

Quick Tip / Did You Know?

MY2015 Accent: Icy Road Warning Lamp

Some 2015 Accents come equipped with an Icy Road Warning Lamp designed to alert drivers of the potential for icy roads.

When the outside temperature gauge detects temperatures below 40°F, the warning light will:

- ❖ Blink 10 times and
- ❖ Sound a chime 3 times

The lamp will remain illuminated while the outside conditions exist and the ignition is in the ON position.
