Y SERIES LID

PROTECT YOUR Y SERIES FIRE PIT

Designed to enhance your outdoor fire pit experience by providing both functionality and protection. Crafted from durable stainless steel, this lid ensures that rain, debris, and the elements stay out of your Y Series Fire Pit, maintaining its pristine condition and ready-to-use state. This adventurous design allows you to lock it down for travel and help protect any supplies you might have inside. When you're not enjoying a fire, the lid also serves as a convenient tabletop, adding versatility to your outdoor setup.

FEATURES

CONSTRUCTION: Made in the USA with stainless steel

PROTECTIVE DESIGN: Keeps rain, debris, and other elements out of your fire pit, ensuring a cleaner and more efficient burn. Secure your lid with dual locking handles for on-the-go and help protect any supplies you might have inside.

MULTIPURPOSE USE: Doubles as a tabletop for when your fire pit is not in use, perfect for outdoor gatherings.

USE

Once the fire is completely out, burned to ash, and the fire pit is cooled, place the lid on your fire pit. ***Never use your lid as a snuffer or when the fire is burning.*** Doing so can cause creosote buildup and dripping, as well as lid damage.

Turn both handles counterclockwise (towards the unlock icon) until they stop. Seat lid securely on top of the fire pit.

Turn both handles clockwise (toward the lock icon) until they stop. Test to ensure both locks are engaged. Ensure the lid is locked down securely when in transit.

CARE

To clean the stainless steel components, we recommend your favorite stainless steel cleaner and a soft cloth.

WARNING

Always wait until the fire has burned down to ash only, with no wood or large coals left in the fire pit.

Putting the lid on your fire pit while it's burning can damage the lid from the heat causing discoloration and warping, as well as causing creosote drips to form on your fire pit and the surface it is placed on. Creosote cools to a hard, tar-like substance that is difficult to clean off any surface and can cause corrosion and discoloration.

Do not use lid to snuff out fires. Do not stand on the lid. Do not lift or suspend the fire pit by locking latches.

Your lid is manufactured of heavy-duty, high-quality stainless steel, so handle it with care to ensure that it is not dropped or scraped against any body parts.

The Y Series Lid edges may be sharp.

Care should be taken at all times to ensure that it is handled safely by individuals strong enough to keep it from damaging anyone or anything else in your backyard.
