Batteries

This appliance operates with one AA 1.5 V battery. For best performance, use an alkaline manganese battery (type LR 6, MN 1500, AM 3, AA). Different types, brands, chargeable and non-rechargeable, new and used batteries are not to be used together.

When action (e.g. speed/vibration) reduces, change the battery promptly. Make sure the appliance is turned off.

Only replace batteries when the appliance is completely dry.

To insert/replace the battery turn trimmer end (3) counter clockwise and gently pull.

When replacing batteries, follow symbols (+/-). Insert AA battery with (-) pole up.

Replace trimmer end and gently turn clockwise until trimmer end is securely in place.

Batteries may explode or leak and cause burn injury if recharged, disposed of in fire, mixed with a different battery type, inserted backwards or disassembled.

If batteries leak, wipe device with a damp cloth and wash hands.

If any material gets in eyes, contact a physician immediately.

Remove the batteries before storing your device for extended periods.

Using your trimmer

The appliance can be used with or without trimming comb.

To turn power on, push button (2) to activate the appliance.

To attach one of the trimming combs (1 = 2 mm / 2 = 4 mm / 3 = 6 mm) (5) insert at 90°, then pivot and click.

To remove trimming comb slide release button (4) forward.

Cleaning and maintenance

For waterproof cleaning open the trimmer door (1) by pressing firmly against the trimmer teeth. Rinse teeth under warm running water after each use.

Put a few drops of hair trimmer oil (not included) to help maintain the trimmer performance at least after every battery change.

Subject to change without notice.

At the end of their life, empty batteries and the appliance should not be discarded with household waste. Please dispose of them according to national or local regulations.
