BLASTER INSTRUCTION

- Use the blaster when you want to play the Skeet game with your Scoot drones!
- Make sure your blaster has new AAA batteries and your Scoot drones are fully charged in order to get the most out of your game!
- Turn the Scoot drones and blaster on
- The blaster starts off in “blast mode”
- Press the “mode” button on the blaster to change it to “take off mode”. The red light on the blaster will now slow flash red.
- Point the blaster at each of the drones and press the trigger button to make the Scoots fly up.
- Press the “mode” button on the blaster to switch to “blast mode”.
- Point towards the bottom section of the Scoot drone and pull the trigger. If you have accurate aim, the Scoot will fall and the center light will turn from green to red.

Scoot will flash multicolor and the blades start spinning when Scoot takes off.
