Thanks for buying a BISSELL vacuum

We're glad you purchased a BISSELL vacuum. Everything we know about floor care went into the design and construction of this complete, high-tech home cleaning system.

Your BISSELL vacuum is well made, and we back it with a limited two year warranty. We also stand behind it with a knowledgeable, dedicated Consumer Care department, so, should you ever have a problem, you'll receive fast, considerate assistance.

My great-grandfather invented the floor sweeper in 1876. Today, BISSELL is a global leader in the design, manufacture, and service of high quality homecare products like your BISSELL vacuum.

Thanks again, from all of us at BISSELL.

Mark J. Bissell
Chairman & CEO

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions should be observed, including the following:

READ ALL INSTRUCTIONS BEFORE USING YOUR UPRIGHT VACUUM.

Always connect to a polarized outlet (left slot is wider than right). Unplug from outlet when not in use and before conducting maintenance.

 **WARNING:** To reduce the risk of fire, electric shock, or injury:

- Do not modify the polarized plug to fit a non-polarized outlet or extension cord.
- Do not leave vacuum cleaner unattended when it is plugged in.
- Unplug from outlet when not in use and before servicing.
- Do not use outdoors or on wet surfaces.
- Do not allow children to operate vacuum cleaner or use as a toy.
- Close attention is necessary when used by or near children.
- Do not use for any purpose other than described in this user's guide.
- Use only manufacturer's recommended attachments.
- Do not use with damaged cord or plug.
- If appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, have it repaired at an authorized service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle vacuum cleaner or plug with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep openings free of dust, lint, hair, and anything that may reduce air flow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Turn off all controls before plugging or unplugging vacuum cleaner.
- Use extra care when cleaning stairs.
- Do not pick up flammable materials (lighter fluid, gasoline, kerosene, etc.) or use in the presence of explosive liquids or vapors.
- Do not pick up toxic material (chlorine bleach, ammonia, drain cleaner, etc.).
- Do not use vacuum cleaner in an enclosed space filled with vapors given off by oil base paint, paint thinner, some moth proofing substances, flammable dust, or other explosive or toxic vapors.
- Do not pick up hard or sharp objects such as glass, nails, screws, coins, etc.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use without filters in place.
- Use only on dry, indoor surfaces.
- Keep appliance on a level surface.
- Do not carry the vacuum cleaner while it is running.
- Hold plug when rewinding onto cord reel. Do not allow plug to whip when rewinding.
- Unplug before connecting TurboBrush® Tool.

SAVE THESE INSTRUCTIONS FOR FUTURE USE

THIS APPLIANCE HAS A POLARIZED PLUG

To reduce the risk of electric shock, this appliance has a polarized plug (one blade is wider than the other). This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install a proper outlet. Do not change the plug in any way.

This model is for household use only.

Product view

WARNING:

Do not plug in your vacuum cleaner until you are familiar with all instructions and operating procedures.

WARNING:

Plastic film can be dangerous. To avoid danger of suffocation, keep away from babies and children.

*The filter media, not the vacuum as a whole, complies with IEST-RP-CC001.5 HEPA standard.

Assembly

You need: Phillips head screwdriver.

Attach handle to vacuum

1. Locate the vacuum handle and remove the screw packet taped to the base of the handle.
2. Stand the vacuum upright and slide the base of the handle firmly into the grooves at the top of the vacuum body.
3. Insert the screws provided from the screw packet into the existing holes. Tighten securely with a screwdriver.

Attach vacuum hose and tools

1. Line up tabs on the base of the Twist 'n Snap™ hose with the corresponding notches on the hose collar. Turn the hose to the right to lock into place.
2. Grasp the Hose Wand and slide the end of the hose wand into the hose wand base. Snap the hose into the upper hose clip on handle.
3. Slide the extension wand and crevice tool together into storage clip.
4. Snap the combination tool into the storage clip.
5. The TurboBrush® Tool bracket slides into the front of the handle. Attach the bracket by aligning the pegs with the holes on the handle and pulling down until it locks into place.
6. Place the TurboBrush® Tool in the bracket by aligning the bottom of bracket with the opening of the brush roll and snap the TurboBrush® Tool into place.

Operations

Automatic Cord Rewind

Gently pull out power cord and stop when yellow line is visible. Do not pull power cord beyond the red line. Plug cord into electrical outlet.

To retract, press the button on top of the cord rewind. Hold onto the plug while rewinding to prevent the cord from whipping.

Power Switch

Push the rocker switch "ON" (I) to vacuum, and "OFF" (O) when cleaning is complete.

Handle position

Press the handle release pedal with foot to place vacuum into cleaning positions.

- 1. Upright:** For storage, transporting, and above floor cleaning with tools.
 - Transport in upright position by tilting vacuum on rear wheels and push forward or use carrying handle on back of handle base.
- 2. Normal cleaning:** Press handle release pedal once for most household floor cleaning.
- 3. Low cleaning:** From normal cleaning position, press handle release pedal once for cleaning under low furniture.

Height Adjustments

Turn dial on powerfoot to adjust to one of 5 height adjustments. If dial is difficult to turn, tilt the cleaner back slightly to take the weight off the foot while turning.

Lowest Setting: For low pile carpet and bare floors.

Medium Setting: For medium pile carpet.

Highest Setting: For high pile and most shag carpet. Adjust to high setting if difficult to push.

Height Adjustment Knob

Operations

Tools

Attach desired tool to hose for above floor cleaning surfaces or hard to reach areas.

1. **Remove Hose:** with vacuum in upright position, grasp the Hose Wand to separate hose from hose base.
2. **Attach tools** by firmly pushing onto vacuum hose or extension wand.
 - A. Combination dusting brush/upholstery tool:**
Rotate for desired use. Use brush side to dust, blinds, books, lamps, shelves, and baseboards. Use upholstery side to for furniture, drapes, and fabrics.
 - B. Crevice Tool:** Use in tight narrow spaces.
 - C. Extension Wand:** Use with desired attachment for longer reach.
 - D. TurboBrush® Tool:** Use rotation brush action for small flat areas such as stairs and cushions. Press gently down and pull towards you in raking motion; too much pressure will cause brush to stop rotating.

NOTICE:

The floor brush will continue to rotate while you use your vacuum for above floor cleaning. To prevent carpet damage, do not lean on the vacuum or let the powerfoot tilt forward.

Operations

Empty Dirt Container

Empty when dirt reaches the "Full" line on the container.

1. Turn power OFF. Unplug power cord from electrical outlet.
2. Slide Lock 'n Seal lever to "Unlock" position.
3. Grasp dirt cup handle portion and pull straight out to remove from vacuum and empty.
4. Place dirt container back in the vacuum and slide lever to lock position.

NOTE: The dirt container may be washed in warm water with mild detergent. Make sure it is completely dry before replacing.

Maintenance and care

Cleaning the inner & outer circular filter

1. Turn power OFF. Unplug vacuum cord from electrical outlet.
2. Remove dirt container and filter cup. Grasp the filter located at the bottom of the filter cup, lift and pull straight out. **DO NOT PULL CIRCULAR FOAM FILTER OUT OF THE FILTER CUP WHILE IT IS STILL IN THE VACUUM.**
3. Grasp the plastic tab on the top of the circular foam filters; twist to unlock and pull out.

Maintenance and care

Cleaning the inner & outer circular filter continued

4. Separate the outer foam filter and inner pleated circular filter. Wash each individually by hand in warm water. Mild detergent may be used if desired. Rinse well; let filters completely air dry before replacing in filter cup.
5. Wash filter cup in warm water with mild detergent. Completely air dry before reassembling with filters.
DO NOT PUT IN DISHWASHER.
6. The upper tank and louvers can be wiped clean with a damp cloth. Reach underneath the upper tank and turn the rim of the louvers to the left to unlock. Pull straight down and remove. Make sure all parts are completely dry before replacing.
7. To replace louvers, position top of louvers inside clear center cavity and turn toward the right to lock tabs into place.

Cleaning the pre-motor filter

The pre-motor filter protects the motor from debris.

1. Turn power OFF. Unplug vacuum cord from electrical outlet.
2. The pre-motor filter is located underneath the filter cup in the round center portion of the Lock 'n Seal lever.
3. Remove the small round filter and any debris on top of it. Rinse under warm water; air dry completely before replacing.

Pre-Motor Filter

Replacing the post-motor filter

The post-motor filter assists in the filtration process to return clean air to the room.

1. Turn power OFF. Unplug vacuum cord from electrical outlet.
2. Locate filter behind door at the front of the vacuum. Remove and replace when filter becomes dirty. The white, pleated filter is NOT washable.

Maintenance and care

Checking rotating floor brush and drive belt

Check your vacuum's rotating floor brush and drive belt regularly for wear or damage.

1. Turn power OFF. Unplug vacuum cord from electrical outlet.
2. Place handle in low position and turn vacuum over so bottom side is facing up.
3. Using a screwdriver, remove the five screws and lift brush cover off.
4. Grasp rotating floor brush at both ends and lift.
5. Clean strings, hair and other debris from rotating floor brush, motor pulley and drive belt areas.
6. Check drive belt for wear, cuts or stressed areas.
7. Check air passageway for obstructions. Remove debris from this area.

Replace drive belt

1. Turn power OFF. Unplug vacuum cord from electrical outlet.
2. With rotating brush removed (steps 1-4 of checking rotating floor brush and drive belt), grasp old drive belt and remove from motor pulley. Discard old drive belt.
3. Place new drive belt over motor pulley and stretch other end over rotating floor brush in the space between the bristles.
4. Place ends of rotating floor brush down into slots.
5. Turn rotating floor brush by hand in the direction of the motor pulley. If properly installed, drive belt will center itself on rotating brush.
6. Reposition brush cover and fasten 5 screws back into place.

Maintenance and care

Clearing a clog

Low suction or poor pickup may be due to a clog in the vacuum. If you notice a change in the sound of the vacuum motor, check for clogs.

1. Turn power OFF. Unplug vacuum cord from electrical outlet.
2. Empty dirt container.
3. Check upper tank and suction inlet for clogs.
4. Grasp Hose Wand and remove hose wand from base to check for clogs in the base, the wand, and the hose.
5. Remove the screw attaching the hose wand base to the vacuum. Straighten the hose wand base and unclog with long, narrow object such as broom stick.
6. If the clog persists, follow steps for checking rotating floor brush on page 10 and inspect the air passageway for obstructions.

TurboBrush Tool maintenance

1. Turn power OFF. Unplug vacuum cord from electrical outlet.
2. Remove tool from hose or from clip on vacuum handle.
3. Twist collar so opening is at the top and lift clear cover to remove.
4. Remove brush from belt and clean debris.
5. Replace brush inside belt and place ends into slots on the sides.
6. Reposition top cover making sure to line up inside tab at the front with the opening on the cover. Twist collar until opening is at the bottom to lock into place.

Troubleshooting

Vacuum cleaner won't turn on

Possible causes

1. Power cord not plugged in
2. Blown fuse/tripped breaker
3. Damaged cord

Remedies

1. Check electrical plug
2. Check/replace fuse or reset breaker
3. Refer to a BISSELL authorized service center for repair or replacement

Vacuum cleaner won't pick up

Possible causes

1. Incorrect height adjustment
2. Hose not attached to suction opening
3. Crack or hole in hose
4. Broken or worn drive belt
5. Rotating floor brush bristles worn
6. Rotating floor brush jammed
7. Clog in vacuum
8. Dirt container full
9. Dirt container or upper tank not installed properly
10. Filters are dirty

Remedies

1. Adjust powerfoot to correct height setting
2. Grasp quick reach handle and firmly push hose wand onto the suction opening
3. Check hose and replace if needed
4. Replace drive belt, see page 10
5. Replace brush
6. Remove brush and clean debris from brush ends
7. Follow instructions on page 11 for clearing clogs
8. Empty dirt container
9. Position correctly and lock in place
10. Check and clean pre-motor and post-motor filters, see pages 8 & 9

Tools won't pick up

Possible causes

1. Crack or hole in hose
2. Clog in vacuum
3. Dirt container full
4. Dirt container or upper tank not installed properly
5. Filters are dirty

Remedies

1. Check hose and replace if needed
2. Follow instructions on page 11 for clearing clogs
3. Empty dirt container
4. Position correctly and lock in place
5. Check and clean pre-motor and post-motor filters

Visible dirt escaping from cleaner

Possible causes

1. Dirt container full
2. Filters missing or installed incorrectly

Remedies

1. Empty dirt container
2. Check pre-motor and post-motor filters for correct installation

Cord will not retract

Possible causes

1. Knotted or twisted

Remedies

1. Follow instructions on page 6

Other maintenance or service not included in the manual should be performed by an authorized service representative.

Warranty

This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state. If you need additional instruction regarding this warranty or have questions regarding what it may cover, please contact BISSELL Consumer Care by E-mail, telephone, or regular mail as described below.

Limited Two Year Warranty

Subject to the *EXCEPTIONS AND EXCLUSIONS identified below, upon receipt of the product BISSELL will repair or replace (with new or remanufactured components or products), at BISSELL's option, free of charge from the date of purchase by the original purchaser, for two years any defective or malfunctioning part.

See information below on "If your BISSELL product should require service".

This warranty applies to product used for personal, and not commercial or rental service. This warranty does not apply to fans or routine maintenance components such as filters, belts, or brushes. Damage or malfunction caused by negligence, abuse, neglect, unauthorized repair, or any other use not in accordance with the User's Guide is not covered.

If your BISSELL product should require service:

Contact BISSELL Consumer Care to locate a BISSELL Authorized Service Center in your area.

If you need information about repairs or replacement parts, or if you have questions about your warranty, contact BISSELL Consumer Care.
