HOW TO

Inflating and deflating the Hangout Sling Chair™ is simple. First remove the folded Hangout Sling Chair™ from the sling bag, unroll, attach the pump hose to the inflation valve and fill 'er up. The Hangout Sling Chair™ is to be filled until the pressure reaches 2-3 PSI. When you are ready to pack it up, do everything in reverse.

CARE & STORAGE

Always store your Hangout Sling Chair™ in a cool, dry place or shady area out of reach of direct sunlight to avoid bursting or fading of colors. The sun both weakens the material and seams and increases the pressure beyond its design limits. If you must leave your Hangout Sling Chair™ out of the water and in direct sunlight, reduce pressure until the Hangout Sling Chair™ is compressible by hand.

The Hangout Sling Chair's™ recommended inflation is between 2-3 PSI.
