariner
LITHO IN USA
BE6J 19G217 AA

This Quick Reference Guide is not intended to replace your Owner's Guide which contains more detailed information concerning the features of your vehicle, as well as important safety warnings designed to help reduce the risk of injury to you and your occupants. Please read your entire Owner's Guide carefully as you begin learning about your new vehicle and refer to the appropriate sections when questions arise.

All information contained in this Quick Reference Guide was accurate at the time of duplication. We reserve the right to change features, operation and/or functionality of any vehicle specification at any time. Your Mercury dealer is the best source for the most current information.

For detailed operating and safety information, please see your Owner's Guide.

ADDITIONAL FEATURES

INTEGRATED KEYHEAD TRANSMITTER (IKT) REMOTE ENTRY FEATURES

- Press once to lock all doors. Press again to confirm all doors are closed.
- Press once to unlock the driver's door. Press again within three seconds to unlock all doors, the liftgate and liftgate glass.
- Press to activate the panic alarm. Press again or turn the ignition on to deactivate.
- Press twice within three seconds to open the liftgate glass.
- Car finder: Press twice within three seconds to locate your vehicle. The horn will chirp and the turn lamps will flash.

SECURICODE™ KEYLESS ENTRY SYSTEM

- Allows you to lock or unlock the doors as well as open the liftgate glass without a key. Ensure that you have your five digit factory code located on your owner's wallet card in the glove box.
- To unlock the driver's door, enter your five digit factory code.
 - To unlock all doors and the liftgate, enter your five digit factory code and, within five seconds, press 3-4.
 - To open the liftgate glass, enter your five digit factory code and, within five seconds, press 5-6.
 - To lock all vehicle doors and the liftgate, press 7-8 and 9-0 at the same time (you do not need to enter your factory code first).

MOON ROOF (if equipped)

The moon roof is equipped with an automatic, one-touch, opening, closing and venting feature. To open, press and release the rear portion of the control located in the overhead console. To stop motion at any time during the one-touch

opening, press the control a second time. To close, press and release the front portion of the control until the glass stops moving. To open the moon roof to the vent position, press the front portion of the control. To close, press and hold the rear portion of the control until the glass stops moving.

SYNC® (if equipped)
Your vehicle may be equipped with SYNC® – a hands-free communications and entertainment system with special phone and media features. For more information, please refer to the SYNC® Supplement or to the SYNC® section in the Navigation Supplement. Please feel free to visit www.SyncMyRide.com.

MyKey™
Allows you to program certain driving restrictions on any standard key in order to promote good driving habits. When MyKey™ is programmed:

- Belt-Minder® cannot be disabled and will sound continuously and the audio will be muted until the safety belt is buckled.
- Audible and visual low fuel warnings are provided.
- Certain features cannot be turned off such as the reverse sensing system.
- Audio volume can be limited.
- Vehicle speed can be limited.
- Audible and visual speed warnings can be configured at preselected speeds.
- AdvanceTrac® cannot be programmed off.

For complete information, refer to MyKey™ in the Locks and Security chapter in your Owner's Guide.

INTEGRATED BLIND SPOT MIRRORS

Your outside mirrors have an integrated convex mirror in the upper corner. This increases visibility alongside the vehicle; thereby helping you see a vehicle which may be in your blind spot. As the vehicle approaches, its image will transition from the main mirror to the blind spot mirror in the upper corner. Refer to your Owner's Guide for more information.

REARVIEW CAMERA (if equipped)

This system provides a visual display of the area behind the vehicle. The display automatically appears in the rearview mirror or the navigation screen (if equipped) when the vehicle is in R (Reverse) and uses colors (green, yellow and red) to alert you of your proximity to objects. **Note:** Visibility aids do not replace the need to watch where the vehicle is moving. Refer to your Owner's Guide for safety information, more detail and limitations.

Improved Fuel Economy While Coasting or Decelerating:

Your vehicle has been designed to improve fuel economy by reducing fuel usage during coasting or while decelerating. This may be perceived as a light to medium braking sensation when removing your foot from the accelerator pedal.

ESSENTIAL INFORMATION

MOBILE MEDIA NAVIGATION SYSTEM (if equipped)

Press to access the Radio menu and select from AM, FM1, FM2, SAT1, SAT2 or SAT3 (satellite radio, if activated) modes.

Press to access the Media menu and select from CD, DVD or Jukebox features among others. Jukebox allows you to save your favorite music to the system's hard drive for later access. You can then choose to play specific artists, genres, tracks or albums. You can even choose to create your own playlists.

Press to access the Sound menu and make adjustments to Bass, Treble, Balance, Fade, SCV (Speed compensated volume), DSP and the visualizer.

Press to access menu selections of Display options, Setting the clock, Feedback settings, System settings and Valet mode.

Press to view the navigation map.

Press to access the Destination menu and set a destination. In this menu you can select from: Quick Destinations (Emergency listings such as Police and Hospitals or previously set favorite destinations), Standard destinations (Address book, Street address, Previous destinations, etc.) or Edit Route (allows you to make any adjustments to the

Fuel Pump Shut-off Switch: This device stops the electric fuel pump from sending fuel to the engine when your vehicle has had a substantial jolt. After an accident, if you find that the engine cranks, but does not start, this switch may have been activated. The fuel pump shut-off switch is located in the front passenger's footwell, behind a flip-up cover, by the kick panel access cover.

Location of Spare Tire: Your vehicle is equipped with a temporary spare tire located under the vehicle, just forward of the rear bumper. The temporary spare tire is designed for emergency use only and should be replaced as soon as possible. The jack and tools are located under the carpeted floor panel in the rear cargo area. For complete details on how to change your tire, refer to the Roadside Emergencies chapter in your Owner's Guide.

Tire Pressure: Your tire pressure is properly set at the dealership according to the recommended specifications found on the Safety Compliance Certification Label or Tire Label located on the B-Pillar or the edge of the driver's door. Check your tire pressure at least once a month and before long trips (including spare). As an added safety feature, your vehicle has been equipped with a Tire Pressure Monitoring System (TPMS) that illuminates a low tire pressure warning light in the message center when one or more of your tires is significantly under-inflated. Improperly inflated tires can affect vehicle handling and can fail suddenly, possibly resulting in loss of vehicle control. Refer to the Tires, Wheels and Loading chapter in your Owner's Guide for more details and safety information.

Easy Fuel™ Fuel System: Your vehicle has a 'no cap' fuel system which allows you to simply open the fuel filler door, insert the nozzle and start fueling. Wait about five seconds before pulling the nozzle out in order to allow any residual fuel to drain into the tank. The Easy Fuel™ system is self-sealing and therefore protected against dust, dirt, water, snow and ice. If you need to fill your fuel tank with a portable fuel container, use the fuel funnel which is located inside the rear passenger side cargo compartment access door. Slowly insert the funnel into the Easy Fuel™ system and fill the tank with fuel from the container. When done, clean the funnel or properly dispose of it. Extra funnels can be purchased from your authorized dealer. Do not use aftermarket funnels as they will not work with the Easy Fuel™ system and may cause damage.

Fuel Tank Capacity/Fuel info: Your vehicle has a fuel tank capacity of 17.5 gallons (66.2L). If you have a V6 engine, you have a flex fuel vehicle. Flex fuel vehicles have a yellow ring around the top of the fuel filler inlet (tube) and can use either Regular unleaded fuel, E85 Ethanol Fuel or any mixture of the two. If you do not have a flex fuel vehicle, then only use "Regular" unleaded gasoline with an octane rating of 87. Do not use E85 fuels because your vehicle was not designed to run on fuels with more than 10% ethanol.

SOS Post-Crash Alert System™: This system provides audible and visual alarms in the event of a crash which causes the deployment of airbags or the activation of the safety belt pretensioners. The turn signals will flash and the horn will sound. To deactivate the system, press the hazard flasher control or you can press the button on your remote transmitter.

Roadside Assistance: Your new Mercury Mariner comes with the assurance and support of 24-hour emergency roadside assistance. Roadside assistance includes such services as: lockout assistance, limited fuel delivery, battery jump starts, changing a flat tire, towing and winch out. To receive roadside assistance in the United States, call 1 (800) 241-3673. In Canada, call 1 (800) 665-2006.

IN-DASH CD/MP3 RADIO

1. DIRECT Press DIRECT and then, using the memory presets (0-9), enter in the numbers of the desired station, track, MP3 folder (if available) or satellite channel (if activated).

2. Press to access special phone features if equipped with SYNC®. Refer to your SYNC® Supplement for more information.

3. SCAN Press for a brief sampling of radio stations or CD/MP3 tracks. Press again to stop.

4. ON/OFF/VOL Press to turn on or off. Turn to increase or decrease the volume.

5. CD Press to enter CD/MP3 mode. If a disc is already loaded into the system, CD/MP3 play will begin where it ended last.

6. AM/FM Press repeatedly to select AM, FM1 or FM2 frequency band.

7. EJECT Press to eject a CD from the system.

8. CLOCK Press to set the time. Use the memory presets 0-9 to enter in the desired time, hours and minutes and press OK. The clock will then start from that time.

9. SOUND Press repeatedly to access settings for: Bass, Treble, Fade, Balance, Speed compensated volume (if equipped) and ALL SEATS (Occupancy mode, if equipped). When the desired selection appears in the display, press SEEK/TRACK to make adjustments.

10. SEEK/TRACK Press to access the previous/next strong radio station, satellite channel (if equipped) or CD track.

11. MENU Press repeatedly to cycle through various menu options such as: AUTOPRESET, RDS ON/OFF and SATELLITE RADIO MENU (if satellite radio is active). When SATELLITE RADIO MENU appears in the display, press OK and then press to cycle through additional options.

12. TUNE/OK In radio mode, turn to go up/down the frequency band in individual increments. If your vehicle is equipped with SYNC® and/or satellite radio you may need to press OK to confirm menu selections.

13. AUX Press repeatedly to access LINE (auxiliary audio mode), or SYNC® (if equipped).

14. SIRIUS Press repeatedly to cycle through SAT1, SAT2 and SAT3 modes (satellite radio, if equipped). SIRIUS® Satellite Radio is a subscription-based satellite radio service that broadcasts music, sports, news and entertainment programming. For more information and a complete list of SIRIUS® satellite radio channels, visit www.sirius.com in the United States, www.sirius-canada.ca in Canada, or call SIRIUS® at 1-888-539-7474.

HD RADIO (if equipped with Navigation) is the digital evolution of analog radio. Your system has a special receiver which allows it to receive digital broadcasts (where available) in addition to the other broadcasts it already receives. Digital broadcasts provide a better sound quality than analog broadcasts with free, crystal clear audio and no static or distortion. For more information, refer to your Navigation supplement or visit www.hdradio.com.

MOBILE MEDIA NAVIGATION SYSTEM (if equipped)

Press to access the Radio menu and select from AM, FM1, FM2, SAT1, SAT2 or SAT3 (satellite radio, if activated) modes.

Press to access the Media menu and select from CD, DVD or Jukebox features among others. Jukebox allows you to save your favorite music to the system's hard drive for later access. You can then choose to play specific artists, genres, tracks or albums. You can even choose to create your own playlists.

Press to access the Sound menu and make adjustments to Bass, Treble, Balance, Fade, SCV (Speed compensated volume), DSP and the visualizer.

Press to access menu selections of Display options, Setting the clock, Feedback settings, System settings and Valet mode.

Press to view the navigation map.

Press to access the Destination menu and set a destination. In this menu you can select from: Quick Destinations (Emergency listings such as Police and Hospitals or previously set favorite destinations), Standard destinations (Address book, Street address, Previous destinations, etc.) or Edit Route (allows you to make any adjustments to the

currently selected navigation route with options such as Cancel Route, Detour, View route, etc.).

7. I (INFORMATION) Press to access the Information menu and select from options such as 'Where am I', the system Calendar, the Help menu as well as SIRIUS® Travel Link™ (if activated). SIRIUS® Travel Link™ is a data service which can help you locate the best gas prices, movie listings, current traffic alerts, access the current weather map, get accurate ski conditions as well as scores to current sports games.

8. PHONE Press to activate the Phone menu (if equipped with SYNC®). Refer to the SYNC® section in the Navigation supplement for more information.

VOICE RECOGNITION – Your system is equipped with an advanced voice recognition system which allows you to speak certain commands to the system. Press on your steering wheel and say a command or 'Help' after the prompt.

For more information on voice commands and the features of your Mobile Media Navigation system, please refer to your Navigation supplement.
