EPSON®

The High Definition personal ink jet printer.

The look of EPSON's exclusive High Definition ink jet printing is now accessible to the home office and small business.

The extraordinary EPSON Stylus 400 uses Stylus technology, providing the sharpest ink jet printing available at 360 dots per inch. Blacks are blacker and the graphic output is sharper and more detailed. Its long life ink cartridge is easy to replace.

At 120 characters per second (cps), printing is fast as well as sharp. Plus it has the paper handling convenience you'd expect from a much more expensive printer, including a 100 sheet paper tray and the ability to handle envelopes, transparencies and labels with ease.

With all these advantages, what's even more extraordinary is the EPSON Stylus 400's affordability.

High Definition ink jet printing
Exclusive EPSON Stylus technology provides the best ink jet printing available at 360 dpi.

Improved grayscale graphics
Microfeeding, MicroWeaving, and Error Diffusion combine to produce even sharper, more detailed graphics printing.

Convenient paper handling
Built-in 100 sheet paper tray. Prints envelopes, transparencies, and labels with ease.

Your choice of fonts
Six different typefaces built in, including four scalable up to 32 points.

Windows™ compatible
Built-in, out of the box compatibility with Windows.

Quiet, compact and easy to use
Whisper-quiet at 45 dB(A), with a compact footprint of 17" x 10.4". Easy to set up and use.

EPSON support
