OUTPOST™ KETTLE HOOK

BUILT FOR LIVE-FIRE COOKING

The Kettle Hook from Breco® is one of our longest standing and most beloved Outpost grilling accessories. Compatible with all Outpost systems, the Kettle Hook allows you to not only hang kettles, but also all kinds of meat, vegetables or fruit.

FEATURES

LIVE-FIRE COOKING: Durable, stainless steel construction that's built to withstand the rugged demands of live-fire cooking, and designed to support the Breco Cast Iron Kettle and hang a variety of foods.

VERSATILE: Use with the Outpost Rod to cook over your X Series, Y Series, Zentro Fire Pit, or Live-Fire Grill.

FULLY ADJUSTABLE: Slide the Kettle Hook on the Outpost Rod to any desired height and rotate 360° for control over your cook.

USE & CARE

Take both pieces of the Outpost Kettle Hook out of the box. For extra hanging surface area, insert the crossbar into the center slot of the Kettle Hook to create an X.

Loosen the locking thumb screw (*do not remove*) and hold the Kettle Hook to slide the sleeve onto the Outpost Rod. Secure the Kettle Hook by tightening the locking thumb screw on the handle. Adjust the Kettle Hook to the desired height and swivel to your preferred cooking position.

Attach your cast iron kettle or hang food directly from the Kettle Hook. Always wear heat-resistant gloves and use two hands when adjusting the Kettle Hook over the fire.

To clean the Kettle Hook we recommend your favorite stainless steel cleaner and a soft cloth or a bristle brush, water, and dish soap. Stainless steel may darken in color when exposed to heat.

WARNING

Always practice safety first when using the Kettle Hook and accessories, and exercise the same precautions you would with any open fire.

Never leave your Breeo® Fire Pit & accessories unattended, especially around children and pets. The Kettle Hook and accessories become very hot and can cause severe burns.

Do not touch when hot. Avoid touching sensitive surfaces with the Kettle Hook when they are hot. When adjusting the height or orientation of your Kettle Hook, always wear heat-resistant gloves or use other heat protection to avoid burns.

Do not overweight your Outpost Rod and accessories when cooking. Do not exceed 20 lbs. of weight on the Outpost 19 Grill or 40 lbs. on the Outpost 24 Grill.

Never swing the Kettle Hook to the back of the fire pit when loaded. The weight can cause the fire pit to tip and spill the hot contents of your kettle and fire pit.
