Dynamic Selector Traction Control System

SELECT A MODE THAT WILL PROVIDE THE BEST DRIVING PERFORMANCE

Scan For Dynamic Selector Video

AUTO

Designed for comfort and safety in normal driving conditions. The system automatically defaults to this mode when there is a system fault.

ALL WEATHER

Designed to increase traction control and stability control for low traction conditions (e.g., off-road driving, dirt roads, wet and slippery roads).

SPORT

Designed to increase steering feedback to the driver with a slight increase in effort, and changes the transmission shift schedules for more aggressive shifting.

KEEP IN MIND:

Auto Mode reduces fuel consumption in vehicles equipped with All-Wheel Drive by automatically altering the distribution of torque between the front and rear axles.

Sport Mode is useful when driving on twisty roads where more steering precision is desired.

SELECT YOUR DRIVING MODE

Pair a Phone

1. Make sure Bluetooth® is enabled on your mobile device.
2. With the vehicle in the ON/RUN position, press the Phone button on the vehicle's touchscreen menu bar.
3. Press "Pairing".
4. Press "Paired Phones" or "Paired Audio Sources".
5. Select "Add Device" then follow the prompts on your phone and on the touchscreen.

CONNECT YOUR APPS

Connect your smartphone to the media USB port.

The Android Auto™ or Apple CarPlay® icon will replace the phone icon on the touchscreen.

KEEP IN MIND:

For Android™ Users, if the Android Auto™ app was not previously downloaded, it will download the first time you plug in your device.

For Apple® Users, Apple CarPlay® is only compatible with iPhone® 5 or later and requires Siri being enabled in Settings.

Ready to remove a phone or audio device?

1. Press the Pairing button on the touchscreen.
2. Press "Paired Phones and Audio Devices".
3. Press "Settings" next to the phone or device you want to remove.
4. Press "Delete Device".
5. Press "X" to exit the settings screen. The device should be removed.

Mopar® YOUR Way

CREATE YOUR OWNER'S PROFILE TODAY!

Get 24/7 Access To Everything You Need

- Custom vehicle dashboard
- Access to your vehicle's Owner's Information
- Schedule dealer service with ease
- Obtain special offers on Mopar® service
- View maintenance records**

Registration is simple. Provide your email address to get started.

Automatic Climate Controls

Scan For Climate Controls Video

TIP:
Rotate the Driver Temperature Control knob counterclockwise for MAX A/C.

Manual Climate Controls

The **Blower Control knob** will regulate the amount of air forced through the system in any mode.

The **Recirculation button** will toggle between recirculation mode and outside air mode.

The **Temperature Control knob** will regulate the temperature of the air inside the passenger compartment.

The **A/C button** will engage the Air Conditioning (A/C) system.

The **Mode Control knob** will change the airflow distribution mode.

The **Rear Defrost button** will turn the rear window defroster and heated outside mirrors (if equipped) on or off.
