

BassiNest[®]

2-IN-1 BEDSIDE SLEEPER

INSTRUCTION MANUAL

Scan for Quick Set-up Video: This set up video is for your reference ONLY. Please read manual carefully before use!

IMPORTANT: Read all instructions before assembly and use of this product. Keep instructions for future reference. Recommended for infants up to 20 lbs.

Adult assembly required. Keep small parts away from children. Styles and colors may vary.

ANY PROBLEMS/QUESTIONS?

Contact HALO using the contact information on the back cover of this Instruction Manual.

WARNING

Failure to follow these warnings and the instructions could result in serious injury or death.

SUFFOCATION HAZARD

Infants have suffocated:

- in gaps between extra padding and product sides.
- on soft bedding.
- Use only the pad provided by the manufacturer. **NEVER** add a pillow, comforter or another mattress for padding.

- If a sheet is used with the pad, use only the one provided by the manufacturer or one specifically designed to fit the dimension of the bassinet mattress.
- Always make sure both sides of the bassinet are adjusted at the same height position making the bassinet equally leveled.
- Always place baby on back to sleep to reduce the risk of SIDS and suffocation.

FALL HAZARD:

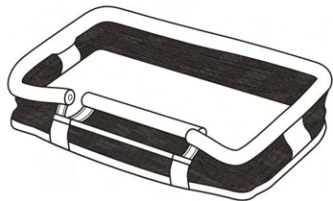

- To help prevent falls, DO NOT use this product when the infant begins to push up on hands and knees or has reached 9 kg (20 lbs), whichever comes first.
- In freestanding bassinet mode, ensure that side panel is raised with zippers fully closed and top bar locked into the frame.
- Never leave infant in bassinet with side panel down unless it is securely positioned in bedside sleeper mode and attached to the adult bed with fixing buckles and straps securely in place.
- Do not use if any part of the bassinet/criadle is broken, torn or missing.
- Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a product or attach strings to toys.

- Read and follow instructions before assembly and use. For questions or issues: Call 1-888-999-HALO or visit **www.HALOsleep.com**.
- Before each use, inspect the HALO BassiNest for damaged hardware, loose or missing components or sharp edges. Contact or write Halo Dream, Inc. for replacement parts and instructional literature if needed. DO NOT substitute parts.
- DO NOT allow young children to be unsupervised in the vicinity of the bassinet.
- This product is not intended to be resold after use or returned to a retailer. Due to safety concerns, Halo Dream, Inc. cannot be held responsible for any product that has been resold after use or returned to a retailer.
- DO NOT place the bassinet near a window or patio door where cords from blinds or drapes can strangle an infant.
- NEVER place more than one infant to sleep in the bassinet.
- Always remove child from the bassinet before adjusting height.
- Only place the bassinet on a flat, dry, and level floor.
- Not for use in an automobile.
- Do not place the bassinet near fire or other sources of heat.
- Do not place anything in the bassinet to elevate the pad. The American Academy of Pediatrics states that elevation can result in the infant sliding to the foot of the bassinet into a position that might compromise respiration and is therefore not recommended.

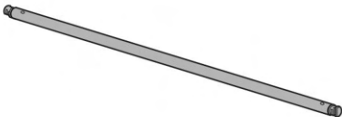

HALO® BASSINEST® 2-IN-1 BEDSIDE SLEEPER – ASSEMBLY INSTRUCTIONS – IMPORTANT!

Please keep these instructions for future reference. Please read these instructions before assembly and use of this product.

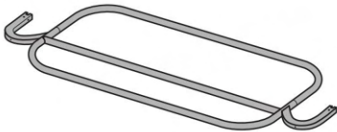

- Adult assembly required.

Sleep Surface
(Includes Pad and Fitted Sheet)

Lowering Wall Bar

20.

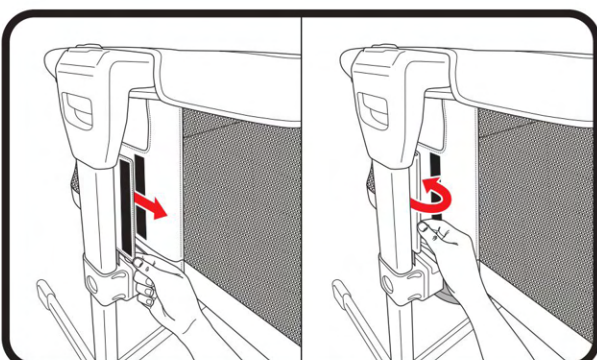

21.

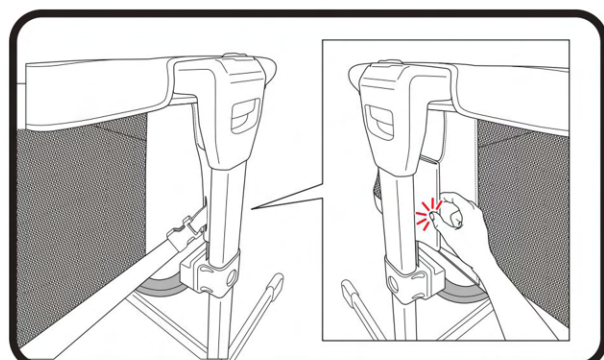

22.

23.

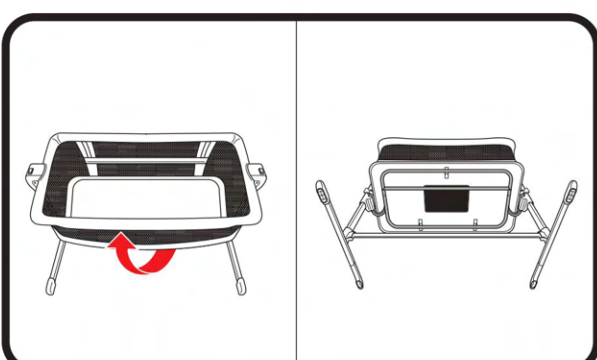

24.

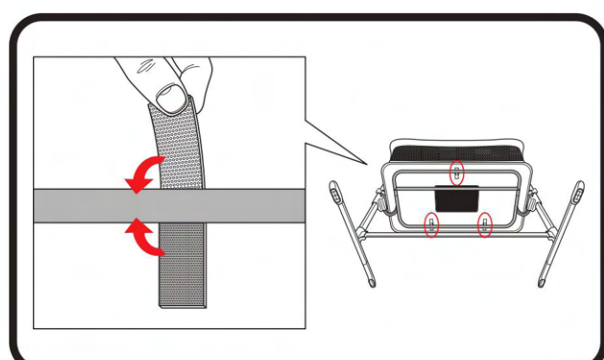

Repeat steps 22-24 on other side.

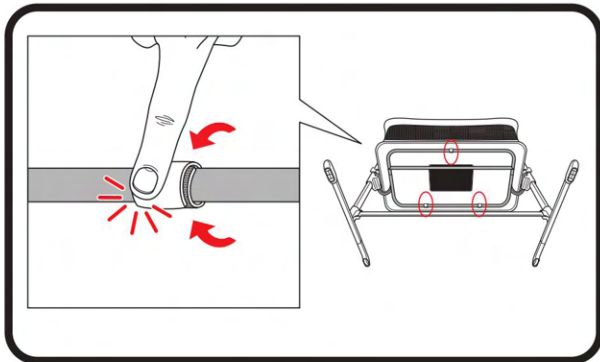

25.

26.

27.

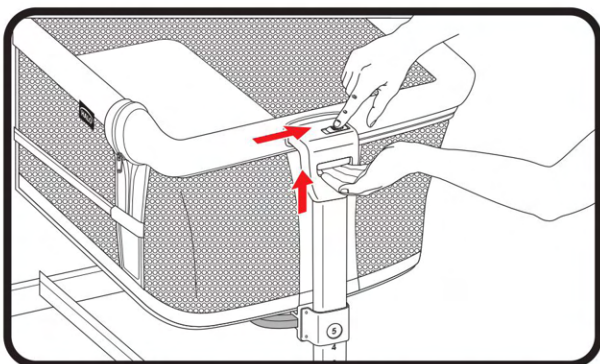

28.

For initial assembly: Pad and fitted sheet are pre-installed in the sleep surface area.

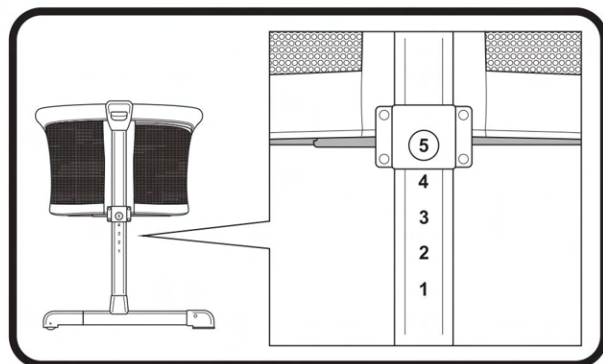

HEIGHT ADJUSTMENT

1.

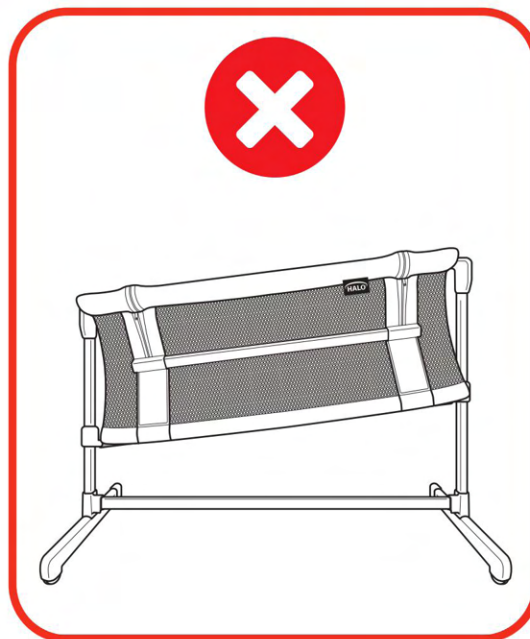

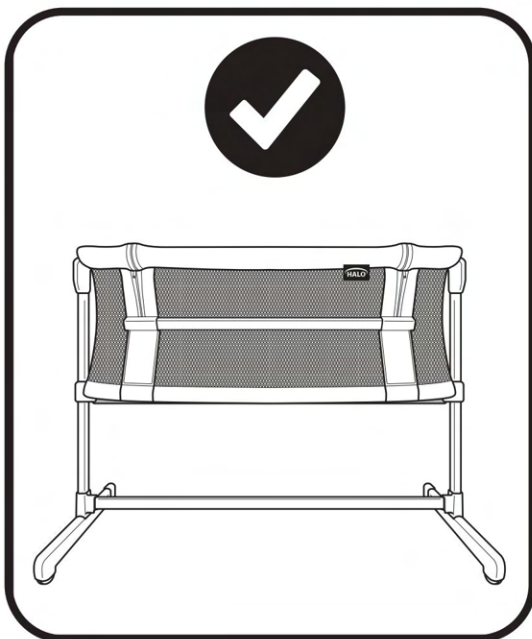

Slide the lock on top while pressing the button at same time.

2.

Adjust to desired height. Repeat on the other side. Ensure both height adjustments are set to same number.

WARNING: Remove infant from bassinet before making any adjustments to the bassinet. Ensure both height adjustments are set to the same number setting (1,2,3,4,5) and are securely locked to ensure a level sleeping surface. The sleep surface should NEVER be inclined by adjusting the legs to different heights.

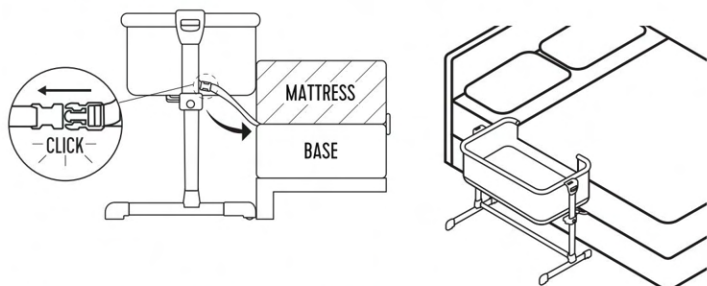

⚠ WARNING

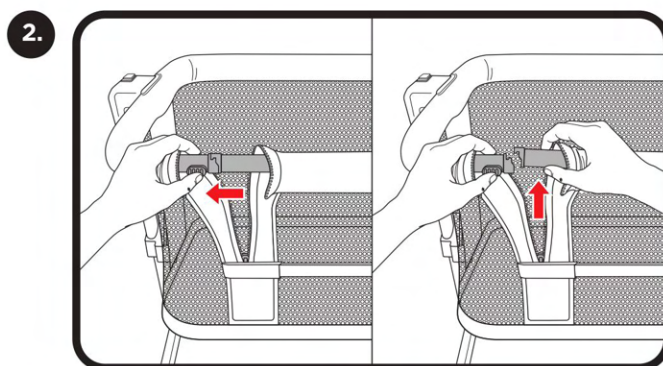

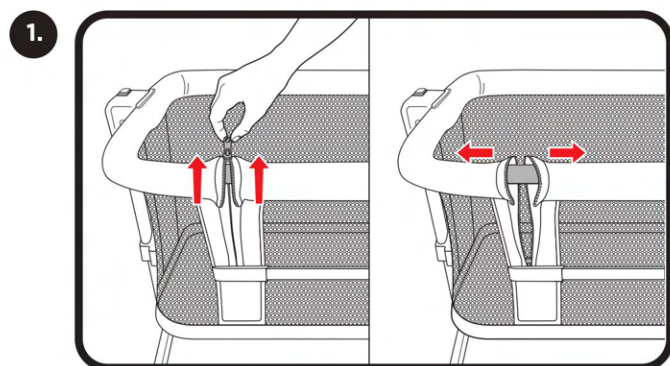

WARNING: Read all instructions and warnings before using the product in Bedside Sleeper Mode. Remove infant from bassinet before converting to bedside sleeper.

- **ENTRAPMENT HAZARD:** To prevent death from entrapment, bedside sleeper must be properly secured to adult bed using the attachment system.
 - There must be no more than ½ in. (13mm) gap between bedside sleeper and adult bed.
 - Check tightness before each use by pulling bedside sleeper in a direction away from adult bed.
 - If gap exceeds ½ in. (13mm), DO NOT use product. Do not fill the gap with pillows, blankets or other items that are suffocation hazards.
- Always read and follow assembly instructions for each product use mode (bedside sleeper, bassinet).
- Always use ALL required parts for each use mode. Check instruction manual for a list of required parts. Periodically check product for loose, damaged, or missing parts. DO NOT use bedside sleeper if any parts are missing, damaged, or broken. Contact Halo Dream, Inc. for replacement parts and instructional literature if needed. DO NOT substitute parts.
- This bedside sleeper is designed for use only with adult beds that are between 19.7 and 24.5 inches (50.0 and 62.2 cm) from floor to top of the adult mattress.
- To avoid death from the infant's neck being caught on the top rail on the side that is next to the adult bed, the lowered portion of the top rail must be no higher than the adult bed mattress.
- A bedside sleeper is designed to provide a sleeping area for an infant until he or she begins to push up on hands and knees or approximately 5 months of age. Move your child to another sleeping product when your child reaches this stage.

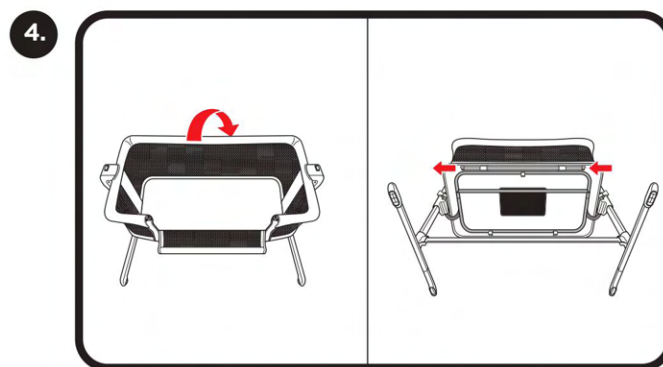

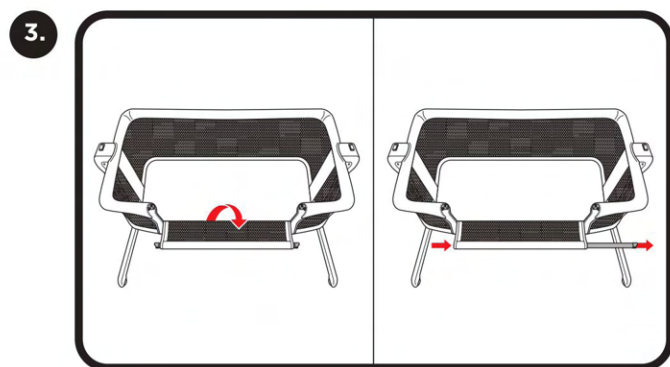

NEVER USE THIS PRODUCT IN BEDSIDE SLEEPER MODE WITHOUT THE FIXING BUCKLES SECURELY ATTACHED TO THE ADULT BED

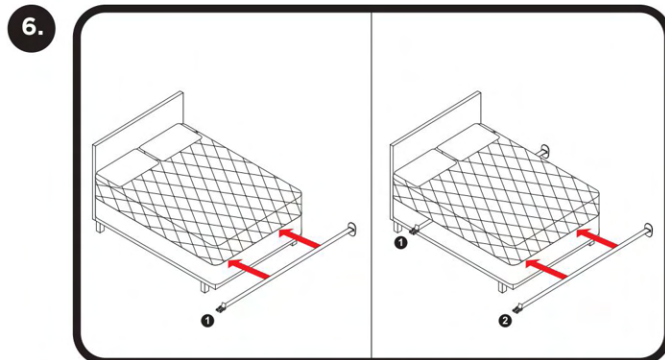

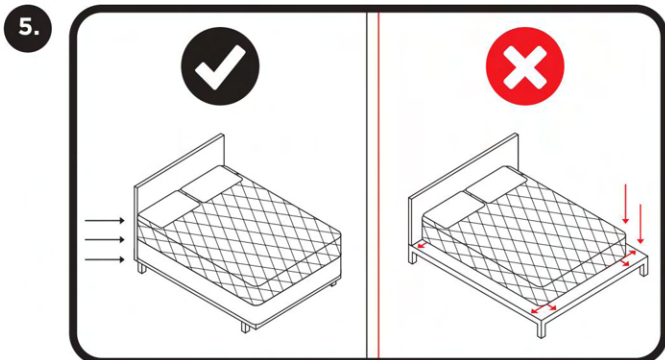

BEDSIDE SLEEPER MODE

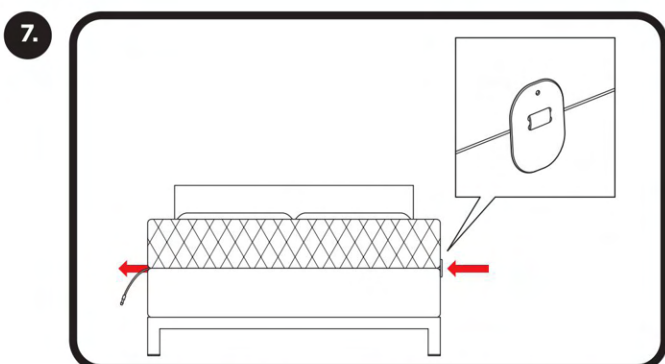

Repeat steps 1 and 2 on other side.

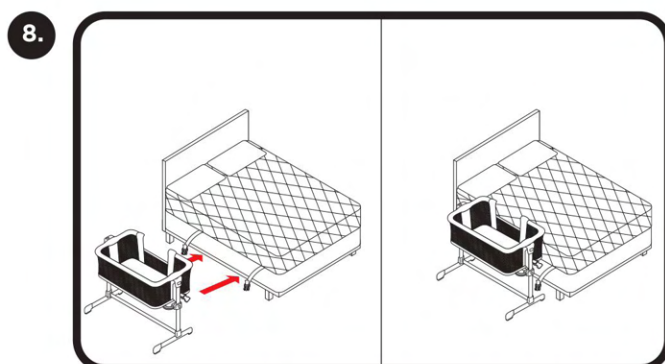

Store bar in the elastic loops underneath the sleeper.

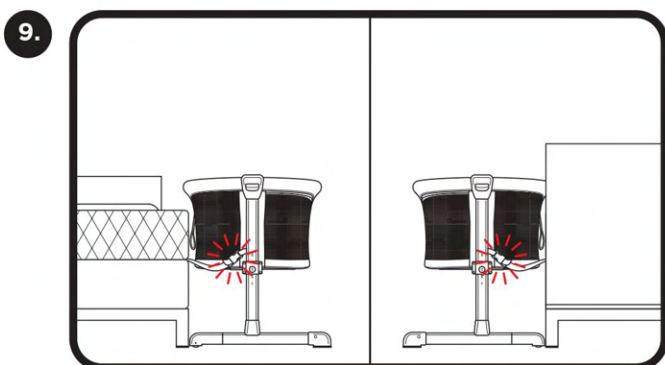

Slide straps under and straight across the adult mattress.

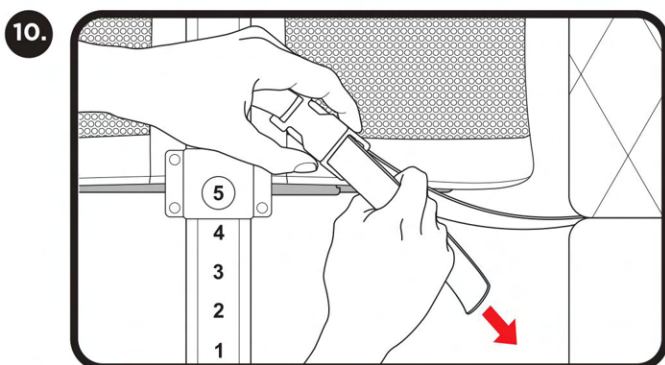

Ensure anchor plates are flush against the side of the adult mattress.

Position bedside sleeper against the adult bed.

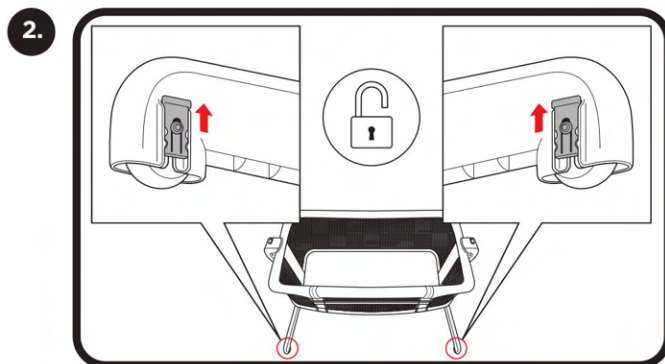

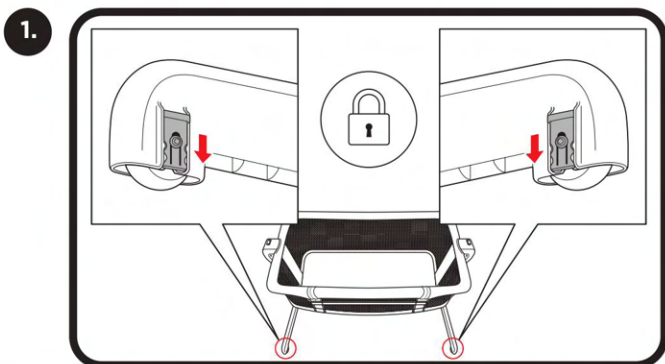

Secure straps to both side of the bassinet by clicking each buckle closed.

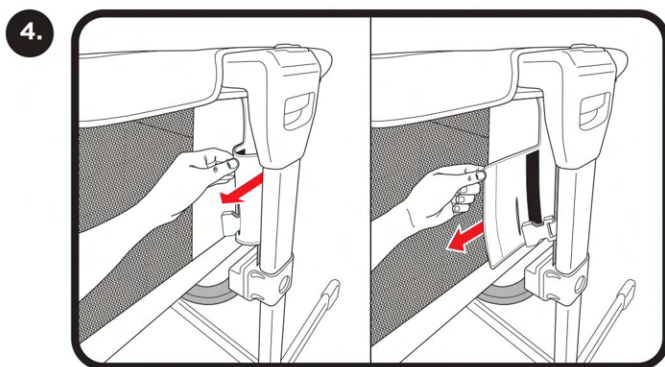

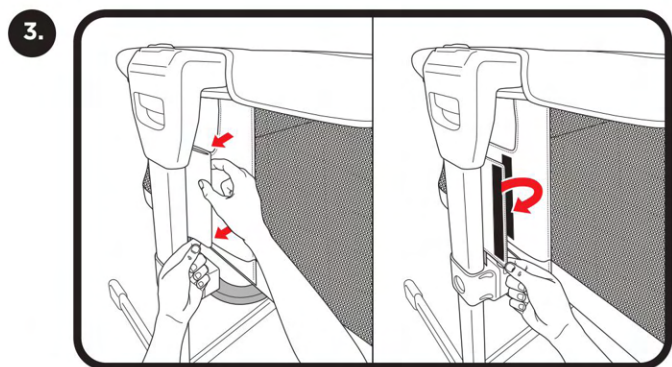

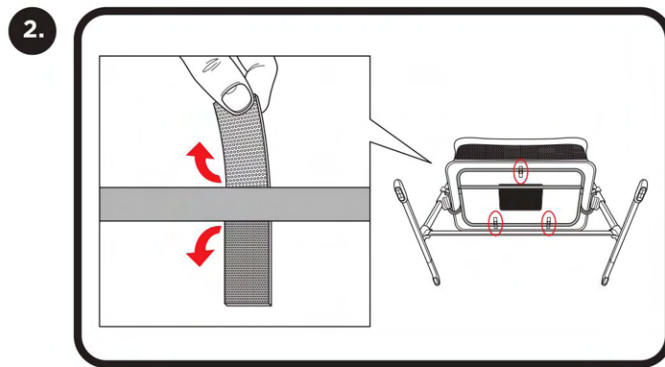

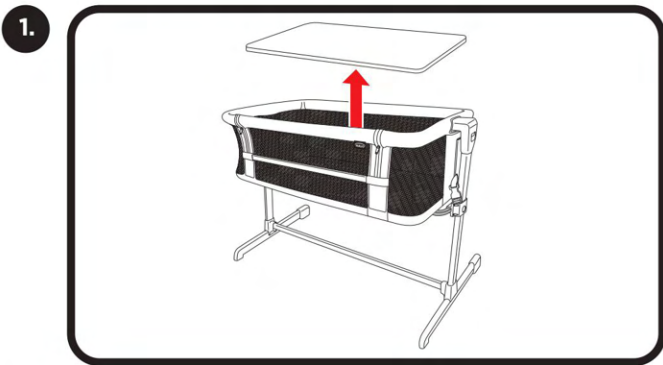

Tighten both straps. There must be no more than 1/2 in. (13mm) gap between bedside sleeper and adult bed.

LOCKING THE WHEELS

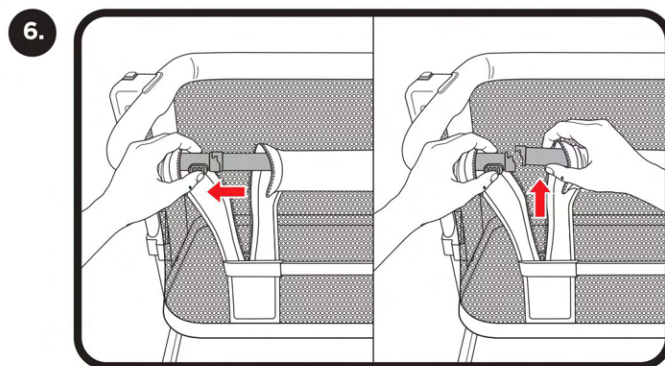

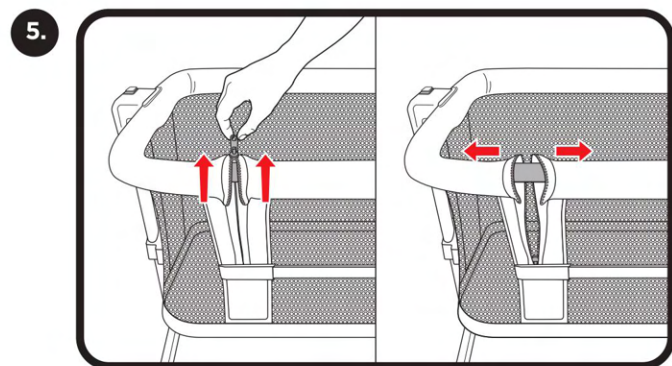

The wheels on the bassinet should be in the locked position whenever the bassinet is in use.
