Sashiko

Specialty Machine

For over 200 years, sewers have created gorgeous patterns by hand stitching, using a technique known as Sashiko. Now, this traditional look can be created on a machine with the exclusive Sashiko from Baby Lock. It perfectly replicates this distinctive stitch with a unique needle system and adjustable stitches and spacing.

Sashiko

Specialty Machine

LED Monitor

This unique system indicates when the needle is in the up or down position, in bobbin exchange mode, and when the Specialty Stitch Mode is selected.

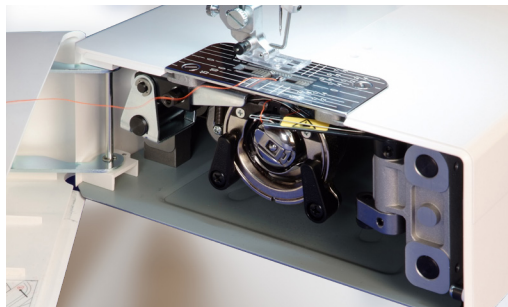

Free-Flow Sewing And U-Shaped Fluorescent Lamp

The adjustable presser foot height allows you to easily turn the fabric to stitch circles and other shapes with complete control. The entire needle area is surrounded by a lighting system for maximum illumination.

Precise Sashiko Stitches

A specialty needle, working in conjunction with a latch wire system, forms defined stitches and precise spacing to create a true hand-stitched look.

Bobbin System

The side loading oscillating bobbin system is conveniently located for fast and easy removing and loading of a bobbin.

Stitch Length and Stitch Spacing Control

Create short or long stitches ranging from 2mm to 5mm using the adjustable lever. Create short or long spaces with adjustable spacing from 2mm to 5mm.

Specialty Stitch Mode

With the specialty stitch mode, a complete cycle of one single stitch and space allows the control you need when single stitch sewing is desired for creative techniques.

Key Features

- U-Shaped fluorescent lamp
- Color LED Panel for stitch function
- Stitch length 2mm to 5mm
- Stitch spacing 2mm to 5mm
- Single stitch function (Specialty Stitch Mode)
