REVIEW TO WIN \$2500

RULES TO ENTER

"We LOVE, LOVE, LOVE this crib"

My husband was impressed with the directions and organization of the hardware package. He easily assembled this crib in an hour without any help. It's very sturdy and we like that it has adjustable levels for the mattress height. To top it all off, it's so incredibly darling!!!

Leg Stops

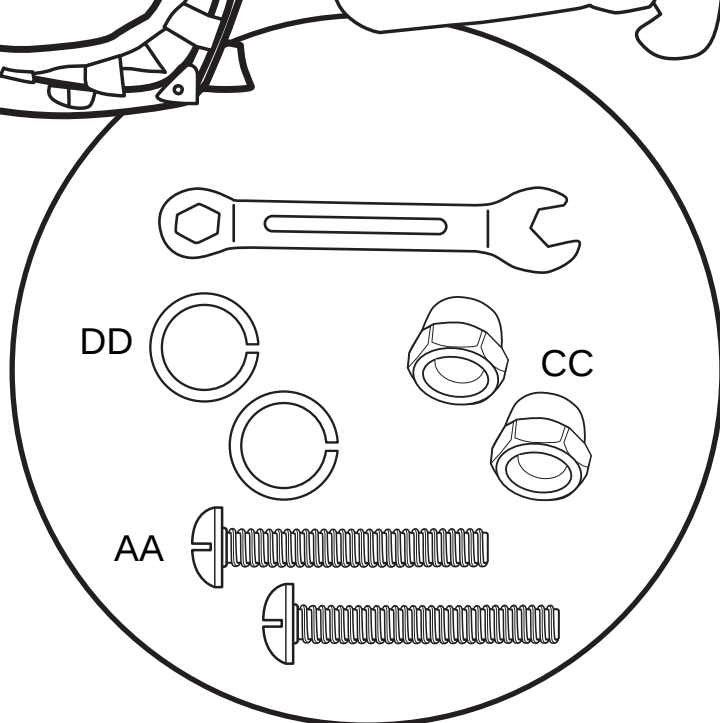

1 Let's get started...opening the trampoline

- Must be assembled by 2 adults. Failure to do so may allow the frame to fold back and cause injury.
 - To perform this step, keep your face away from the frame.
 - Keep fingers away from the edge of the frame near the hinged area when unfolding the trampoline.
1. Bring a nut (CC), bolt (AA) and big spring washer (DD) and next to each hinge on the floor PRIOR to unfolding the trampoline.
 2. Lay the folded trampoline on the floor, in its still folded position.
 3. One person must hold one side of the frame down firmly.
 4. Using steady pressure, the second person with hands open and fingers extended, pull on the other side to open.
 5. Open the trampoline fully, until hinges snap in place.

WARNING:
Adult assembly
required.

Impact hazard exists until hardware is installed. Keep face and arms away until hardware is installed. Do NOT leave trampoline unfolded without completely installing the bolts according to the instructions.

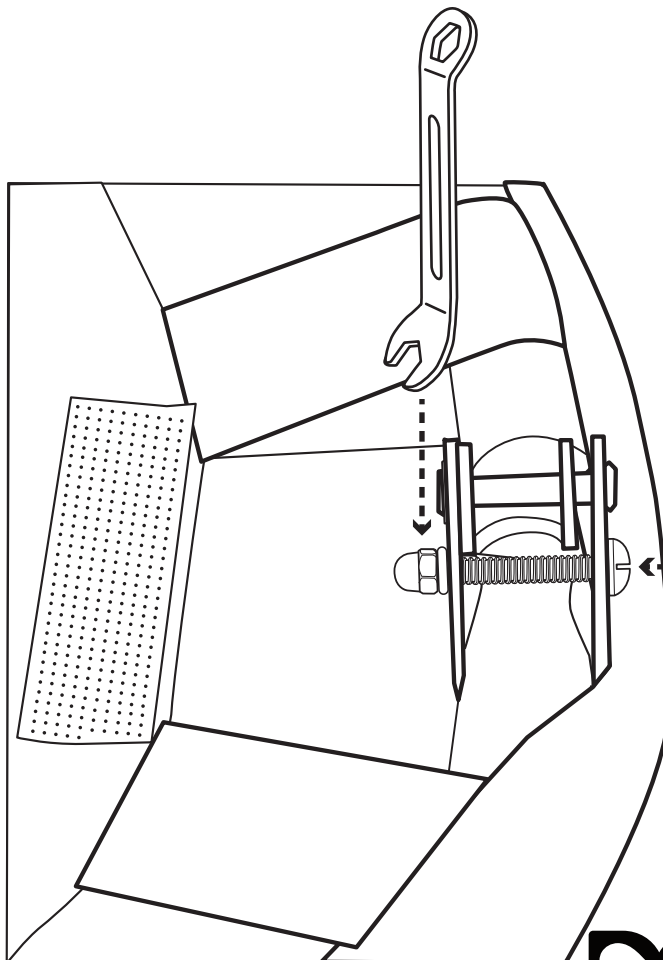

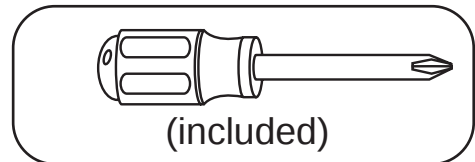

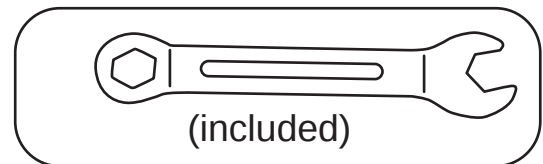

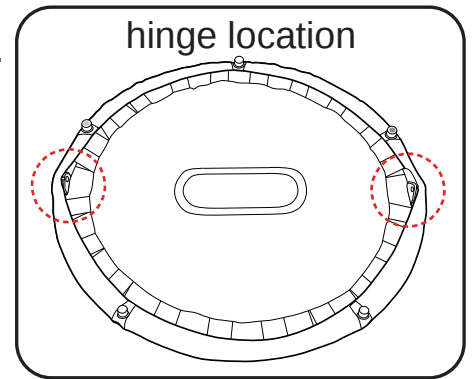

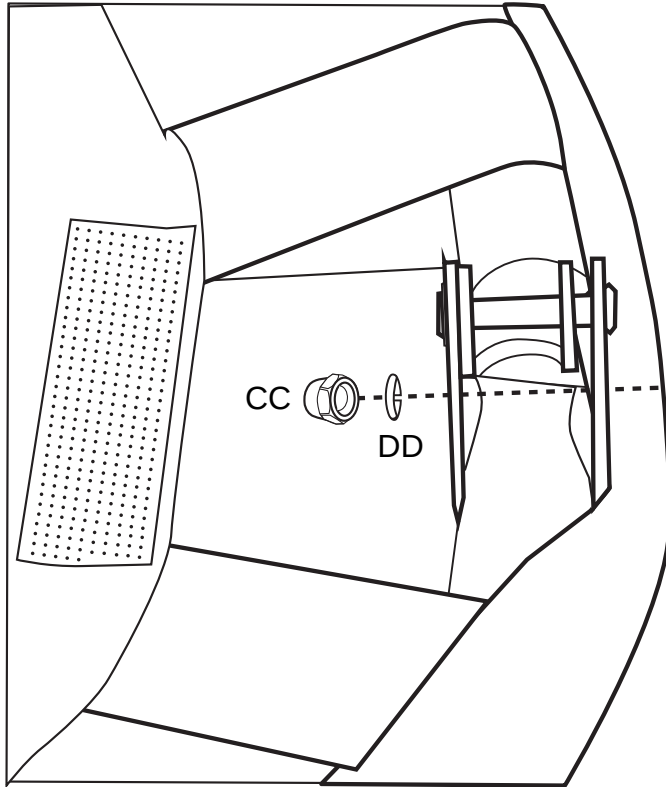

2 Make sure it's hinged...

Insert 1½" bolt (part AA) through the hinge. Place (1) big spring ring (part DD) onto the end of the bolt.

Place (1) cap nut (part CC) onto the end of each bolt.

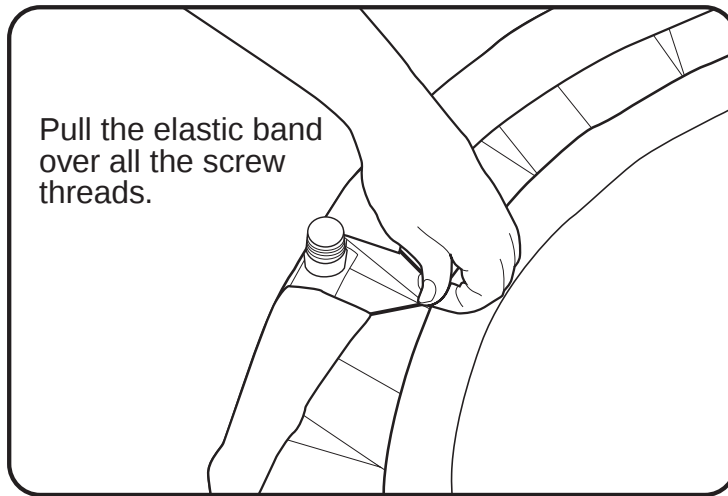

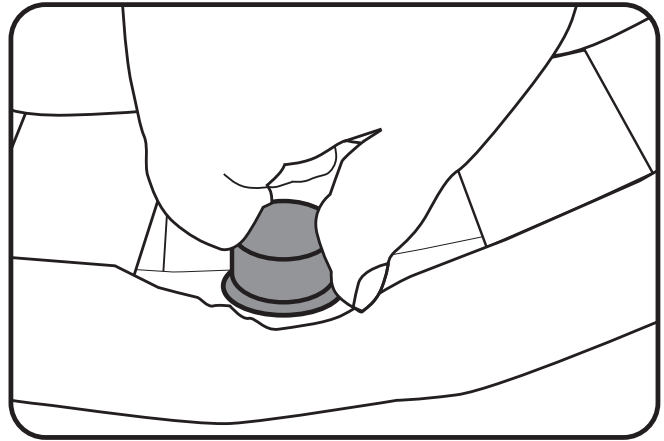

Hold the cap nut using the wrench. Tighten using a Philips screwdriver. Repeat these steps to secure hinge on the opposite side.

3 Uncap and Pull...

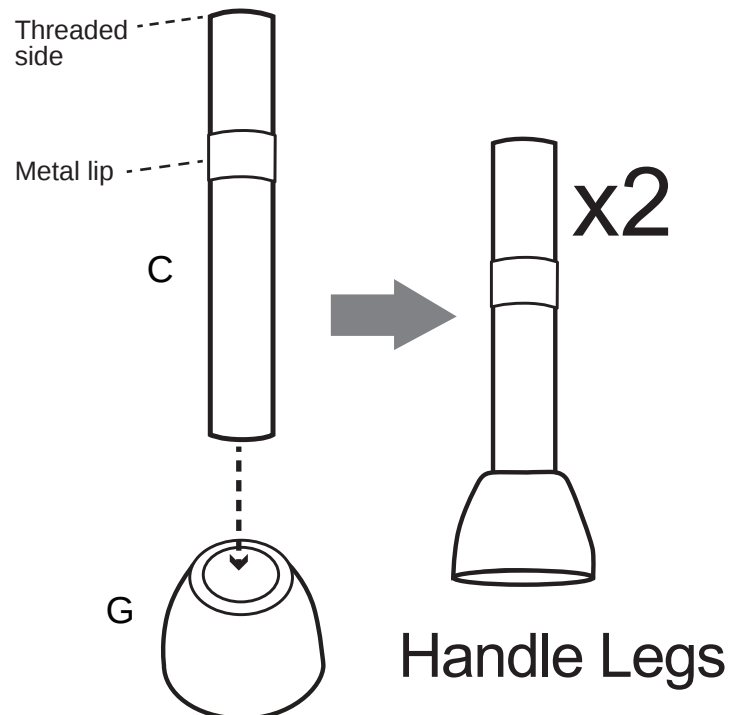

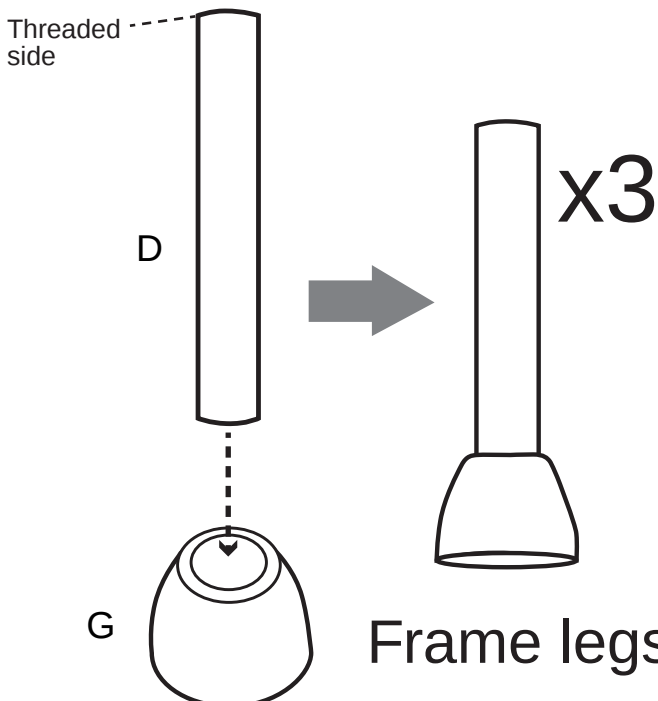

Remove all protective end caps from screw threads and discard. Keep out of reach of children.

4 Get a Leg Up!

Attach a leg stop (part G) to each of the (3) frame legs (part D).

Attach a leg stop (part G) to each of the (2) folding handle legs (part C).

5 Super easy...frame legs go first

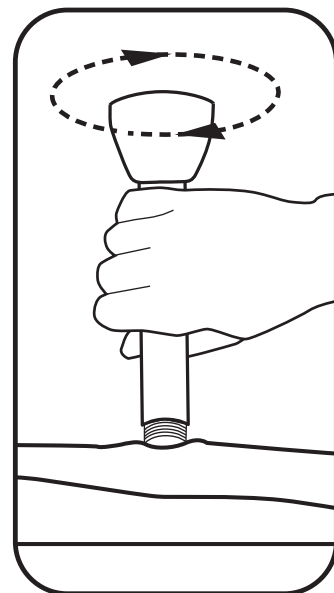

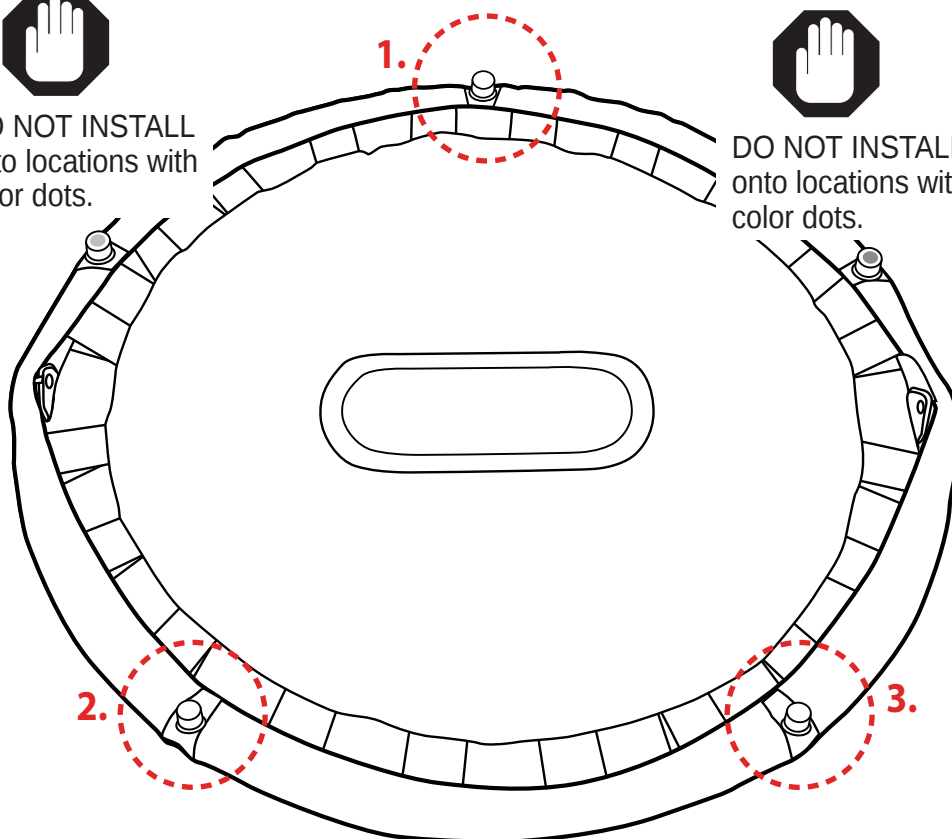

Start with the 3 FRAME LEGS (part D). These are the legs with **NO METAL LIP**. Thread them onto the trampoline frame in the locations with **NO COLOR DOTS**.

DO NOT INSTALL onto locations with color dots.

DO NOT INSTALL onto locations with color dots.

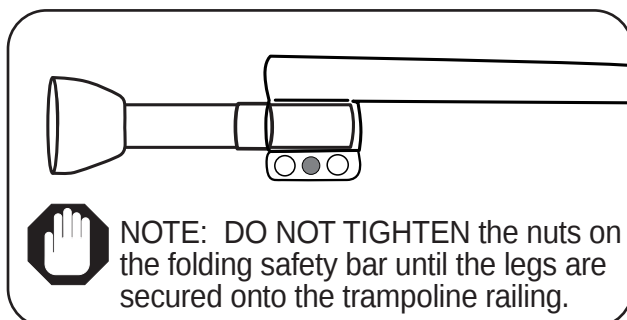

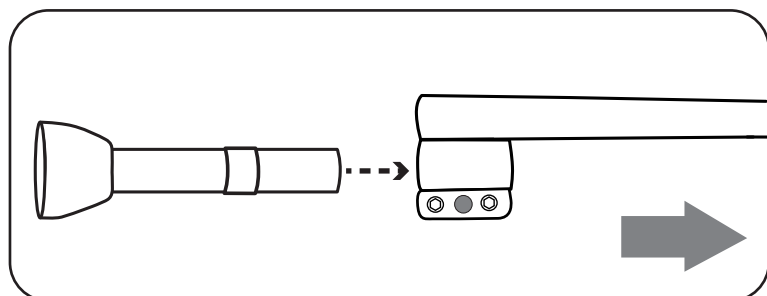

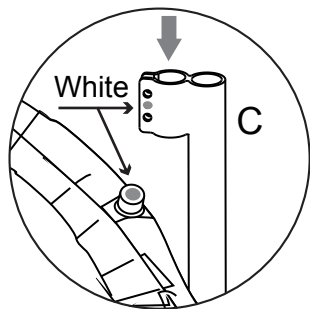

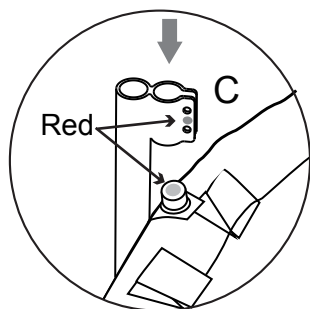

Twist clockwise until **COMPLETELY TIGHT**.

6 Handle Legs...match it up!

Insert a handle leg (part C) into the end of **EACH** safety bar.

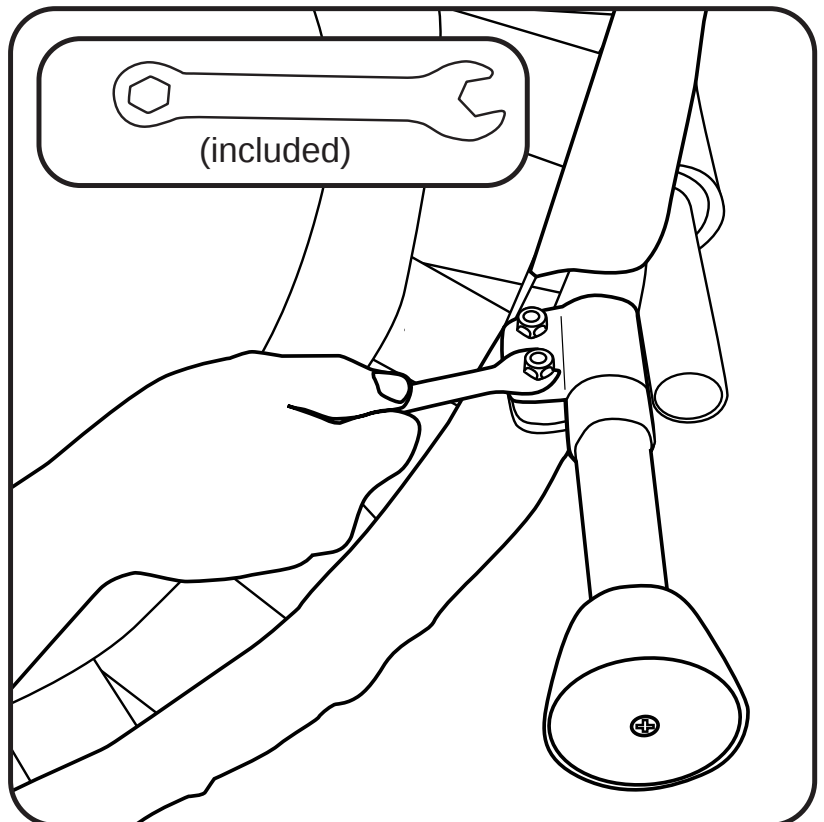

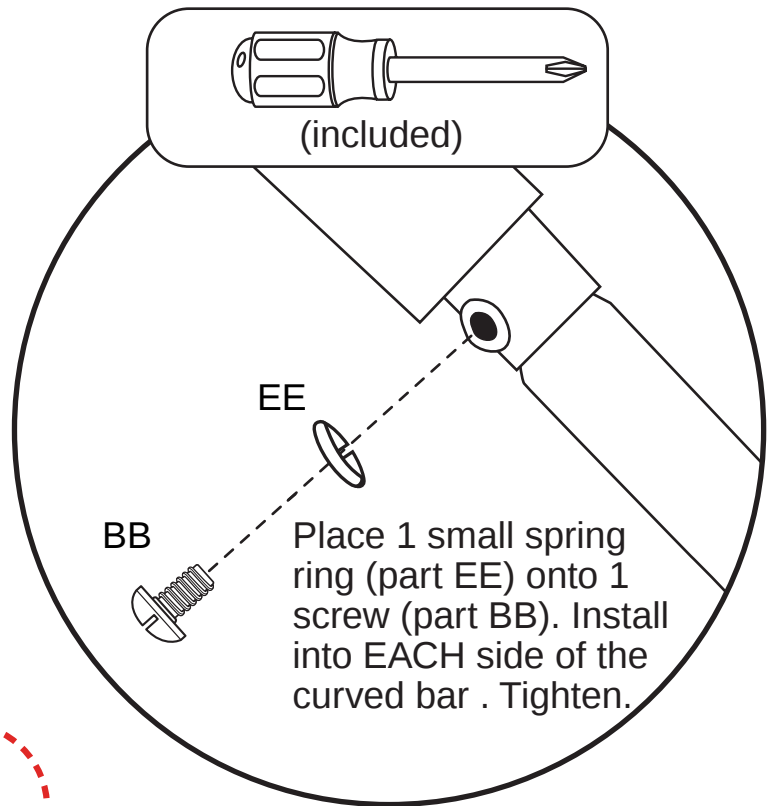

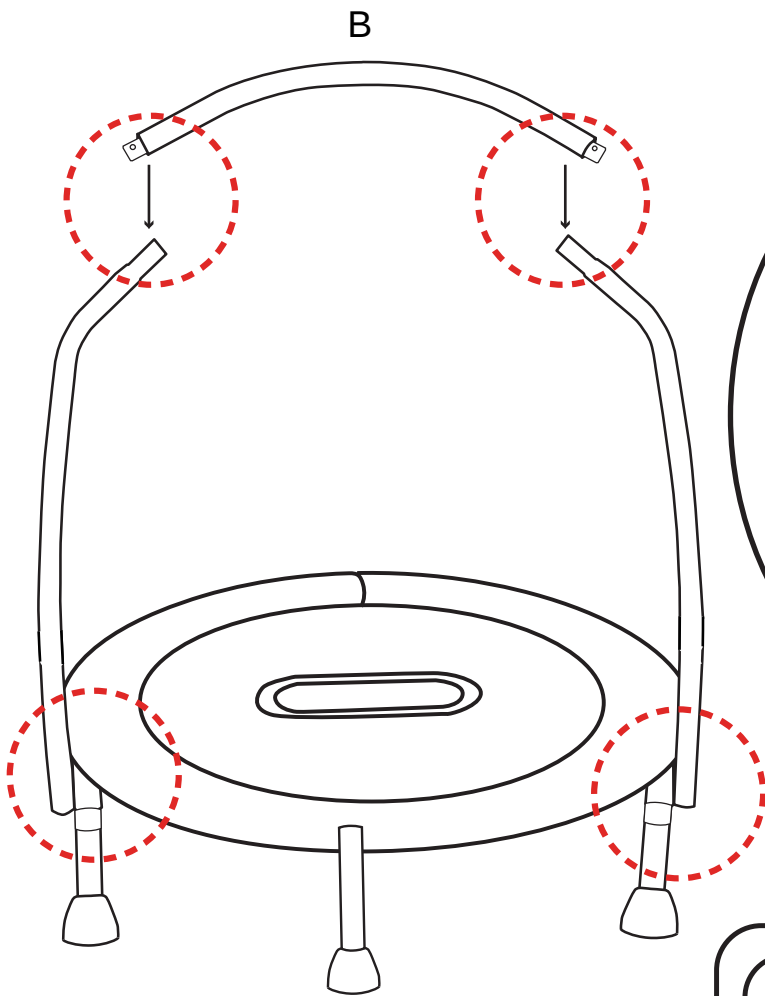

Make sure to match same color screw to the matching color on the safety bar base (red to red and white to white)

7 Finish with the safety bars!

Stand the trampoline on its legs. Place the curved safety bar with foam (part B) onto each end of the RIGHT and LEFT safety bars.
