QWIKSPLIT WITH MALLET

FAST, SAFE, EASY

Built from heavy-duty stainless steel and engineered for safety, the Breeo® QwikSplit makes splitting kindling faster, easier, and safer — no swinging axes, no guesswork, just easy kindling to start your fires. Foldable, portable, and rugged enough for everyday use, it's your go-to tool for preparing perfect kindling for your fire.

FEATURES

HEAVY-DUTY CONSTRUCTION: Made from stainless steel for lasting durability in any environment

PORTABLE DESIGN: Foldable handle locks in place for compact storage and easy transport to campsites or backyard setups

EFFORTLESS SPLITTING: Just a few strikes with a mallet deliver clean, consistent kindling with minimal effort

ULTRA-SAFE OPERATION: Designed for stability and control—no swinging axes, just smarter, safer splitting

USE

To unlock the upper handle, pull the locking knob out and rotate the handle up. Make sure the knob relocks the handle in the upright position for safety.

To split a log, place the log or pre-split firewood inside the U holder and rest it on the top of the blade. Tap the log with the mallet to secure it in place to keep it from moving. Now you can strike the log with force and split it over the wedge. It can usually take 2 to 3 hits to split, depending on force, the log dryness, and wood structure.

TIPS:

- ♦ It helps to align the grain of the wood to be parallel with the blade in most cases.
- ♦ It helps to bolt down the QwikSplit to a stump using the holes in the base.
- ♦ Try to use the QwikSplit on a firm ground surface; using it on soft mulch or grass may affect splitting performance.

CARE

To clean the QwikSplit we recommend soap and water. The blade is chrome steel and could develop a slight patina over time, regular use will prevent rust. If moving parts are not moving freely, use a few drops of oil lubricant.

The QwikSplit is weather proof but it is best to store in a dry location.

When the Mallet is not in use, store in a dry place away from moisture. With use, light surface rust is normal. If needed, apply wood conditioner to the Mallet handle.

WARNING

Always practice safety first when using the QwikSplit and accessories.

The QwikSplit blade is sharp, use caution. Avoid striking the blade with a mallet or hammer.

Always use a hammer or mallet.

DO NOT use an axe.

Always wear eye protection when using the QwikSplit and Mallet. Always wear closed toe shoes while using the QwikSplit and accessories.

DO NOT use logs larger than 8 inches in diameter.

DO NOT strike metal objects.

DO NOT overstrike.
