

Wind Deflector

Model # 24-B-24
30-B-24A
36-B-24

INSTALLER: Leave these instructions with consumer.
CONSUMER: Retain for future reference.

This wind deflector is for use on AOG grills. To install, follow the steps below:

Ensure the grill is completely cool, the knobs are in the off position, the gas supply to your grill is turned off, and the power supply is disconnected (as applicable).

1. Open the oven lid and orient the wind deflector over the top of the oven liner.
2. Install wind deflector:

24" models- Insert the left side (A), the right side (B), then slightly shift right to center (C). See Fig. 1-1.

30/36" models- Center the wind deflector from left to right. Then, carefully slide the wind deflector into place, until the tabs lock the deflector in place. See Fig. 1-2.

3. Using the provided #37 drill bit, drill a pilot hole through the oven liner with the wind deflector in place and using the center screw hole as a guide.
4. Install a hex screw (included) in the pre-drilled hole to secure wind deflector to the oven liner as shown in Fig. 1-4.

Note: The wind deflector is designed for permanent installation.
