HOW TO

Inflating and deflating the Hangout Chair™ is simple. First remove the folded Hangout Chair™ from the sling, unroll, attach the pump hose to the inflation valve and fill 'er up. The Hangout Chair™ is to be filled until the pressure reaches 6-8 PSI. When you are ready to pack it up, do everything in reverse.

CARE & STORAGE

Always store your Hangout Chair™ in a cool, dry place or shady area out of reach of direct sunlight to avoid bursting or fading of colors. The sun both weakens the material and seams and increases the pressure beyond its design limits. If you must leave your Hangout Chair™ out of the water and in direct sunlight, reduce pressure until the Hangout Chair™ is compressible by hand.

The Hangout Chair's™ recommended inflation is between 6-8 PSI for the Arm Rest.
