SPARK SCREEN

MINIMIZE SPARKS

Designed to minimize sparks while allowing you to enjoy the warmth of your fire pit, the Spark Screen adds a layer of safety to your fireside gatherings.

FEATURES

CONSTRUCTION: Made with 304 stainless steel and a hinged design with handles that allow for easy access to the fire

STABILIZING CLIP: Spark Screen 19, 24 & 30 models include a stabilizing clip that attaches to the Outpost insert hole

USE & CARE

Attach the Spark Screen stabilizing clip next to the vertical bar on the non-folding side of the Spark Screen. Line up the clipped Spark Screen to the Outpost insert hole on the rim of your fire pit. Keep the stabilizing clip in the same spot on the Spark Screen to reduce visible scratches.

Insert the Spark Screen stabilizing clip into the rim until securely placed.

For the Luxeve Fire Pit, rest the Spark Screen on top of the rim of the fire pit without the clip.

Once the fire is going, close the spark screen to keep sparks and embers safely away from your property.

To remove, wait until the fire has died down. Press down on both clip levers and pull the Spark Screen up and away.
