Garage Door Opener

1 While the car is ON, hold the handheld garage door transmitter 1-3 inches from the HomeLink® button you want to program in the vehicle.

2 Push and hold both the HomeLink® button being programmed and the button on the garage door transmitter.

TO ERASE ALL SET CHANNELS:

Push and hold the two outside HomeLink® buttons for 20 seconds until the orange indicator flashes. An individual channel cannot be erased.

ROLLING OR NON-ROLLING?

Check your garage door opener motor in your garage for a "LEARN" or "TRAIN" button by the hanging antenna. If you have one of these, you have a Rolling Code garage door opener.

3 **For Non-Rolling Code** garage door openers, watch for the indicator light to go constant.

For Rolling Code garage door openers, watch for the indicator light to go from a slow blink to blinking rapidly.

4 For Rolling Code garage door openers only, firmly push and release the "LEARN" or "TRAIN" button on your garage door opener motor in your garage, then push the HomeLink® button in your vehicle for two long presses.

5 If the programming was successful, your garage door should open and close with your chosen HomeLink® button.

NEED ASSISTANCE?
1-800-355-3515

Pair a Phone

1. Make sure Bluetooth® is enabled on your mobile device
2. With the vehicle in the ON/RUN position, press the Phone button on the vehicle's touchscreen menu bar
3. Press "Device Manager"
4. Press "Add Device"
5. Follow the prompts on your phone and on the touchscreen

Troubleshooting

1. Perform a reset by holding the power button on the radio for 15 seconds
2. Reboot your phone
3. Remove the paired phone
4. Follow the Pair a Phone steps above to set up phone

CONNECT YOUR APPS

Connect your smartphone to the media USB port or pair your smartphone within Device Manager.

The Android Auto™ or Apple CarPlay® icon will replace the phone icon on the touchscreen.

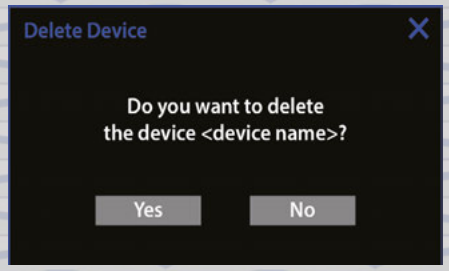

KEEP IN MIND:

For Android™ Users, if the Android Auto™ app was not previously downloaded, it will download the first time you plug in your device.

For Apple® Users, Apple CarPlay® is only compatible with iPhone® 5 or later and requires Siri being enabled in "Settings".

Ready to remove a phone or audio device?

1. Press "Device Manager" on the touchscreen.
2. Press the Settings gear icon next to the phone or device you wish to remove.
3. Press "Delete Device". The device should be removed.
4. On your phone's Bluetooth® or setup menu, remove the saved Uconnect radio.

Connected Services

WITH CONNECTED SERVICES YOU CAN...

- **Lock Your Vehicle**
- **Unlock Your Vehicle**
- **Remote Start Your Vehicle**
- **Cancel Remote Start**
- **Activate Your Horn**

ACTIVATE YOUR REMOTE SERVICES

GO

1. Press “Apps” on the touchscreen.
2. Press “Activate Services”.
3. Press “Activate Now”.
4. There are two ways to activate: via email or via an agent. On the next screen, you can either enter your name and email, or press “Call An Agent” to directly speak with an agent.

Head Restraints

FRONT SEATS FOUR-WAY HEAD RESTRAINTS

FORWARD ADJUSTMENT

To **tilt forward**, pull the top of the head restraint toward the front of the vehicle to the desired position.

REARWARD ADJUSTMENT

To **tilt rearward**, pull the top of the head restraint to the furthest forward position and the head restraint will return to the upright position.

TILTED

UPRIGHT

UP/DOWN ADJUSTMENT

Pull up on the head restraint to raise it.
Push the adjustment button while pushing down on the head restraint to lower it.

REMOVAL

With the head restraint raised all the way, push the release and adjustment buttons while pulling up on the head restraint.

INSTALLATION

Insert the head restraint posts into the holes and push downward.

TIP:
The seatback angle may need to be adjusted to fully remove the head restraint.

Hands-Free Liftgate, Sliding Doors, & Pedestrian Alert

KEEP IN MIND:

With the key fob on your person, use a straight in and out kicking motion under the appropriate zone to open the Hands-Free Liftgate or Hands-Free Sliding Door. The feature does not close the doors.

Do not move your foot sideways or in a sweeping motion; the sensors may not detect the motion.

Did You Know You May Have An Audible Pedestrian Alert System?

In Hybrid vehicles (in electric mode only), a sound is emitted to alert pedestrians that your vehicle is approaching. The sound will increase or decrease in volume depending on the varying speed of the vehicle.

If equipped with the Trailer Tow Package:

The activation zones for the Hands-Free Liftgate will be located on the left and right side of the receiver.

Stow 'n Go Seating

THIRD ROW POWER STOW 'N GO SEATS

Rear Seat Power Folding Switch

A one-touch power folding seat switch is located in the right rear trim panel inside the cargo area.

Return the seat(s) to the normal seated position.

Stow the seat(s).

Move the seatback(s) in the forward or reverse direction.

Select the desired seat(s).

Auto Advance 'n Return — If Equipped

Push the button to automatically move the front seat to a position that will allow second row Stow 'n Go seat movement. Push the button again to return the front seat back to its previous position.

Voice Recognition

CONTROL YOUR UCONNECT SYSTEM USING YOUR VOICE!

If your Uconnect system is equipped with Navigation, you also have access to built-in Voice Recognition. If your Uconnect system is not equipped with Navigation, refer to the Android Auto™ or Apple CarPlay® instructions below.

1. Push the Voice Recognition button or say the Uconnect "Wake Up" word to begin.

2. After the beep, say a command. Below are a few examples:
   - "Call <phone contact>."
   - "Call 123-456-7891."
   - "Tune to 95.5."
   - "Change Source to FM."
   - "Navigate to <desired location>."

Push To Answer An Incoming Call

Push To End A Call

Push To Start Voice Recognition

TIP:
The "Wake Up Word" is customizable within Vehicle settings. You can set it to "Hey, Uconnect" or "Hey, Chrysler".

KEEP IN MIND:
There may be an inconsistent volume between different audio sources.

Using Android Auto™ Or Apple CarPlay®?

You can use Voice Recognition with Android Auto™ and Apple CarPlay®!

1. Activate Android Auto™ or Apple CarPlay® from Device Manager in Phone Mode. The respective icon will replace the Phone icon in the menu bar.
2. Push and hold the Voice Recognition button to start a Voice session using Android Auto™ or Apple CarPlay®.
