USE

1 SET UP ROD

Insert the peg and collar end of the rod into the opening on the rim of your fire pit. Align pegs on the rod with the notches on the fire pit, lower the rod, ensure the pegs go down into the opening, and twist the rod to secure.

2 SECURE ROD

Slide the locking collar down onto the rod, align the tabs, and slide it into the notches on the fire pit to lock the rod into place. The rod should not spin, and the small handle of the locking collar should be facing outward.

3 ADD OUTPOST GRATE

Loosen the locking thumb screw (*do not remove*) and hold the Outpost Grate horizontally to slide the sleeve onto the rod. Secure the grate by tightening the locking thumb screw on the handle. Adjust the grate to the desired height and swivel to your preferred cooking position. You can then add any additional Outpost accessories onto the rod.

CARE

Add the Outpost Grill to your Breeo Fire Pit or Live-Fire Grill. Ensure the grate is securely in place on the Outpost Rod or OutRig Post to prevent movement during use.

Always wear heat-resistant gloves and use two hands when adjusting the Outpost Grill over the fire.

To clean the Outpost Grill, we recommend your favorite stainless steel cleaner with a soft cloth or a bristle brush, water, and dish soap. Stainless steel may darken in color when exposed to heat.

WARNING

Always practice safety first when using the Outpost™ Grill and accessories, and exercise the same precautions you would with any open fire.

Never leave your Breeo® Fire Pit & accessories unattended, especially around children and pets. ***The Outpost Grill and accessories become very hot in use and can cause severe burns.***

Do not touch when hot. Avoid touching sensitive surfaces with the Outpost Grill when they are hot. When adjusting the height or orientation of your Outpost Grill, always wear protective gloves or use other heat protection to avoid burns.

Do not overweight your Outpost Rod and accessories when cooking.

Do not exceed 20 lbs. of weight on the Outpost 19 Grill or 40 lbs. of weight on the Outpost 24 Grill.

When cooking on your Y Series with the Outpost Grill, do not swing the Outpost Grill system 180° away from the fire pit; this can cause potential tipping.
