2018 UConnect
Second Edition
FCA US LLC

FIRST-IN-CLASS JUST GOT EVEN BETTER.

Enjoy the next generation in connected car platforms.

With advances in performance, functionality and smartphone integration, Uconnect's 4th generation is raising the bar — and the quality of your journey.

The new 8.4-inch touchscreen delivers multi-touch capability and sharper graphics, so your favorite content is crisper, richer and only a swipe, tap or pinch away. Plus, enhanced processing power gets it to you faster, which gets you on your way faster.

What happens when your car and your smartphone become one? Your outside-car and inside-car lives merge for an uninterrupted experience. Make calls, send text messages, access your apps... It all integrates with the Uconnect touchscreen, voice and steering-wheel controls for full functionality. Just press and hold the VR button on your steering wheel to activate the Siri or Google Voice recognition system. Pressing the VR button just briefly will activate the native Uconnect voice recognition.

FULL INTEGRATION WITH APPLE CARPLAY

Apple CarPlay is the smarter, safer way to use your iPhone in the car. Simply plug-in to get directions with Apple Maps, listen to Apple Music, make calls and send messages — all through the Uconnect touchscreen or with your voice through Siri.

FULL INTEGRATION WITH ANDROID AUTO™

With Android Auto, the best of Google goes wherever you go. Easy touchscreen navigation and voice recognition lets you groove to Google Play Music, get directions with Google Maps™ and ask Google your most pressing questions — on the go, at any time.

Connected via certified USB cables for optimal performance.
