Govee Wall Sconce

# Safety Instructions

**Read and follow all the safety instructions:**

- The wall sconce is not waterproof. Avoid exposing it to splashing or dripping water.
- The operating temperature should be within -10°C to 40°C (14°F to 104°F).
- The internal light source cannot be replaced. If it breaks, you must replace the product with a new one.
- Do not allow children to install the wall sconce alone.
- Avoid placing the wall sconce near heat sources.
- External dimmers cannot be used with the wall sconce.
- Avoid installing the wall sconce near potentially dangerous sources (e.g., candles, liquid-filled objects).

**CAUTION**-The product is not a toy. Children and the disabled should use it under adult supervision.

## Introduction

Thanks for choosing Govee Wall Sconce! With RGBIC+W lighting effects, this product has a large wall-washing area. The sleek style makes it a useful piece of home décor and an atmospheric light source for your living space. The two vertical and horizontal installation modes support multiple installation scenarios. When connected with Govee Home App, you can adjust its colors, brightness, and scene modes to your liking. Get ready to use and experience Govee Wall Sconce!

# What's in the Box

Wall Sconce x1

Support Bar x1

Power Adapter x1

Cable Organizer x4

Level x1

Control Box x1

Expansion Tube & Screws x6

| Item                    | Quantity |
|-------------------------|----------|
| Wall Sconce             | 1        |
| Support Bar             | 1        |
| Control Box             | 1        |
| Power Adapter           | 1        |
| Cable Organizer         | 4        |
| Expansion Tube & Screws | 6        |
| Level                   | 1        |

## At a Glance

# Before You Install

## Step 1

Unpack the box and check all included items.

## Step 2

Confirm the mounting method and position of the wall sconce based on your home size and the decoration needs.

## Step 3

Plug the power cord into one piece of the wall sconce, and insert the other end into the slot on the other sconce to splice them together.

## Step 4

Power on the wall sconce and check that it properly lights up.

# Installing Your Device

1. Wipe the surface of the wall where the wall sconce is going to be installed.
2. a. Confirm the mounting position of the support bar and make sure that the power cord is long enough.  
b. Peel off the adhesive back film of the support bar and stick it to the wall in the intended positions, pressing down for over 10s to ensure that it is firmly attached.  
c. Use the level to assist mounting to make sure the wall sconce is perpendicular or parallel to the ground.

## Note:

1. Please install the support bar with screws that are provided in the package, since the adhesive back is for auxiliary fixing only.
2. When fixing the support bar to a concrete wall, you may need to drill the corresponding holes before sticking the support bar to the wall.
3. Please stick the level (when using) to the support bar with the adhesive back provided.

3. After confirming the mounting position, secure the support bar with the screws provided in the package.

**Note:**

1. When fixing the support bar to a concrete wall, you may need to drill the corresponding holes in advance. Use with the expansion tube to achieve the best effect.

2. When securing the support bar on plaster or wooden walls, you can use screws directly to tighten the support bar.

4. Attach the wall scone to the support bar. Align the slot at the back of the wall scone with the buckle position of the support bar, and slide down to secure it.

5. Estimate the position of the control box, then peel off the adhesive back film on its back and stick it to the surface of the wall. Please ensure the wall sconce is firmly connected to the control box.

6. Connect the power adapter to the control box and plug it into the power socket.

7. Turn on the device and calibrate the mounting method (vertical/horizontal) in Govee Home App, then enjoy your wall sconce.

# Pairing Your Device with the Govee Home APP

## What You Need

- A Wi-Fi router supporting the 2.4GHz and 802.11 b/g/n bands. 5GHz is not supported.
- A smartphone or tablet running iOS 8.0 (or above) or Android 4.3 (or above).

## Pairing Instructions

1. Download Govee Home App from the App Store (iOS devices) or Google Play (Android devices).
2. Turn on your smartphone's Bluetooth.
3. Open the app, tap the "+" icon in the top right corner and search for "H6039".
4. Tap the device icon and follow the on-screen instructions to complete pairing.

# Matter Guide

## Cautions

1. You will need to complete the network connection of apps that support Matter (e.g. Google Home/Apple HomeKit, etc.) within 15 minutes after the product is powered on when using Matter for the first time.
2. An IPv6 network is required.
3. Changing the network may cause Matter to malfunction.
4. If the product cannot connect to the app, first restore the product to factory settings by short pressing the middle button on the control box 4 times while pressing and holding down the power button. After restoring, try connecting again.

## Step 1

Find the Matter QR code or device number on the product or on the “Device Settings” page in Govee Home App.

## Step 2

Turn on Bluetooth on your smartphone.

## Step 3

Download and open an app that supports Matter like Google Home, Apple HomeKit, etc.

## Step 4

Use the device number or QR code located on the product or in the app to complete the network connection for the product for Matter.

# Specifications

|                     |                             |
|---------------------|-----------------------------|
| Model               | H6039                       |
| Lamp Input          | 24V 1A                      |
| Lighting Color      | RGBIC+W                     |
| Control Method      | App, Voice Control          |
| Working Temperature | -10°C to 40°C/14°F to 104°F |

## Troubleshooting

1. Cannot connect to the Govee Home App.
  - Check if the Wall Sconce is powered on.
  - Check if Bluetooth on the smartphone is enabled, or try connecting to another smartphone.
  - When connecting for the first time, ensure the smartphone is near the Wall Sconce.
  - If the connection error still exists, please delete the connected Wall Sconce from the "Device" page on the app.
  - Reconnect to the Govee Home App by following the previously provided instructions.

## 2. Wi-Fi disconnected or failed to connect.

- Check if the Wall Sconce is powered on.
- Do not skip the Wi-Fi connection steps during the pairing process.
- Ensure your Wi-Fi router is 2.4GHz. 5GHz is not supported.
- Ensure you entered the correct Wi-Fi password during the Wi-Fi set up process.
- Try connecting the Wall Sconce with a smartphone hotspot to check if your home network is working properly.
- Shorten the distance between the Wall Sconce and the Wi-Fi router to less than 1m, and then reconnect.

## 3. Cannot connect to Alexa or Google Assistant.

- Ensure the Wi-Fi connection is stable and working properly.
- Go to "User Guide" on the app Settings page to pair the Wall Sconce again.

## 4. Can multiple users control the same wall sconce?

- Each Wall Sconce can only be controlled by one account.
- If multiple users want to manage the same Wall Sconce, ensure they all use the same account.

# FCC and ISED Canada Statement

This device complies with Part 15 of the FCC Rules and Innovation, Science and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et.
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-005.

Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.

# FCC and IC Radiation Exposure Statement

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF.
