1 ATTACH THE TABLE LEGS TO THE SUPPORT BAR

Take the lower crossbar and flip it upside down so the Breeo logo flame is facing down.

Insert the crossbar into 1 of the table legs and screw a 2.5 in. hex head screw into the leg with a flat head screwdriver.

Repeat for the other 3 legs.

PLEASE NOTE:

To prevent cross-threading the screws, start every screw by hand till it turns freely and smoothly in the thread. Then use the hex key tool to tighten down.

2 ATTACH THE TABLETOP

Lay the tabletop upside down and align the legs in between the slots.

Screw all 5 in. button head bolts into the holes closest to the edge, 1 bolt per leg. Finger-tighten a lock nut to the end of each bolt. Tighten using the hex key and wrench.

Using the hex key, tighten all of the bolts. Be careful not to over-tighten and strip the insert.

Carefully flip the table over.

USE & CARE

For a quick clean, add dish soap and warm water to a bucket and wipe any dirt off the surface, rinse with clean water, and let it air dry.
