

**Highest productivity printing for the
pro performance user or networked workgroups!**

Product Summary

Feature	Customer advantage
Superior Photo Quality printing	2800 PerfectPicture Printing and an ultra-fine 3 picoliter droplet size produce intensified highlights and sharper details.
Amazing performance	Up to 13 ppm black text (Normal and Economy modes) and 10.5 ppm color.
Ultimate flexibility	Interfaces include parallel and USB interfaces plus standard internal Ethernet and optional Adobe PostScript.
Internal print server	The print server leaves the parallel port free for direct computer connection, it is guaranteed compatible, and it doesn't require a separate power supply.
