

EPSON®

RAPID-FIRE COLOR PRINTING FOR THE ENTIRE OFFICE.

Forget slowpoke printers. Forget "average" color output. Forget high-maintenance, low-quality ink jet printers, too. And meet the revolutionary EPSON Stylus Color 900. It's Epson's fastest ink jet printer, pumping out crisp, sharp black text and eye-pleasing color at unprecedented speeds. It prints up to 12 ppm in black and up to 10 ppm in color.

But, blazing speed is just the beginning. The EPSON Stylus Color 900 also gives you breathtaking 1440 x 720 dpi output while putting the smallest ink droplets ever, a minuscule 3 picoliters each, down on paper. The result? Highlights are more intense. Details are sharper. And skin tones more realistic. So graphs, charts and diagrams are more engaging. Overheads and reports more eye-catching. And proposals more persuasive.

Plus, the EPSON Stylus Color 900 comes with our PerfectPicture™ Imaging System. This built-in system combines our award-winning Micro Piezo™ technology, AcuPhoto Halftoning™ and expertly-formulated, quick-drying inks to put the EPSON Stylus Color 900 light years ahead of other printers.

The EPSON Stylus Color 900 is also fully networkable. So everyone in your office can take advantage of its superior color output and lightning-quick speed for everything from quick memos and letters to detailed reports and "knock-their-socks-off" presentations.

The EPSON Stylus Color 900—the rapid, rugged color ink jet printer your entire office will rely on for outstanding professional color output.
