GMC's Commitment

GMC is committed to ensuring satisfaction with your new vehicle.

Your dealer also wants you to be completely satisfied and invites you to return for all your service needs, both during and after the warranty period.

Owner Assistance

The dealer is best equipped to provide all your vehicle's service needs. Should you ever encounter a problem that is not resolved during or after the warranty period, talk to a member of dealer management. Under certain circumstances, GMC and/or GMC dealers may provide assistance after the limited warranty period has expired when the problem results from a defect in material or workmanship. These instances will be reviewed on a case-by-case basis. If the issue has not been resolved to your satisfaction, follow the *Customer Satisfaction Procedure* ⇨ 22.

GMC Participation in an Alternative Dispute Resolution Program

See *Customer Satisfaction Procedure* ⇨ 22 for information on the voluntary, non-binding Alternative Dispute Resolution Program in which GMC participates.

GMC Protection Plan

Many owners seek to enhance their vehicle ownership experience by purchasing an optional service contract. From Protection Plans to Pre-Paid Maintenance Plans, GMC offers various protection products in different levels of coverage to suit your driving needs.

See your dealer for details on how you can protect your new GMC vehicle and have the peace of mind that comes with knowing you'll have coverage with the same name as the brand you trust.

Owner Name/Address Change

GMC encourages all owners to report, at their earliest convenience, a change in name or address by calling the Customer Assistance Center. If you are a subsequent owner,

please be sure to advise us by calling the number above. You may also visit the dealer of your choice to report a change in vehicle ownership. Current owner name and address is essential in order to provide timely notification of important information related to the vehicle.

Thank you for choosing GMC.

2 Warranty Coverage at a Glance

The warranty coverages on your vehicle are summarized below. Please read the warranty information that follows for complete details.

NEW VEHICLE LIMITED WARRANTY

		10,000	20,000	30,000	40,000	50,000	60,000	70,000	80,000	90,000	100,000	Miles

	Rust-through Coverage	6 years/100,000 miles ¹										

¹ Whichever comes first

What Is Covered

GMC will provide for repairs to the vehicle during the warranty period in accordance with the following terms and conditions including, but not limited to, all limitations listed under “What Is Not Covered” later in this section.

Warranty Applies

This warranty is for GMC vehicles originally sold, registered, and normally operated in the United States and is provided to the original owner and any subsequent owners of the vehicle during the warranty period.

Repairs Covered

This warranty covers repairs to correct any vehicle defect related to materials or workmanship occurring during the warranty period, excluding slight noise, vibrations, or other normal characteristics of the vehicle. Needed repairs will be performed using new, remanufactured, or refurbished parts.

No Charge

Warranty repairs, including towing, parts, and labor, will be made at no charge.

Obtaining Repairs

To obtain warranty repairs, take the vehicle to an authorized GMC dealership within the warranty period and request the needed repairs. Reasonable time must be allowed for the dealer to perform necessary repairs.

Warranty Period

The warranty period for all coverages begins on the date the vehicle is first delivered or put in use and ends at the expiration of the applicable coverage period.

Bumper-to-Bumper Coverage

The complete vehicle is covered for 3 years or 36,000 miles, whichever comes first, except for other coverages listed here under “What Is Covered” and those items listed under “What Is Not Covered” later in this section.

Powertrain Component Coverage

Powertrain components are covered for 5 years or 60,000 miles, whichever comes first. Sierra TurboMax™ engines, 3.0L & 6.0L Duramax® Turbo-Diesel engines, and certain commercial, government, and qualifying fleet vehicles are covered for 5 years or 100,000 miles, whichever comes first.

Gasoline engine coverage includes cylinder block and heads and all internally lubricated parts, timing gears, timing chain/belt and cover, valve covers, oil pump assembly, oil pan, engine oil cooling hoses and lines, seals, gaskets, manifolds, flywheel, water pump, engine mount, turbocharger and supercharger, actuators, and electrical components internal to the engine. Coverage on the engine cooling system begins at the inlet to the water pump and ends with the thermostat housing and/or outlet that attaches to the return hose.

Diesel engine coverage includes cylinder block and heads and all internally lubricated parts, intake and exhaust manifolds, timing gears, timing chain/belt and cover, flywheel, valve covers, oil pump assembly, oil pan, water pump, fuel pump, engine mounts, seals, and gaskets. Parts of the Emissions Reduction System such as the emissions reduction fluid tank, injectors, sensors including NOx and exhaust, and the Exhaust Particulate Filter. Glow Plug Control System: Control/glow plug assembly, glow plugs, cold advance relay, and engine control module. The fuel injection control module,

integral oil cooler, transmission adapter plate, common fuel rails, fuel filter assembly, fuel temperature sensor.

Excluded from gasoline and diesel engine coverage are sensors, wiring, connectors, engine radiator, coolant hoses, coolant, heater core, starter motor, entire pressurized fuel system (in-tank fuel pump, pressure lines, fuel rail(s), regulator, injectors, and return line).

Transmission/transaxle coverage includes all internally lubricated parts, case, mounts, seals, and gaskets as well as any electrical components internal to the transfer case. Also covered are any actuators directly connected to the transfer case as well as encoder motor.

Excluded from coverage are transmission cooling lines, hoses, radiator, sensors, wiring, electrical connectors, clutch and pressure plate.

Transfer case coverage includes all internally lubricated parts, case, mounts, seals, and gaskets as well as any electrical components internal to the transfer case. Also covered are any actuators directly connected to the transfer case as well as encoder motor.

Excluded from coverage are transfer case cooling lines, hoses, radiator, sensors, wiring, and electrical connectors as well as the transfer case control module and/or module programming.

Drive systems coverage includes all internally lubricated parts, final drive housings, axle shafts and bearings, constant velocity joints, propeller shafts, universal joints, all mounts, supports, seals, and gaskets, any electrical components internal to the drive axle, and any actuators directly connected to the drive axle (e.g., front differential actuator).

Excluded from coverage are all wheel bearings, drive wheel front and rear hub bearings, locking hubs, drive system cooling, lines, hoses, radiator, sensors, wiring, electrical connectors related to drive systems, and drive system control module and/or module programming.

Important: Some of these components may also be covered by the Emissions Warranty. See *Emission Warranty Parts List* ⇨ 19.

Restraint System Warranty

The seatbelt and airbag system are covered for 6 years or 72,000 miles, whichever comes first.

Sheet Metal Coverage

Surface Corrosion: Body sheet metal panels are covered against rust for 3 years or 36,000 miles, whichever comes first.

Rust-Through Corrosion: Body sheet metal panels that rust-through, developing an actual hole in the sheet metal, are covered for 6 years or 100,000 miles, whichever comes first.

Cosmetic or surface corrosion resulting from stone chips, dents or scratches in the paint, or failure to repair paint damaged by stone chips, dents or scratches in the paint is not included in sheet metal coverage.

Chemical Paint Spotting

Some weather and atmospheric conditions can create a chemical fallout. Airborne pollutants can fall upon and adhere to painted surfaces of your vehicle. This damage can take two forms: blotchy, ring-shaped discolorations and small irregular dark spots etched into the paint surface.

Although no defect in the factory applied paint causes this, GMC will repair the painted surfaces of new vehicles damaged by this fallout condition within 12 months or 12,000 miles, whichever comes first.

Noise Emissions Coverage

For Light Duty Trucks weighing over 10,000 lbs. based on the Gross Vehicle Weight Rating (GVWR) only: at the time the vehicle left GMC's control, it was designed, built, and equipped to conform with all applicable United States EPA Noise Control Regulations.

Defects in design, assembly, or in any part, component, or vehicle system that causes noise emissions to exceed Federal Standards are covered for the life of the vehicle.

Damage Caused by Over-the-Air Software Updates

If an Over-the-Air software update causes damage to the vehicle, that damage will be covered for the applicable warranty coverage period.

Tire Coverage

The tires supplied with your vehicle are covered under Bumper-to-Bumper coverage. Wear-out is not considered a defect and may occur before the coverage period ends. In this case, the owner is responsible to purchase replacement tires or seek coverage solely from the tire manufacturer. For

vehicles within Bumper-to-Bumper coverage, defective tires will be replaced on a prorated adjustment basis according to the following mileage-based schedule:

GMC Tire Pro-Rate Chart

Mileage (mi)	Percent Covered by GMC (Tire Cost)	Percent Covered by GMC (Labor — Mount/Balance)
0-12,000	100%	100%
12,001-15,000	60%	100%
15,001-20,000	50%	100%
20,001-25,000	40%	100%
25,001-30,000	30%	100%
30,001-36,000	20%	100%
36,001 +	0%	0%

This schedule applies to the price of the tires only. GMC will cover 100% of the cost to mount and balance the tires replaced under warranty for the full Bumper-to-Bumper coverage period.

Tire Companies

After your Bumper-to-Bumper coverage expires, you may still have prorated warranty coverage on your original equipment tires by the tire manufacturer. Contact your dealer or the tire manufacturer of the brand of tires on your vehicle for more information. The following is a list of current tire manufacturer's websites and toll-free customer assistance numbers. If you need further assistance or have questions, contact the Customer Assistance Center.

Company	Website	Toll-Free Number
Bridgestone/Firestone	www.bridgestonetire.com www.firestonetire.com	1-800-847-3272
Continental/General	www.generaltire.com www.continentaltire.com	1-800-847-3349
Goodyear	www.goodyear.com	1-800-321-2136
Michelin/BF Goodrich	www.michelinman.com www.bfgoodrichtires.com	1-866-866-6605 1-877-788-8899
Hankook	www.hankooktire.com	1-800-426-5665
Kumho	www.kumhotire.com	1-800-445-8646
Maxxis	www.maxxis.com	1-866-509-7067

The tire manufacturer's limited warranty program is in lieu of all other remedies or warranties, expressed or implied, arising by law or otherwise, including fitness for a particular purpose or merchantability. The tire manufacturers expressly disclaim liability for indirect, special, incidental, or consequential damages, lost profit, loss of

business, loss of goodwill, loss of reputation, punitive or any other damage, cost, or loss of any kind.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to you.

Accessory Coverages

Most GM-approved accessories sold and permanently installed on a GM vehicle by a GM dealer or GM approved Accessory Distributor/Installer (ADI) prior to delivery will be covered under the applicable portion of the New Vehicle Limited Warranty. In the event GM accessories are installed after vehicle delivery or are replaced under

warranty, parts and labor will be covered for the balance of the applicable portion of the New Vehicle Limited Warranty, but in no event less than 12 months/unlimited miles.

GM accessories sold over the counter and those not requiring installation will receive the standard GM Accessories Warranty for 12 months from the date of purchase, parts only.

GM Licensed and Integrated Business Partner (IBP) Accessories are covered under the accessory-specific manufacturer's warranty and are not warranted by GM or its dealers.

Maintenance

All vehicles require periodic maintenance. Maintenance services, such as those detailed in the Owner's Manual, are the owner's expense. Items such as:

- Audio System Cleaning
- Brake Pads/Linings
- Coolants and Fluids
- Filters
- Rear Axle Service
- Tire Rotation
- Wheel Alignment/Balance

- Wiper Inserts/Blades

are covered by the New Vehicle Limited Warranty for up to 7,500 miles; replacement after is considered maintenance and is not covered.

Keyless Entry batteries (and other remote transmitter/receiver batteries) are covered for up to 12 months only; replacement after 12 months is considered maintenance and is not covered.

Windshield cracks are covered for the first 12 months, regardless of mileage, if caused by a defect in material or workmanship.

What Is Not Covered

Tire and Wheel Damage or Wear

Normal tire wear or wear-out is not covered. Tire wear is influenced by many variables such as road conditions, driving styles, vehicle weight, and tire construction. Uniform tire wear is a normal condition and is not considered a defect. Road hazard damage such as punctures, cuts, snags, and breaks resulting from pothole impact, curb impact, or from other objects is not covered. Tire wear due to misalignment beyond the warranty

period is not covered. Also, damage from improper inflation, overloading, spinning (as when stuck in mud or snow), tire chains, racing, improper mounting or dismounting, misuse, negligence, alteration, improper repair, accident, collision, fire, vandalism, or misapplication is not covered. Damage to wheels or tire sidewalls caused by automatic car washes or cleaning agents is not covered.

Damage Due to Bedliners

Owners of trucks with a bedliner, whether after-market or factory installed, should expect that with normal operation the bedliner will move. This movement may cause finish damage. Therefore, any damage caused by the bedliner is not covered under the terms of the New Vehicle Limited Warranty.

The factory spray-in bedliner (RPO CGN) is not covered for a loss of shine and luster or fading. Refer to the Owner's Manual for more information on spray-in bedliner maintenance.

Damage Due to Accident, Misuse, Impact, or Alteration

The New Vehicle Limited Warranty does not cover damage caused as the result of any of the following:

- Collision, fire, theft, freezing, vandalism, riot, explosion, or objects striking the vehicle
- Misuse of the vehicle such as spinning the wheels, driving over curbs, overloading, racing or other competition
- Lights, lenses, mirrors, paint, grille, moldings, and trim with cracks, chips, scratches, dents, dings, punctures, or tears due to impact with objects or road hazards
- Windshield or glass cracks, chips, or scratches due to impact
- Cracks, chips, scratches, or other damage to the face of a radio or instrument cluster from impact or foreign objects
- Installation of non-GM parts
- Water or fluid contamination

- Alteration, modification, or tampering to the vehicle, including, but not limited to the body, chassis, driveline, software, or other components after final assembly
- Alteration of glass parts by application of tinting films
- Coverages do not apply if the odometer has been disconnected, its reading has been altered, or mileage cannot be determined

Important: This warranty is void on vehicles currently or previously titled as salvaged, scrapped, junked, or otherwise considered a total loss.

Damage or Corrosion Due to Environment, Chemical Treatments, or Aftermarket Products

Damage caused by airborne fallout, rail dust, salt from sea air, salt or other materials used to control road conditions, chemicals, tree sap, insects, stones, hail, earthquakes, water or floods, windstorms, lightning, and other environmental conditions are not covered. The application of chemicals or sealants subsequent to manufacture, etc., is not covered. See “Chemical Paint Spotting” under “What is Covered” section.

Your vehicle was designed and built to resist corrosion. Application of additional rust-inhibiting materials is neither necessary nor required. GMC makes no recommendations concerning the usefulness or value of such products.

Application of after-manufacture rustproofing products may create an environment which reduces the corrosion resistance built into your vehicle. Repairs to correct damage caused by such applications are not covered.

Damage Due to Insufficient or Improper Maintenance

Damage caused by failure to follow the recommended maintenance schedule intervals and/or failure to use or maintain proper fluids, lubricants, or refrigerants between maintenance intervals recommended in the Owner's Manual is not covered. Vehicle lubrication, cleaning, or polishing is not covered. Failure of or damage to components requiring replacement or repair due to vehicle use, wear, exposure, or lack of maintenance is not covered.

Damage Due to Contaminated, Improper, or Poor Quality Fuel

Poor fuel quality or incorrect fuel may cause driveability problems such as hesitation, lack of power, stalling, or failure to start. They may also degrade functionality of critical exhaust emissions components such as spark plugs, oxygen sensors, and the catalytic converter. Damage from poor fuel quality, water contamination, or if the vehicle requires premium fuel, operating the vehicle on gasoline with a Pump Octane less than a 91 (R+M)/2, may not be covered.

Prohibited fuels are: Gasolines containing any methanol, MMT, an organometallic octane enhancing additive, and/or fuels containing more than 15% ethanol in non-Flex Fuel Vehicles (FFV).

Please refer to your Owner's Manual under "Fuel" for additional recommendations, including the use of TOP TIER Detergent Gasoline. Additional information can also be found at: www.toptiergas.com.

Over-the-Air Software Updates

The owner is responsible for ensuring all GMC-provided Over-the-Air software updates are installed within 45 days of software

availability to the vehicle. Damage resulting from failure to install Over-the-Air software updates is not covered.

Extra Expenses

Economic loss or extra expense is not covered. Examples include:

- Inconvenience
- Lodging, meals, or other travel costs
- Loss of vehicle use
- Payment for loss of time or pay
- State or local taxes required on warranty repairs
- Storage

Original Equipment Alterations

This warranty does not cover any damage or failure resulting from modification or alteration to the vehicle's original equipment as manufactured or assembled by General Motors. Examples of the types of alterations that would not be covered include, but are not limited to, the cutting, welding or disconnecting of the vehicle's original equipment parts and components.

This warranty does not cover a rebuilt vehicle after it has suffered such extensive collision damage in an accident that it was written-off or deemed to be written-off, even if the rebuilt vehicle uses undamaged parts and components from the written-off vehicle.

Additionally, General Motors does not warrant non-GM parts, calibrations and/or software modifications. The use of parts, control module calibrations, software modifications, and/or any other alterations not issued through General Motors will void the warranty coverage for those components that are damaged or otherwise affected by the installation of the non-GM part, control module calibration, software modification, and/or other alteration.

The only exception is that non-GM parts labeled "Certified to EPA Standards" are covered by the Federal Emissions Performance Warranty.

Recreation Vehicle and Special Body or Equipment Alterations

Installations or alterations to the Original Equipment (OE) vehicle or chassis as distributed by General Motors are not covered by this warranty. The special body

company, assembler, equipment installer, or upfitter is solely responsible for warranties on the body or equipment and any alterations or any effect of the alterations to any of the parts, components, systems, or assemblies installed by GM. GM is not responsible for the safety or quality of design, features, materials, or workmanship of any alterations by such suppliers. Examples include, but are not limited to, special body installation or conversions, such as recreational vehicles, the installation of a non-GM part, cutting, welding, or the disconnecting of original equipment vehicle or chassis parts and components, extension of wheelbase, suspension and driveline modifications, and axle additions.

Aftermarket Engine Performance Enhancement Products and Modifications

Some aftermarket engine performance products and modifications promise a way to increase the horsepower and torque levels of your vehicle's powertrain. You should be aware that these products may have detrimental effects on the performance and life of the engine, exhaust emission system, transmission, and drivetrain. Engine power enhancement products may enable

the engine to operate at horsepower and torque levels that could damage, create failure, or reduce the life of the engine, engine emission system, transmission, and drivetrain. Damage, failure, or reduced life of the engine, transmission, emission system, drivetrain, or other vehicle components caused by aftermarket engine performance enhancement products or modifications may not be covered under your vehicle warranty.

Third-Party Externally Connected Electrical Products

This warranty does not apply to hardware or software of a third-party device that is connected to the vehicle or its components, even if integrated or delivered with the vehicle. GMC is not responsible for the quality or accuracy of any information or service accessed through or from any third-party device or platform. Software distributed by GMC inside or outside the vehicle (including, but not limited to system software or applications) is not covered by this warranty. GMC does not warrant that connections to, from or through the vehicle will be uninterrupted or error-free. Also, the user should back-up their data and information frequently. GMC is not responsible for any

loss or damage to data or information made available in connection with the use of the vehicle.

In addition, this warranty does not apply: (a) to consumable parts that are designed to diminish over time, unless failure has occurred due to a defect in materials or workmanship; (b) to damage caused by use with another product or service; (c) to damage caused by a third party device or service (including upgrades and expansions), or (d) to obsolescence or lack of utility due to incompatibility with future versions of external hardware or software, including, but not limited to mobile devices.

Caution

This warranty excludes:

Any communications device that becomes unusable or unable to function as intended due to unavailability of compatible wireless service or GPS satellite signals.

Vehicle Operation and Care

Considering the investment you have made in your vehicle, we know you will want to operate and maintain it properly. We urge you to follow the maintenance instructions in your Owner's Manual.

If you have questions on how to keep your vehicle in good working condition, see your dealer, the place many customers choose to have their maintenance work done. You can rely on your dealer to use the proper parts and repair practices.

Pre-Delivery Service

Defects in or damage to the mechanical, electrical, sheet metal, paint, trim, upholstery, appearance items and other components of your vehicle may occur at the factory or while it is being transported to the dealership. Normally, any defect or damage occurring during assembly is detected and corrected at the factory during the inspection process. In addition, dealerships are obligated to inspect each vehicle before delivery and repair uncorrected factory defects and transit damage detected before the vehicle is delivered.

Any defects still present at the time the vehicle is delivered to you are covered by the warranty. If you find any defects, advise your dealer without delay. For further details concerning any repairs the dealer may have made prior to you taking delivery of your vehicle, ask your dealer.

Warranty Service

The selling dealer has invested in the proper tools, training, and parts inventory to ensure that any necessary warranty repairs can be made to your vehicle. GMC requests that the vehicle be returned to the selling dealer for all warranty repairs. If a situation or event occurs where you are significantly inconvenienced, an authorized GMC dealer can make the warranty repairs. In the event the dealer is not able to perform the repair due to the special tool and training requirements, contact the *Customer Assistance Offices* ⇨ 24.

Maintenance and Warranty Service Records

Retain receipts covering performance of regular maintenance. Receipts can be especially important if a question arises as to whether a malfunction is caused by lack of maintenance or a defect in material or workmanship. These receipts and records should be transferred to each subsequent owner of this vehicle.

A "Maintenance Record" is provided in the maintenance schedule section of the Owner's Manual for recording services performed.

The servicing dealer should provide a copy of any warranty repairs for your records.

Production Changes

GMC and GMC dealers reserve the right to make changes in vehicles built and/or sold by them at any time without incurring any obligation to make the same or similar changes on vehicles previously built and/or sold by them.

State Warranty Enforcement Laws

Laws in many states permit owners to obtain a replacement vehicle or a refund of the purchase price under certain circumstances. The provisions of these laws vary from state to state. To the extent allowed by state law, GMC requires that you first provide written notification of any service difficulty you have experienced so that we have an opportunity to make any needed repairs before you are eligible for the remedies provided by these laws. The address for written notification is in *Customer Assistance Offices* ⇨ 24.

Warranty Information for California Only

California Civil Code Section 1793.2(d) requires that if GM or its representatives are unable to repair a new motor vehicle to conform to the vehicle's applicable express warranties after a reasonable number of attempts, GM shall either replace the new motor vehicle or reimburse the buyer the amount paid or payable by the buyer. California Civil Code Section 1793.22(b) creates a presumption that GM has had a reasonable number of attempts to conform the vehicle to its applicable

express warranties if, within 18 months from delivery to the buyer or 18,000 miles on the vehicle's odometer, whichever occurs first, one or more of the following occurs:

- The same nonconformity results in a condition that is likely to cause death or serious bodily injury if the vehicle is driven AND the nonconformity has been subject to repair two or more times by GM or its agents AND the buyer or lessee has directly notified GM of the need for the repair of the nonconformity.
- The same nonconformity has been subject to repair four or more times by GM or its agents AND the buyer has notified GM of the need for the repair of the nonconformity.
- The vehicle is out of service by reason of repair nonconformities by GM or its agents for a cumulative total of more than 30 calendar days after delivery of the vehicle to the buyer.

NOTICE TO GENERAL MOTORS AS REQUIRED ABOVE SHALL BE SENT TO THE FOLLOWING ADDRESS:

General Motors LLC
P.O. Box 33170
Detroit, MI 48232-5170

When you make an inquiry, provide the VIN, year, model, and mileage of your vehicle.

Touring Owner Service – United States, Canada, and Mexico

If you are touring, visit any GM dealer handling your vehicle line in the United States, Canada, or Mexico for warranty service. Warrantable repairs will be completed at no charge to you. You may be required to provide proof of current and former residency such as driver's license or vehicle ownership.

Touring Owner Service – Foreign Countries

If you are touring in a foreign country and repairs are needed, take your vehicle to the nearest GM dealer which sells and services GMC vehicles. If a GMC dealer cannot be located, significantly inconvenienced customers can take their vehicle to any GM dealer for repairs.

Important: Repairs made necessary by the use of improper or dirty fuels and lubricants are not covered under the warranty. See your Owner's Manual for additional information on fuel requirements when operating in foreign countries.

Permanent Relocation

This warranty is for GMC vehicles originally sold, registered, and normally operated in the United States. If you have permanently relocated and established household residency in another country, GM may authorize the performance of repairs based on the warranty coverage for vehicles generally sold by GM in that country. Contact an authorized GM dealer in your country for assistance.

Important: Warranty coverages may be void or subject to restrictions on vehicles that have been imported or exported for resale.

Warranty Coverage Extensions

Time Extensions

The New Vehicle Limited Warranty may be extended one day for each day beyond the first 24-hour period in which your vehicle

is at an authorized dealership for warranty service. You may be asked to show the repair orders to verify the period of time the warranty is to be extended. Your extension rights may vary depending on state law.

Mileage Extension

Prior to delivery, some miles are put on your vehicle during testing at the assembly plant, during shipping, and while at the dealership. For eligible vehicles, this mileage will be added to the mileage limits of the warranty ensuring that you receive full benefit of the coverage.

Mileage extension eligibility:

- Applies only to new vehicles held exclusively in new vehicle inventory.
- Does not apply to used vehicles, GM-owned vehicles, dealer-owned used vehicles, or dealer demonstrator vehicles.
- Does not apply to vehicles with more than 1,000 miles on the odometer even though the vehicle may not have been registered for license plates.

Special Coverage Adjustment Programs Beyond the Warranty Period

GMC is proud of the protection afforded by its warranty coverages. In order to achieve maximum customer satisfaction, there may be times when GMC will establish a special coverage adjustment program to pay all or part of the cost of certain repairs not covered by the warranty or to reimburse certain repair expenses you may have incurred. Check with your dealer or call the Customer Assistance Center to determine whether any special coverage adjustment program is applicable to your vehicle.

When you make an inquiry, you will need to give the year, model, and mileage of your vehicle and your VIN.

Warranty Repairs – Component Exchanges

In the interest of customer satisfaction, GMC may offer exchange service on some vehicle components. This service is intended to reduce the amount of time your vehicle is not available for use due to repairs. Components

used in exchange are service replacement parts that may be new, remanufactured, or refurbished.

Remanufactured parts meet GMC approved service parts requirements and are made from previously used components in a process that involves disassembly, inspection, cleaning, update of software and replacement parts as appropriate, testing and reassembly.

Refurbished parts meet GMC approved service part requirements and are previously used parts that are inspected, cleaned, tested, and repackaged.

All exchange components used meet GMC standards and are warranted the same as new components. Examples of the types of components that might be serviced in this fashion include transmission assemblies, instrument cluster assemblies, radios, compact disc players, and battery control modules.

Warranty Repairs – Recycled Materials

Environmental Protection Agency (EPA) guidelines and GMC support the capture, purification, and reuse of automotive air conditioning refrigerant gases. As a result, any repairs made to your vehicle may involve the installation of purified reclaimed refrigerant and coolant.

Other Terms

This warranty gives you specific legal rights. You may also have rights which vary from state to state according to applicable legislation.

Punitive, exemplary, or multiple damages may not be recovered unless applicable law prohibits their disclaimer. You may not bring any warranty-related claim as a class representative, a private attorney general, a member of a class of claimants or in any other representative capacity.

GMC does not authorize any person to create for it any other obligation or liability in connection with these vehicles. Any implied warranty of merchantability or fitness for

a particular purpose applicable to this vehicle is limited to the durations specified within this written warranty. The performance of repairs, provision of replacement parts, and needed adjustments is the exclusive remedy under this written warranty or any implied warranty. GMC shall not be liable for incidental or consequential damages, such as, but not limited to, lost wages or vehicle rental expenses, resulting from breach of this written warranty or any implied warranty. Some states do not allow limitations on how long an implied warranty will last or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

How to Determine the Applicable Emissions Warranty

State and Federal agencies may require a different emission warranty coverage depending on:

- Whether the vehicle conforms to regulations applicable to light duty or heavy duty emission control systems.
- Whether the vehicle conforms to or is certified for California regulations in addition to U.S. EPA Federal regulations. All vehicles are eligible for Federal Emission Control System Warranty. The California Emission Control System Warranty section of this manual gives the requirements for that warranty.

Defects in material or workmanship in GM emission parts may also be covered under the New Vehicle Limited Warranty Bumper-to-Bumper coverage. The warranty with the broadest coverage applies.

Any authorized General Motors dealer will, as necessary under these warranties, replace, repair, or adjust to GM specifications any genuine GM parts that affect emissions. The applicable warranty period shall begin on the

date the vehicle is delivered to the first retail purchaser, or if the vehicle is first placed in service as a demonstrator or company vehicle prior to sale at retail, on the date the vehicle is placed in such service.

Federal Emission Control System Warranty

All vehicles are eligible for Federal Emission Control System Warranty. This warranty is issued in accordance with the U.S. Federal Clean Air Act. The Emission related parts covered under the Federal Warranty are listed under the Emission Warranty Parts List.

Federal Emissions Warranty Coverage

For Passenger Car or Light Duty Truck with a Gross Vehicle Weight Rating (GVWR) of 8,500 lbs. or less

- 2 years or 24,000 miles, whichever comes first for Emissions related parts
- 8 years or 80,000 miles, whichever comes first for Emissions select components; catalytic converters, engine control module, transmission control module, and other diagnostic emissions critical-electronic control units

For Heavy Duty Vehicles with a Gross Vehicle Weight Rating (GVWR) greater than 8,500 lbs.

- 5 years or 50,000 miles, whichever comes first for Emissions related parts

Federal Emission Defect Warranty

GM warrants to the owner the following:

- The vehicle was designed, equipped and built to conform at the time of sale with applicable regulations of the U.S. Federal Environmental Protection Agency (EPA).
- The vehicle is free from emissions defects in materials and workmanship which cause the vehicle to fail to conform to those regulations during the emission warranty period.
- Emission-related defects in the genuine GM parts listed under the Emission Warranty Parts List, including related diagnostic costs, parts, and labor are covered by this warranty.

Federal Emission Performance Warranty

Some states and/or local jurisdictions have established periodic vehicle Inspection and Maintenance (I/M) programs to encourage

proper maintenance of your vehicle. If an EPA approved I/M program is enforced in your area, you may also be eligible for Emission Performance Warranty coverage when all three of the following conditions are met:

1. The vehicle has been maintained and operated in accordance with the instructions for proper maintenance and use set forth in the owner manual supplied with your vehicle.
2. The vehicle fails an EPA-approved I/M test during the emission warranty period.
3. The failure results, or will result, in the owner of the vehicle having to bear a penalty or other sanctions, including the denial of the right to use the vehicle, under local, state, or Federal law.

GM warrants that your dealer will replace, repair, or adjust to GM specifications, at no charge to you, any of the parts listed under the Emission Warranty Parts List which may be necessary to conform to the applicable emission standards. Non-GM parts labeled "Certified to EPA Standards" are covered by the Federal Emission Performance Warranty.

California Emission Control System Warranty

This section outlines the emission warranty that GM provides for your vehicle is in accordance with the California Air Resources Board. This coverage is in addition to the Federal Emission Warranty. The Emission related parts covered under the California Warranty are listed under the Emission Warranty Parts List.

California Emissions Warranty Requirements

This warranty applies if your vehicle meets both of the following requirements:

- Your vehicle is registered in California or other state adopting California emission and warranty regulations. These states include Colorado, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont, and Washington.
- Your vehicle is certified for sale in California as indicated on the vehicle's emission control information label.

Your Rights and Obligations (For Vehicles Subject to California Exhaust Emission Standards)

The California Air Resources Board and General Motors are pleased to explain the emission control system warranty on your vehicle. In California, new motor vehicles must be designed, built, and equipped to meet the state's stringent anti-smog standards. GM must warrant the emission control system on your vehicle for the periods of time and mileage listed provided there has been no abuse, neglect, or improper maintenance of your vehicle. Your vehicle's emission control system may include parts such as the fuel injection system, ignition system, catalytic converter, and engine computer. Also included are hoses, belts, connectors, and other emission-related assemblies. Where a warrantable condition exists, GM will repair your vehicle at no cost to you including diagnosis, parts, and labor.

California Emission Defect and Emission Performance Warranty Coverage

For Passenger Car or Light Duty Truck with a Gross Vehicle Weight Rating (GVWR) of 14,000 lbs. or less

- 3 years or 50,000 miles, whichever comes first for Emissions related parts
 - If your vehicle fails a smog check inspection, GM will make all necessary repairs and adjustments to ensure that your vehicle passes the inspections. This is your Emission Control System Performance Warranty.
 - If any emission related part on the Emission Warranty Parts List is defective, GM will repair or replace it. This is your Short-Term Emission Control System Defect Warranty.
- 7 years or 70,000 miles, whichever comes first for Emissions related parts
 - If any emission related part specially noted on the Emission Warranty Parts List is defective or if its failure causes your vehicle to fail a Smog Check inspection, GM will repair or replace it. This is your Long-Term Emission Control System Defect Warranty.

For Heavy Duty Vehicles with a GVWR greater than 14,000 lbs.

- 5 years or 50,000 miles for gasoline engines, whichever comes first for emission related parts
- 5 years or 100,000 miles for diesel engines, whichever comes first for emission related parts

Owner's Warranty Responsibilities

As the vehicle owner, you are responsible for the performance of the scheduled maintenance listed in your Owner's Manual. GM recommends that you retain all maintenance receipts for your vehicle, but GM cannot deny warranty coverage solely for the lack of receipts or for your failure to ensure the performance of all scheduled maintenance. You are responsible for presenting your vehicle to a General Motors dealer selling your vehicle line as soon as a problem exists. The warranted repairs should be completed in a reasonable amount of time, not to exceed 30 days. As the vehicle owner, you should also be aware that General Motors may deny warranty coverage if your vehicle or a part has failed due to abuse, neglect, improper or insufficient

maintenance, modifications not approved by General Motors, or if the defect is not emissions related.

If you have any questions regarding your rights and responsibilities under these warranties, you should contact the Customer Assistance Center at 1-800-222-1020 or, in California, write to:

State of California Air Resources Board
Mobile Source Operations Division
P.O. Box 8001
El Monte, CA 91731-2990

Emission-related defects in the emission parts listed here are covered under the Emission Control System Warranty. The terms are explained in the *Emission Control Systems Warranty* ⇨ 16 under “Federal Emission Control System Warranty” and the “California Emission Control System Warranty.”

Federal Emissions Select Components covered for 8 years or 80,000 miles, whichever comes first (for vehicles with GVWR of 8,500 lbs or less). These Select Components are designated with (8/80) below.

- Diagnostic Emissions Critical - Electronic Control Units (8/80)
- Engine Control Module (8/80)
- Transmission Control Module (8/80)
- Catalytic Converters (8/80)

Important: Certain parts may be covered beyond the standard warranty period if shown with asterisk as follows:

(*) 7 years or 70,000 miles, whichever comes first, under the California Emission Control System Warranty coverage

Transmission Control System

Transmission Control Solenoid Valve with TCM*

Transmission Control Valve Body*

Transmission Electrical Sensors and Actuators

Also covered by this Warranty are hoses, switches, sensors, solenoids, gaskets, seals, wiring harnesses and connectors used with components on the Emission Warranty parts list.

Parts specified in your maintenance schedule that require scheduled replacement are covered up to their first replacement interval

or the applicable emission warranty coverage period, whichever comes first. If failure of one of these parts results in failure of another part, both will be covered under the Emission Control System Warranty. For detailed information concerning specific parts covered by these emission control system warranties, ask your dealer.

Replacement Parts

The emission control systems of your vehicle were designed, built, and tested using genuine GM parts* and the vehicle is certified as being in conformity with applicable federal and California emission requirements. **Accordingly, it is recommended that any replacement parts used for maintenance or for the repair of emission control systems be new, genuine GM parts.**

The warranty obligations are not dependent upon the use of any particular brand of replacement parts. The owner may elect to use non-genuine GM parts for replacement purposes. Use of replacement parts which are not of equivalent quality may impair the effectiveness of emission control systems.

If other than new, genuine GM parts are used for maintenance replacements or for the repair of parts affecting emission control, the owner should assure himself/herself that such parts are warranted by their manufacturer to be equivalent to genuine GM parts in performance and durability.

* "Genuine GM parts," when used in connection with GM vehicles, means parts manufactured by or for GM, designed for use on GM vehicles, and distributed by any division or subsidiary of GM.

Maintenance and Repairs

Maintenance and repairs can be performed by any qualified service outlet; however, warranty repairs must be performed by an authorized dealer except in a situation where the vehicle owner is significantly inconvenienced and a warranted part or a warranty station is not reasonably available to the vehicle owner.

In a situation where the vehicle owner is significantly inconvenienced, and an authorized dealer is not reasonably available, repairs may be performed at any available service establishment or by the owner, using any replacement part. General Motors will

consider reimbursement for the expense incurred, including diagnosis, not to exceed the manufacturer's suggested retail price for all warranted parts replaced and labor charges based on General Motors's recommended time allowance for the warranty repair and the geographically appropriate labor rate. A part not being available within 10 days or a repair not being completed within 30 days constitutes a significant inconvenience. Retain receipts and failed parts in order to receive compensation for warranty repairs reimbursable due to these situations.

If you are in a situation where you are significantly inconvenienced, and it is necessary to have repairs performed by other than a General Motors dealer and you believe the repairs are covered by emission warranties, take the replaced parts and your receipt to a General Motors dealer for reimbursement consideration. This applies to both the Federal Emission Defect Warranty and Federal Emission Performance Warranty.

Receipts and records covering the performance of regular maintenance or other repairs (such as those outlined earlier) should be retained in the event questions

arise concerning maintenance. These receipts and records should be transferred to each subsequent owner. GM will not deny warranty coverage solely on the absence of maintenance records. However, GM may deny a warranty claim if a failure to perform scheduled maintenance resulted in the failure of a warranty part.

Claims Procedure

As with the other warranties covered in this booklet, take your vehicle to any authorized General Motors dealer facility to obtain service under the emission warranty. This should be done as soon as possible after failing an EPA-approved I/M test or a California smog check test, or at any time you suspect a defect in a part.

Those repairs qualifying under the warranty will be performed by any General Motors dealer at no charge. Repairs which do not qualify will be charged to you. You will be notified as to whether or not the repair qualifies under the warranty within a reasonable time, not to exceed 30 days after receipt of the vehicle by the dealer, or within the time period required by local or state law.

The only exceptions would be if you request or agree to an extension, or if a delay results from events beyond the control of your dealer or GM. If you are not so notified, GM will provide any required repairs at no charge.

In the event a warranty matter is not handled to your satisfaction, refer to the *Customer Satisfaction Procedure* ⇨ 22.

For further information or to report violations of the Emission Control System Warranty, you may contact the EPA at:

U.S. Environmental Protection Agency
Office of Transportation and Air Quality
Compliance Division, Light-Duty Vehicle Group

Attn: Warranty Complaints
2000 Traverwood Drive
Ann Arbor, MI 48105

Email: complianceinfo@epa.gov

For a vehicle subject to the California Exhaust Emission Standards, you may contact the:

State of California Air Resources Board
Mobile Source Operations Division
P.O. Box 8001
El Monte, CA 91731-2990

Your satisfaction and goodwill are important to your dealer and to GMC. Normally, any concerns with the sales transaction or the operation of the vehicle will be resolved by your dealer's sales or service departments. Sometimes, however, despite the best intentions of all concerned, misunderstandings can occur. If your concern has not been resolved to your satisfaction, the following steps should be taken:

STEP ONE: Discuss your concern with a member of dealership management.

Normally, concerns can be quickly resolved at that level. If the matter has already been reviewed with the sales, service, or parts manager, **contact the owner of the dealer facility** or the general manager.

STEP TWO: If after contacting a member of dealer management, it appears your concern cannot be resolved by your dealership without further help **contact the GMC Customer Assistance Center** at 1-800-462-8782. For Customer Care Centres in Canada, see *Customer Assistance Offices* ⇨ 24.

We encourage you to call the toll-free number in order to give your inquiry prompt attention. Have the following information available to give the Customer Assistance Representative:

- Vehicle Identification Number (VIN). This is available from the vehicle registration or title, or the plate at the top left of the instrument panel and visible through the windshield.
- Dealership name and location.
- Vehicle delivery date and present mileage.

When contacting GMC, remember that your concern will likely be resolved at a dealer's facility. That is why we suggest you follow Step One first if you have a concern.

STEP THREE: Both GMC and your dealer are committed to making sure you are completely satisfied with your new vehicle. However, if you continue to remain unsatisfied after following the procedure outlined in Steps One and Two, you can file with the Better Business Bureau (BBB) AUTO LINE Program to enforce your rights.

The BBB AUTO LINE Program is an out-of-court program administered by BBB National Programs, Inc. to settle automotive disputes regarding vehicle repairs or the interpretation of the New Vehicle Limited Warranty.

Although you may be required to resort to this informal dispute resolution program prior to filing a court action, use of the program is free of charge and your case will generally be heard within 40 days. If you do not agree with the decision given in your case, you may reject it and proceed with any other venue for relief available to you.

You may contact the BBB AUTO LINE Program using the toll-free telephone number or write them at the following address:

BBB AUTO LINE a Division of
BBB National Programs, Inc.
1676 International Drive
Suite 550
McLean, VA 22102

Telephone: 1-800-955-5100
www.bbbautoline.org

Your inquiry should be accompanied by the Vehicle Identification Number (VIN).

This program is available in all 50 states and the District of Columbia. Eligibility is limited by vehicle age, mileage, and other factors. General Motors reserves the right to change eligibility limitations and/or discontinue its participation in this program.
