Start printing

Print Mode — One
Paper Type — Plain

Use △ and ▽ buttons to select menus.

Print Mode — One
Paper Type — Glossy
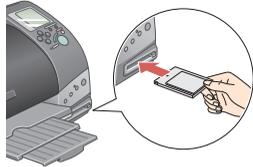

Use ◁ and ▷ buttons to select settings.

Inserting a Memory Card

1. Insert your memory card into the appropriate adapter.

2. Insert the adapter into the card slot. Push it in firmly so the button pops out.
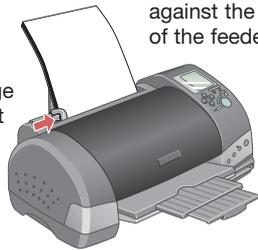

Printing an Index

An index print includes small, numbered copies of all the pictures on the memory card.

1. Load plain paper.

   Place the paper against the right side of the feeder
   Slide the edge guide against the paper

2. Make sure these settings appear on the control panel:

Print Mode	Index
Paper Type	Plain
Paper Size	Letter
Page Layout	
Select Photo	24
Copies	1
Quality	Normal
PhotoEnhance	

   Number of photos on the card

3. Press the **Print** button.

   Your index is printed. Use it to select photos for reprinting and enlarging.
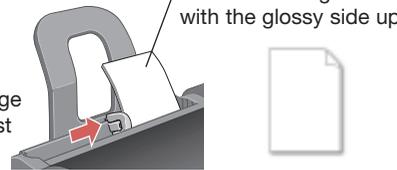

Printing Snapshots

1. Load EPSON® Borderless 4" x 6" Premium Glossy Photo Paper.

   Insert short edge first with the glossy side up

   Slide the edge guide against the paper

2. In the Print Mode menu, select **Set**.

   Print Mode ▶ Set

3. In the Paper Type menu, select **Glossy**.

   Paper Type ▶ Glossy

4. In the Paper Size menu, select **4x6**.

   Paper Size ▶ 4x6

5. In the Page Layout menu, select ■ for borderless prints, or ■ for white borders.

6. In the Select Photo menu, press ▷ to select the number of the photo you want to print. See the index print for photo numbers.

   Select Photo ▶ Photo No. 2

7. Press the round **Select Photo** button.

8. Repeat steps 6 and 7 for each photo you want to print.

9. Press the **Print** button.

## Adjusting Brightness

1. Press the round **Brightness** button.

   Brightness → Select Photo – Brightness 0

2. Press the ▷ button once or twice to make your pictures 1 or 2 steps lighter.

   Press the ◁ button once or twice to make them 1 or 2 steps darker (**-1** or **-2** is displayed).

3. Press the **Brightness** button again to lock in your selection.

Printing with Special Effects

1. In the Copies menu, press and hold the **Brightness** button until **Filter No.** flashes on screen.

   Brightness → Copies ▶ Filter No. – 000

2. Press the ▷ button to select from the special effect filters shown below.

3. Press the **Brightness** button again to lock in your selection.

no filter

1—black and white

2—sepia

3—high contrast

4—one level brighter

5—two levels brighter

6—one level darker

7—two levels darker

8—more vivid

9—sharper

Printing Special Layouts

You can print ■ 2, ■ 3, ■ 4, or ▦ 20 photos per page by selecting these settings on the Page Layout menu.

You can also...

Print multiple copies of the same image on one page.

Turn a normal landscape into a panoramic photo.

Take a portrait and print 8 different sizes on one sheet of paper.

Turn your favorite picture into photo stickers.

See your *Printer Basics* book for instructions.
