Multifunction

Workgroup

The ultra high-speed network MFP revolutionizing business productivity.

Breakthrough speed that takes business productivity to a whole new level — 100 ISO ppm[†], the fastest print speed in its class¹

Quality without compromise — advanced PrecisionCore® technology and a stationary line head deliver both speed and professional-quality output

Conserve energy — up to 50 percent lower power consumption than color lasers¹

Do more, with an intuitive user interface — scan to email or the cloud² — all from a user-friendly 9" touchscreen

Manage your printer fleet and keep costs in check — compatible with third-party software solutions for managing usage limitations, user authentication and more

Print from wherever business takes you — featuring Epson Connect™ solutions, with a full suite of mobile printing capabilities³

Optional professional finisher — the perfect solution for stacking, stapling and more

Expedite your workflow — 5,350-page maximum paper capacity⁴ (2,350 standard) for high-volume printing

Make an impact while minimizing costs — professional, high-resolution output (600 x 2400 dpi) from a cost-effective network MFP

Work smarter — dual-head, single-pass scanner simultaneously scans both sides of 2-sided documents at up to 110 ipm⁵

Actual print stability will vary according to media, printed image, display conditions, light intensity, temperature, humidity and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, display all prints under glass or UV filter or properly store them. | 13 Replacement cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal.
