Technical drawing of the bottom view of the MASS PRO robot. The drawing shows the internal structure, including the motor, gears, and the base plate. Dimensions are provided in millimeters (mm) and inches (in). The overall width is 146 mm (5.75 in). The overall height is 132.5 mm (5.22 in). The distance between the two main mounting points is 131 mm (5.16 in). The distance from the left edge to the first mounting point is 52.5 mm (2.07 in). The distance from the first mounting point to the second mounting point is 100 mm (3.94 in). The distance from the second mounting point to the right edge is 222 mm (8.74 in). The distance from the top edge to the first mounting point is 172.3 mm (6.78 in). The distance from the first mounting point to the top edge is 19.7 mm (0.78 in). The distance from the top edge to the second mounting point is 68 mm (2.68 in). The distance from the second mounting point to the top edge is 42 mm (1.65 in). The distance from the top edge to the bottom edge is 80 mm (3.15 in). The distance from the bottom edge to the first mounting point is 52.5 mm (2.07 in). The distance from the first mounting point to the bottom edge is 100 mm (3.94 in). The distance from the bottom edge to the second mounting point is 222 mm (8.74 in). The distance from the second mounting point to the bottom edge is 52.5 mm (2.07 in). The drawing also shows the location of the motor, gears, and the base plate. The motor is located at the top left. The gears are located in the center. The base plate is located at the bottom. The drawing is labeled with dimensions and part numbers. The part number 222 is shown next to the second mounting point. The drawing is labeled with dimensions and part numbers. The part number 222 is shown next to the second mounting point.
