MY2015/2014 Veloster - Clock Adjustment

Customer Educational Tips:

Clock Adjustment:

PROCEDURE: NAVIGATION CLOCK SETTING VERIFICATION

1. With the radio ON, press the **INFO/SETUP** button (A).

2. Touch the **SETUP** button on the display (B).

3. Touch **Clock** (C) on the display to enter the Clock setup menu.

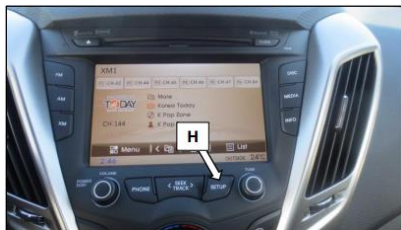

4. Verify that **GPS Time** (D) is set to ON.

NOTICE

Veloster Navigation is GPS Time Based. If the setting is **OFF**, the time will be incorrect.

Set Daylight savings time to the correct setting according to the vehicles region.

PROCEDURE: BASE AUDIO CLOCK AND DATE SETTING VERIFICATION

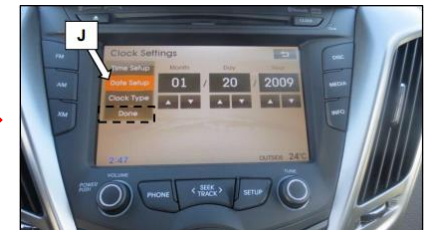

1. With the radio ON, press the **SETUP** button (H).

2. Touch the **Clock** button (I) on the display.

3. Enter the current time then proceed to the Date Setup

4. Press **Date Setup** (J), and then enter the correct date. Press **DONE** when finished.

***With both Time and Date saved, turn the ignition OFF for 2 minutes and then turn the radio ON to verify that the time has updated successfully.**

NOTICE

Press **Done** to confirm all changes made inside the Clock Settings menu for the date and time.
