This one-year limited warranty plan includes priority toll-free technical phone support and on-site hardware service for your printer. Please have your serial number available for the answering technical support specialist. Since it's an exclusive number, your call will be answered promptly.

The Epson SureColor S40600 Series printers are designed to be used exclusively with Epson UltraChrome® GS3 inks. Note that warranty coverage for the print head and ink delivery system is terminated if the printer is ever used with new or refilled ink cartridges, inks, or ink delivery systems other than the Epson UltraChrome GS3 system for which the printer was designed.

Please review the information contained in this booklet. You'll find the exclusive Epson Preferred toll-free number. You'll need this number to take advantage of our Preferred Service. You'll find our complete terms and conditions for this one-year limited warranty at the end of this booklet, under "Terms and Conditions—Limited Warranty for Commercial Products."

Terms and Conditions

Limited Warranty for Commercial Products

What Is Covered: Epson America, Inc. (“Epson”) warrants to the first end-user customer that the Epson SureColor S40600 Series Printer covered by this limited warranty statement, if purchased and used in the United States, Canada or Puerto Rico, will conform to the manufacturer’s specifications and will be free from defects in workmanship and materials for a period of one year from the date of original purchase (proof of purchase required). Epson also warrants that the ink shipped with or purchased with the engine will perform to the manufacturer’s specified usage, which usage may expire before the expiration of the limited warranty for the Epson printer.

What Epson Will Do To Correct Problems:

Should your Epson SureColor S40600 Series Printer prove defective during the limited warranty period, please call the toll-free Epson Preferred support line identified in this booklet. This line will be answered during Epson’s regular support hours (currently 6:00 AM to 6:00 PM, Pacific Time, Monday through Friday—subject to change). When you call, please be prepared to provide the service technician with proof of purchase information including the unit serial number and original date of purchase. You may also need to provide proof of purchase if warranty coverage cannot be verified by the serial number. An Epson service technician will work with you to try to resolve the problem, and if your printer needs repair, diagnose the issue and determine what parts may be required. If service is required, the On-Site Response service program will be utilized in almost all cases. The technician will provide additional instructions about the program at the

time this service is being setup. In rare cases, at its sole discretion Epson may instead elect to exchange the unit. Please see the other sections for highlights of the programs. When service involves the exchange of a unit or its parts, the items replaced become the property of Epson. The new items assume the remaining warranty period of the original product. Parts may be new or remanufactured to Epson standards.

On-Site Response: If the printer needs hardware repair and you are within Epson’s on-site service territory, an Epson Authorized Servicer will be contacted to make the repair at your facility. Epson will usually dispatch repair parts and a technician to your location for the next business day if determination that repair is required occurs prior to 1 PM, Pacific Time. If that determination is made after 1 PM, dispatch will usually be for the second business day. An adult must be available to accept the parts delivery and be present at all times while a technician is on-site. Epson’s shipment of service parts does not imply that replacement is required.

Printer Exchange: Epson may, at its sole discretion, elect to replace a printer that for whatever reason appears to require technical services beyond the capability of field repair. Under these rare circumstances, Epson will replace the printer with the same or a comparable printer refurbished to the Epson standard of quality. (The replacement printer will not include promotional materials, accessories, stands, documentation, manuals, software, or cables.) The customer must be able to receive, unpack, and install the replacement printer, and prepare the defective printer for return shipment by following the procedures described in the user manual or documentation provided by Epson. The repacked defective printer will be picked up by a

carrier designated by Epson. If the defective product is not prepared for return within seven business days of receipt of the replacement printer, the customer will be invoiced at the then current manufacturer's suggested retail price for the replacement printer. It is your responsibility to unpack, reinstall optional components, and set up the exchange printer at your location.

What This Warranty Does Not Cover:
