LEATHER FIRE GLOVES

DESIGNED FOR FIREMASTERS

These heavy-duty leather gloves are a must have for a true firemaster. Overbuilt with an extra layer of leather on the palm and an added protection of air-isolated aluminum built in that insulates and reflects heat. Most gloves just don't have this level of protection.

FEATURES

CONSTRUCTION: Designed to withstand high heat temperatures up to 932° F.

PROTECTION: The Breco fire gloves have a long sleeved design to protect your forearm from open flames, heat sparks, and hot coals.

USE & CARE

Use these gloves while adding logs to the fire, stoking the flames, and adjusting accessories on your Breeo Fire Pit.

When not in use, hang or store your gloves in a dry place away from moisture. Do not wash the gloves- leather will harden if it gets too wet. If needed, spot clean the fire gloves with leather cleaner. (e.g. Lexol).

WARNING

Always practice safety first when using Breeo® Leather Fire Gloves. When using your fire gloves, exercise the same precautions you would with any open fire.

Do not use fire gloves when wet to avoid the risk of steam burns. Do not hold on to a hot surface too long. The heat will eventually penetrate if held too long. Remove glove if it overheats.

Do not wash gloves.
