**PLEASE READ****LIMITATION OF THE QUICK REFERENCE GUIDE**

The Quick Reference Guide is designed to provide information on the basic audio multimedia operation and key features of the navigation system (if equipped). This Quick Reference Guide is not intended as a substitute for the Navigation Owner's Manual. We strongly encourage you to review the Navigation Owner's Manual for detailed audio/multimedia information. You may also choose to visit: www.Toyota.com/entune where additional audio/multimedia resources are accessible.

SAFETY

Concentrating on the road should always be your first priority while driving. Do not use the Entune™ system if it will distract you.

WHAT IS Entune™ 3.0 APP SUITE CONNECT?

Entune™ 3.0 App Suite Connect is a collection of mobile applications and data services integrated with select 2019 Toyota vehicles.

Once a smartphone is connected to the vehicle using Bluetooth® wireless technology, Entune™ 3.0 App Suite Connect features can be operated using touch or voice commands.

All apps and data services are subject to change at any time without notice.

Entune™ 3.0 APP SUITE CONNECT

To access Entune™ 3.0 App Suite Connect applications from your vehicle's touch screen, an Entune™ 3.0 App Suite compatible smartphone is required. Use your compatible smartphone to download the Entune™ 3.0 mobile app from the applicable app store. You may also visit www.toyota.com/entune to learn more about Entune™ 3.0 App Suite Connect.

PHONE COMPATIBILITY

A compatible smartphone is required to operate mobile apps and some connected services. Check phone compatibility by one of the following methods:

- Visit: www.toyota.com/entune/#!compatibility
- Call the Toyota Customer Experience Center at **1-800-331-4331**
Mon–Fri: 7:00 a.m. – 7:00 p.m. CDT
Sat: 7:00 a.m. – 4:30 p.m. CDT

INTRODUCTION

WHAT ENTUNE™ 3.0 SYSTEM DO YOU HAVE?

Entune™ 3.0 Audio

Include:

Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. Select Entune™ App Suite Connect use a large amount of data and you are responsible for all data charges. Apps and services vary by phone and carrier. Not all apps and data services are available at all times and all locations. Apps identified by "™" or "®" are trademarks or registered trademarks of their respective companies and cannot be used without permission. All apps and data services are subject to change at any time without notice. Connected services may vary by vehicle. Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

See toyota.com/entune for the latest information regarding apps and services.

BLUETOOTH PAIRING

To begin the Bluetooth Pairing process, press the HOME button on the faceplate of your multimedia system.

BLUETOOTH PAIRING FOR YOUR PHONE

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and audio streaming via Bluetooth® wireless technology.

Note: Do not attempt the Bluetooth® Pairing process while driving.

STEP 1 Press [MENU] on the faceplate, then select "Setup" on display screen.

STEP 2 Ensure Bluetooth is turned on for your device.

STEP 3 Select "Bluetooth," then select "Add New Device" on display screen.

STEP 4 Select "Device Name."

STEP 5 Check the display on your smartphone. Does the PIN XXXX match the PIN displayed? If it does select "Pair."

BLUETOOTH PAIRING (CONTINUED)

BLUETOOTH PAIRING FOR YOUR PHONE (CONT.)

STEP 6 "Connecting" displays while device is forming the connection to your multimedia system.

STEP 7 Enable Notifications (text message). While pairing your device message will display: **"You may need to allow message access on your phone."**

Note: You may also select **"Skip"** on display screen to skip enabling notifications. If skipped proceed to **Step 9**.

STEP 8 Turn on **"Show Notifications"** for iPhone or **"ON"** for Android.

STEP 9 A confirmation will appear once your phone has been paired and connected.

Several factors may affect smartphone and/or system performance *including*:

1. Smartphone operating system software version
2. Smartphone battery power level
3. Poor cellular reception to the smartphone
4. Multiple applications running on a smartphone at the same time.
5. Smartphone operating system updates may affect Entune™ 3.0 app functionality.

To maximize your Entune™ 3.0 experience, begin by downloading the Entune™ 3.0 App Suite Connect App onto your mobile device.
Then visit www.ToyotaOwners.com to register.

STEP 1 Go to www.ToyotaOwners.com.
Click on **JOIN NOW**

STEP 2 Complete the fields and click **CREATE ACCOUNT** to register.

The system displays a message that an email has been sent to complete enrollment.

Note: Check spam folder in case the email was incorrectly identified.

STEP 3 From the email sent in STEP 2, click **ACTIVATE MY ACCOUNT** to authenticate the email and complete the registration process.

STEP 4.1 Congratulations! Your account was created successfully!

Congratulations!
Your account was created successfully!
Please sign in.

STEP 4.2 Enter your username and password.
Welcome to Toyota.

STEP 5 If no VIN is attached to the account, you will be prompted to add a VIN and click **SUBMIT**.

STEP 6 Confirm your preferred servicing Toyota dealer and click

REGISTRATION (CONTINUED)

STEP 7 Confirm services and click **ENROLL**

STEP 8.1 Confirm services and click **CONTINUE**

CONNECTED SERVICES

Toyota Connected Services

A registered Toyota Owners account is required to use Toyota Connected Services trials or subscription services. Please follow registration steps on page 6 of the guide.

Safety Connect

Whether you're involved in an accident, your vehicle is stolen, or the unexpected occurs, assistance can be sent directly to your vehicle's GPS location*.

Safety Connect not available on Entune™ 3.0 Audio grade 2019 C–HR.

AUTOMATIC COLLISION NOTIFICATION

In the event that your vehicle's airbags deploy or you're involved in a severe rear–end collision, you'll be automatically connected to a Toyota Safety Connect response center agent. After attempting to speak to the occupants, the agent will notify local emergency services of the situation and direct them to your vehicle's location. A Toyota Entune™ 3.0 Safety Connect subscription is required.

EMERGENCY ASSISTANCE BUTTON (SOS)

Whether it's a health emergency, a traffic accident or some other urgent situation where help is required, a single press of the Emergency Assistance Button (SOS) can connect you to a 24–hour Safety Connect response center agent. Using your vehicle's GPS technology, the agent can send emergency services to your vehicle's location while offering to stay on the line with you until help arrives. Once the 3–year trial has ended a Toyota Entune™ 3.0 Safety Connect subscription is required.

ROADSIDE ASSISTANCE

With the added benefit of GPS technology, Toyota Roadside Assistance makes standard roadside service even more convenient than other services on the market. Whether your vehicle has run out of gas, has a flat tire, needs to be towed or requires a jump–start, assistance can be sent to your vehicle's location—all at the press of the Emergency Assistance button (SOS). A Toyota Entune™ 3.0 Safety Connect subscription is required.

STOLEN VEHICLE LOCATOR

Once a police report is filed, the Safety Connect Response Center can work with police to help track and recover your stolen vehicle using Safety Connect's embedded cellular and GPS technology. This may help to recover your vehicle more quickly, minimizing the amount of damage incurred. The Stolen Vehicle Location system works across the continental U.S.A. Toyota Entune™ 3.0 Safety Connect subscription is required.

* Contact with the response center may not be available in all areas.

Note: After successful enrollment, the vehicle transmits data each time the vehicle is driven for about 15 minutes in an area with good cellular coverage. If a maintenance or vehicle alert occurs after the first 15 minutes, the data will transfer next time the vehicle is driven for about 15 minutes in an area with good cellular coverage.

All apps and data services are subject to change at any time without notice. Connected services may vary by vehicle. Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

Service Connect*

Keeping up with your vehicle's health has never been easier. Get updates on everything from fuel level and mileage to maintenance alerts and more via email or the mobile app.**

Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

NOTE: The customer must initialize Service Connect in the vehicle after enrollment via ToyotaOwners.com. See Page 21 for detail.

VEHICLE HEALTH REPORT

Mileage, smart key battery status, recent changes to Toyota Personalized Settings, and more. You can view the reports on your desktop, tablet, or smartphone by visiting www.ToyotaOwners.com or using the ToyotaOwners mobile app. For the ultimate in service convenience, you can choose to have a dealer automatically call you to help schedule a service or check the status of your vehicle.

VEHICLE MAINTENANCE ALERT

The best care is preventive. Entune™ 3.0 Service Connect provides vehicle alerts to you and maintenance alerts to both you and your preferred dealer. Should you opt in to this convenient service, this allows your dealer to contact you when maintenance is required, helping to keep your vehicle running at its best.

Remote Connect*

Entune™ 3.0 Remote Connect allows you to remotely lock/unlock doors, start/stop the engine, find your vehicle in a parking lot, monitor guest drivers, and get vehicle status notification.**

Available on Entune™ 3.0 Audio Plus and Premium Audio only. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

Remote Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

Remote Connect equipped vehicles can be operated using one of the following devices with an active trial or subscription:

- Smartphone

DOWNLOAD THE APP

For your convenience, the Entune™ Remote mobile app can be found on the Apple App Store and Google Play.

- Smartwatch Remote Connect app is compatible with Apple Watch® and smart watches with Wear OS by Google. (Samsung Gear, Fitbit, Garmin are not compatible)
- Amazon Alexa using an Alexa enabled device with an Amazon account and the Toyota Skill enabled.

* Available on Entune™ 3.0 Audio Plus and Entune™ 3.0 Premium Audio

** Contact with the response center may not be available in all areas.

Note: In the Entune™ 3.0 Remote app, from the main menu you can manage notifications, such as vehicle and guest driver alerts and app confirmations.

All apps and data services are subject to change at any time without notice.

Connected services may vary by vehicle. Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

CONNECTED SERVICES (CONTINUED) **Remote Connect* (cont.)****ENGINE START/STOP (Engine Start/Stop N/A on vehicles equipped with Manual Transmission)**

Remote engine start/stop lets you remotely start your vehicle to warm or cool the interior based on the last climate-control settings. The engine or hybrid system will run for up to 10 minutes or until any door is opened, the brakes are pressed, or the engine is turned off remotely.

**REMOTE DOOR LOCK/UNLOCK**

Now you can remotely lock and unlock your doors and receive confirmation if the action was successful. And should you unlock your Toyota remotely, the doors will automatically relock after 30 seconds if no further action takes place.

**VEHICLE FINDER**

The Vehicle Finder makes locating your vehicle on the street or in an uncovered parking lot much easier.

**VEHICLE STATUS ALERTS**

With the touch of a button, you can remotely check the status of your vehicle's doors, windows, moonroof, trunk, and hood, as well as the vehicle's current fuel level, odometer or trip mileage. The system can also notify you with customizable alerts.

**GUEST DRIVER**

Entune™ 3.0 Remote can send instant alerts if the vehicle is started or exceeds preset limits on speed, curfew, miles driven, engine run time total elapsed time or distance from a set location.

Available on Entune™ 3.0 Audio Plus and Premium Audio only. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

CONNECTED SERVICES (CONTINUED)

Wi-Fi Connect * Powered by Verizon

Connected devices can download up to 2GB of data during the 6 month trial period.**

Refer to page 19–20 Wi-Fi Connect Powered by Verizon section to setup.

Destination Assist Connect

Get directions and destinations delivered by a real person with 24–hour, en–route navigation assistance.** Available on Entune™ 3.0 Premium Audio.

DESTINATION
ASSIST

Destination Assist gives you 24–hour access to a live response center agent to help you locate a specific business, address or point of interest. If you're searching for a restaurant, the agent can help you narrow your choices by distance.

Dynamic Navigation

Entune™ 3.0 Dynamic Navigation provides customers with the most up–to–date routes and points of interest (POIs) on their embedded navigation system through real–time updates downloaded from the cloud.** Available on Entune™ 3.0 Premium Audio.

DYNAMIC MAPS & ROUTE

Dynamic Navigation checks embedded map data against the cloud to download and store map updates. This navigation service uses the on–board and off–board data to provide navigation directions. It takes into account ever–changing roads and traffic conditions.

DYNAMIC POI

Search an expanded database for points of interest with casual search terms, as if you were using an internet search box.

* Available on Entune™ 3.0 Audio Plus and Entune™ 3.0 Premium Audio

** Contact with the response center may not be available in all areas.

Note: After successful enrollment, the vehicle transmits data each time the vehicle is driven for about 15 minutes in an area with good cellular coverage. If a maintenance or vehicle alert occurs after the first 15 minutes, the data will transfer next time the vehicle is driven for about 15 minutes in an area with good cellular coverage.

All apps and data services are subject to change at any time without notice. Connected services may vary by vehicle. Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

MOBILE DEVICE APPS

In order to use Entune™ 3.0 App Suite Connect in your vehicle, you will need to have the Entune™3.0 App Suite Connect App downloaded onto your smartphone.

Please download the apps you need from Apple App Store™ or Google Play™

Entune™ 3.0 App Suite Connect

A collection of mobile applications and data services.

Toyota Remote Connect

Remote mobile app enables you to start/stop engine, lock/unlock doors and more using a compatible smartphone or smartwatch.

Refer to page 22 for remote connect authorization steps.

Remote Connect app is compatible with Apple Watch® and smart watches with Wear OS by Google. (Samsung Gear, Fitbit, Garmin are not compatible)

Remote Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

Toyota Owners

Take your Toyota ownership to the next level. Service coupons, owner's manuals, service scheduling, roadside assistance and much more.

Scout GPS Lnk Compatible

Smartphone based mobile app designed to integrate with your vehicles touch–screen display.

Available on vehicles equipped with Entune™ 3.0 Audio and Audio Plus.

Once the Scout GPS Link has been downloaded onto the smartphone and Bluetooth® paired to the vehicle, this app will appear in the multimedia display.

All apps and data services are subject to change at any time without notice.

Connected services may vary by vehicle. Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

MULTIMEDIA DISPLAY APPS

Using your compatible smartphone, Entune™ 3.0 App Suite Connect offers access to mobile applications through your vehicle's multimedia display via touch or voice command.

All apps and data services are subject to change at any time without notice.

INITIALIZE SERVICE CONNECT IN VEHICLE

Available on Entune™ 3.0 Audio Plus and Premium Audio only.

Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

STEP 1 After registering and opting into Service Connect, you will be greeted with a notification of the following language **"Would you like to start Toyota Service Connect Activation?"**

STEP 2 Select "Yes."

STEP 3 Select "OK."

REMOTE APP AUTHORIZATION

To enable Entune™ 3.0 Remote Connect, you must authenticate and initialize your services via the multimedia system.

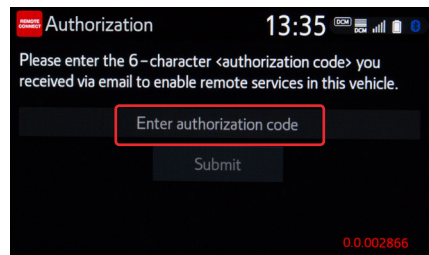

STEP 1 Press [APPS] on the faceplate, then select "Communications" on display screen.

Available on Entune™ 3.0 Audio Plus and Premium Audio only. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

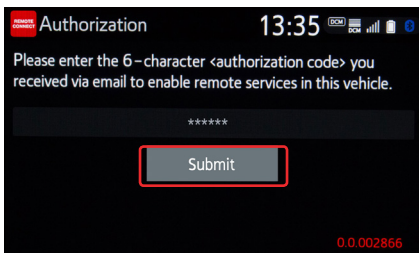

Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

STEP 2 Select "Remote Service" icon.

STEP 3 Enter the 6 character authorization code* you received via email to enable remote services.

STEP 4 Select "Submit."

STEP 5 The vehicle has been successfully authorized for remote services. Select "OK."

Standard on:

Entune™ 3.0 Audio Plus and Entune™ 3.0 Premium Audio.

All apps and data services are subject to change at any time without notice. Connected services may vary by vehicle. Remote & Service Connect not available on 2018–2019 Sienna, Mirai and 2019 C–HR. (Remote Start/Stop N/A on vehicles equipped with Manual Transmission.)

* If you opted–in for Entune™ 3.0 Remote Connect you should have received an email with a 6–digit authorization code. If you have not received your authorization code via email, please call 1–800–331–4331 for assistance.

VOICE RECOGNITION SYSTEM

Before you begin using the voice recognition system, it is recommended that you access "Train Voice Recognition" and "Voice Recognition Tutorial" in the Setup menu. Voice recognition training is a feature that will help train the voice recognition system to better understand your voice. For best results, it is recommended that voice recognition training be done when there is minimal background noise. The voice recognition tutorial will give an overview of how to use the voice recognition system, including how to make calls and how to customize your experience.

STEP 1 Press [MENU] on the faceplate, then select "Setup" on display screen.

TRAIN VOICE RECOGNITION

STEP 2 Select "Voice" from left menu, and Select "Train Voice Recognition."

STEP 3 Select "Start" to proceed. Follow the system prompts and repeat a series of phrases after each beep.

VOICE RECOGNITION TUTORIALS

STEP 2 Select "Voice" from left menu, and Select "Voice Recognition Tutorial."

STEP 3 Scroll and select a tutorial

CALLING BY VOICE RECOGNITION

CALL BY NUMBER

STEP 1 Push talk  on the steering wheel.

STEP 2 Wait for the beep and say "Call <number>" the number you want to call.

STEP 3 The system will confirm the call. Say "Call" or "Yes," or select [YES] on the screen to proceed.

STEP 4 Push hang-up switch  on the steering wheel or select [End] to end the call.

CALL BY NAME

STEP 1 Push talk switch  on the steering wheel.

STEP 2 Wait for the beep and say "Call <Contact name>" in your address book.

DESTINATION INPUT: DYNAMIC NAVIGATION

You can input your destination by

- **SEARCH:** Search by any keyword input, list related dynamic candidacy.
- **Favorites:** Search by using your saved favorites
- **Dest Assist:** Using **Destination Assist Service** (see Destination Assist Service Page 7)

Tip: Select "Name" to edit the name.

STEP 7 Your home is set.

ADDITIONAL NAVIGATION FEATURES

EMERGENCY

[Menu] > "Destination" > select "Emergency."
Select emergency category to see a list.

SEARCH AREA

Prior to inputting the desired address, select the State/Province by selecting **Change State/Province**. The system is only capable of searching for an address within one state or province at a time.

ROUTE PREFERENCE & 3 ROUTES INFORMATION

Once the address has been input, select a desired route preference for the trip. By selecting **Info**, the system will display time, distance, toll roads, ferry and freeway information.

One of three routes may be chosen for the trip:
Quick— is the easiest route, usually the fastest
Short— is the most direct based upon driven mileage
Alternate— is the second fastest route

SCREEN CONFIGURATIONS

In the navigation screen, on right side menu, select **Map Options** to access "Map Options." Select Map Mode to change the mode.

ADDITIONAL NAVIGATION FEATURES

- STEP 2** Select "Traffic Incidents" to see "Traffic Events (on Current Road/Nearby)," "Predictive Traffic Map" and "My Traffic Routes."

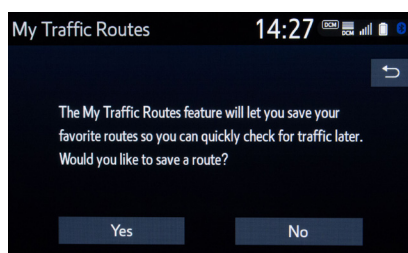

- STEP 3** Select one to see the information.

- STEP 4** The system lists traffic events nearby.

- STEP 4** At STEP3, select "Predictive Traffic Map," by selecting < Now > left/right arrow to see 15, 30 and 45 minutes predictive traffic updates on the map.

- STEP 4** At STEP3, select "My Traffic Routes," you can save routes which you use often, to access the traffic information quickly.

STEP 1 Press [MENU] on the faceplate, then select "Info" on display screen.

STEP 2 Select "Weather" to see "Current," "3 Day," "Checked Location," "National/Local" and "Weather Map."

Local current weather

3 days forecast

6/12 hours forecast

Select area to see the weather.

Select "Weather Map" to see local weather map.

You can swipe up/down and pinch/zoom the map.

SCOUT® GPS LINK COMPATIBLE

Scout® GPS Link is a smartphone-based app that displays turn-by-turn guidance and full moving maps when tethered on Entune™ 3.0 Audio & Audio Plus systems.

HOW SCOUT® GPS LINK WORKS

To access Scout® GPS Link on your Entune™ 3.0 system, you will need a compatible iPhone® or Android™ smartphone that is connected to the Entune™ 3.0 system via Bluetooth® wireless technology. The Scout® GPS Link app must be running on your smartphone. Scout GPS® Link is a smartphone based mobile app designed to integrate with your vehicles multimedia display.

To use Scout® GPS Link on your Entune™ 3.0 system, software needs to be loaded on both your smartphone and Entune™ 3.0 multimedia system.

- STEP 1** Download "Entune 3.0 App Suite Connect" and "Scout® GPS Link" from the Apple App Store™ or Google Play™ app store to your smartphone.

- STEP 2** Connect your smartphone to the vehicle multimedia system via Bluetooth®. (See pages 4–5 for Bluetooth® pairing)

- STEP 3** Open Scout® GPS Link on smartphone and follow the prompts to initialize the app.

Select "**Connect to my car**" to begin.

Select "**Toyota**."

Connecting to vehicle

- STEP 4** Select **Install** to complete installation. After the Scout® GPS Link has been successfully installed to your Entune™ 3.0 system, the  icon will appear on the Apps screen. Scout® GPS Link is now ready to use.

ACCESS TO SCOUT® GPS LINK

STEP
5

On the **smartphone** that is connected to the Entune™ system, select the  App to launch **Scout® GPS Link**. Follow the set-up prompts on your compatible smartphone.

Entune™ 3.0 Audio/Entune™ 3.0 Audio Plus

On the **Entune™ 3.0 system**, select APPS to open the Apps menu screen. Press [APPS] on the faceplate, then select "SCOUT GPS Link."

Requirements:

Full Moving Maps requires USB tethering:

- Compatible smartphone.
- Connected via both USB—tethered smartphone cord and Bluetooth.
- Toyota recommends owners use the **original**, or **manufacturer approved**, USB charging and data cables with their respective smartphone. Attempting to use an aftermarket smartphone USB charging cable may result in not being able to take advantage of all functionality, including the MapStream™ capabilities, while using the Scout® GPS Link app.

iOS Users:

- Scout® GPS Link must be running in the foreground on your compatible smartphone in order to receive Full Moving Maps.
- During phone calls and other app usage on your smartphone, the moving maps will switch to Turn-By-Turn. Once Scout® GPS Link is placed back into the foreground Full Moving Maps will resume.

Android Users:

- Operating systems 4.4 or later must not be in **sleep mode**.

Several factors may affect smartphone and/or system performance *including*:

1. Smartphone operating system software version
2. Smartphone battery power level
3. Poor cellular reception to the smartphone
4. Multiple applications running on a smartphone at the same time.
5. Smartphone operating system updates may affect Entune™ 3.0 app functionality.

Notes
