OUTPOST™ ROD

PILLAR TO THE OUTPOST ECOSYSTEM

Compatible with your Breeo X Series, Y Series, Zentro Fire Pit, or Live-Fire Grill. Use with the Outpost Grate, Heat Deflector, Kettle Hook, Rotisserie, and other Outpost accessories.

FEATURES

CONSTRUCTION: Made in the USA with stainless steel

FULLY ADJUSTABLE: Slide the Outpost accessories to any desired height and rotate 360° for full control. *Use heat-resistant gloves when hot.*

INSTALL OUTPOST ROD

1 SET UP ROD

Insert the peg and collar end of the rod into the opening on the rim of your fire pit. Align pegs on the rod with the notches on the fire pit, lower the rod, ensure the pegs go down into the opening, and twist the rod to secure.

2 SECURE ROD

Slide the locking collar down onto the rod, align the tabs, and slide it into the notches on the fire pit to lock the rod into place. The rod should not spin, and the small handle of the locking collar should be facing outward.

You can now slide any Outpost accessory onto the rod and adjust the height and orientation as needed.

USE & CARE

Add the Outpost Rod to your Breeo Fire Pit or Live-Fire Grill. Ensure the Outpost accessory is securely in place on the Outpost Rod to prevent movement during use.

Always wear heat-resistant gloves and use two hands when adjusting the Outpost accessories over the fire.

To clean the Outpost Rod, we recommend your favorite stainless steel cleaner with a soft cloth or a bristle brush, water, and dish soap. Stainless steel may darken in color when exposed to heat.

WARNING

Always practice safety first when using the Outpost™ Rod and accessories, and exercise the same precautions you would with any open fire.

Never leave your Breco® Fire Pit & accessories unattended, especially around children and pets. ***The Outpost Rod and accessories become very hot in use and can cause severe burns.***

Do not touch when hot. Avoid touching sensitive surfaces with the Outpost Rod when they are hot. When adjusting the height or orientation of your Outpost accessories, always wear protective gloves or use other heat protection to avoid burns.

Do not overweight your Outpost Rod and accessories when cooking.

Do not exceed 20 lbs. of weight on the Outpost 19 Grill or 40 lbs. of weight on the Outpost 24 Grill.

When cooking on your Y Series with the Outpost Rod, do not swing the Outpost Grill system 180° away from the fire pit; this can cause potential tipping.
