ASH SHOVEL

KEEP YOUR FIRE PIT SMOKELESS

Clean up is a breeze with this sturdy Ash Shovel, designed for efficient removal of ash from your fire pit. Its durable construction ensures long-lasting use. To keep your fire pit burning efficiently, it is necessary to remove built-up ash covering the X Airflow® system and vents. This will ensure that incoming air enters your fire pit for continued smokeless performance.

FEATURES

CONSTRUCTION: Made in the USA with stainless steel

MAINTAIN YOUR FIRE PIT: Designed for use with the Breeo® X Airflow system

USE

Ensure your fire pit and coals are completely cool before using your ash shovel.

Using the front tip of the shovel, drag around the circumference of the fire pit between the wall and the X Airflow system to push ash towards the center.

Shovel ash out from the wall towards the center and along the X Airflow system. Repeat several times on all four sides of the X Airflow system, until vents are clear.

CARE

To clean the stainless steel components, we recommend your favorite stainless steel cleaner and a soft cloth.

WARNING

Always wait until the fire has burned down to ash only, with no wood or large coals left in the fire pit.

Always practice safety first when using the Ash Shovel. When using your Ash Shovel, exercise the same precautions with any open fire. Never leave your Ash Shovel unattended, especially around children and pets.

The Ash Shovel may have sharp edges.

DO NOT put ashes into paper bags or trash cans while embers are still burning.
