HomeLink®
GARAGE DOOR OPENER

1. While the car is ON, hold the handheld garage door transmitter 1-3 inches from the HomeLink® button you want to program in the vehicle.

2. Push and hold both the HomeLink® button being programmed and the button on the garage door transmitter.

TO ERASE ALL SET CHANNELS:
Push and hold the two outside HomeLink® buttons for 20 seconds until the orange indicator flashes. An individual channel cannot be erased.

Rolling or Non-Rolling?
Check your garage door opener motor in your garage for a "LEARN" or "TRAIN" button by the hanging antenna. If you have one of these, you have a Rolling Code garage door opener.

3. **For Non-Rolling Code** garage door openers, watch for the indicator light to go constant.

   For Rolling Code garage door openers, watch for the indicator light to go from a slow blink to blinking rapidly.

4. **For Rolling Code** garage door openers only, firmly push and release the "LEARN" or "TRAIN" button on your garage door opener motor in your garage, then push the HomeLink® button in your vehicle for two long presses.

5. If the programming was successful, your garage door should open and close with your chosen HomeLink® button.

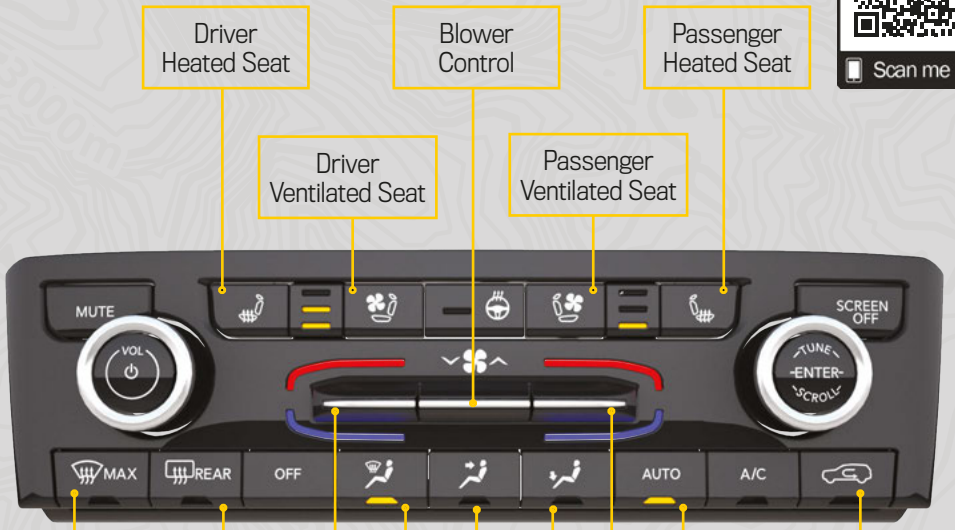

For more detailed instructions, see "Universal Garage Door Opener (HomeLink®)" in your Owner's Manual. Please call 1-800-355-3515 if you require assistance.

KNOW YOUR RADIO & CONTROL YOUR CLIMATE

Digital Cluster

To change your Cluster display from Digital to Analog, hold the "OK" button on the steering wheel.

Menus and Submenus

Main Menu
Speedometer · Night Vision · Driver Assist

Vehicle Info
Fuel Economy · Gauge Summary · Oil Life

Trip Info
Trip A · Trip B

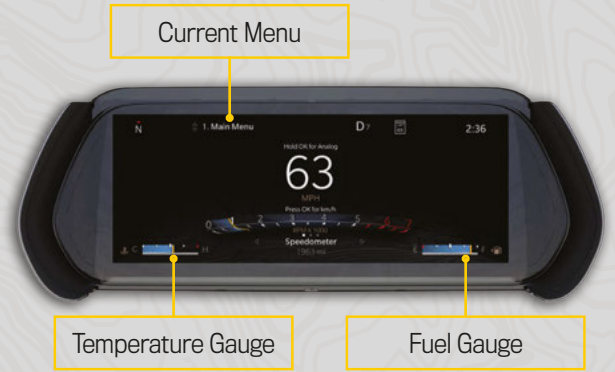

Navigation

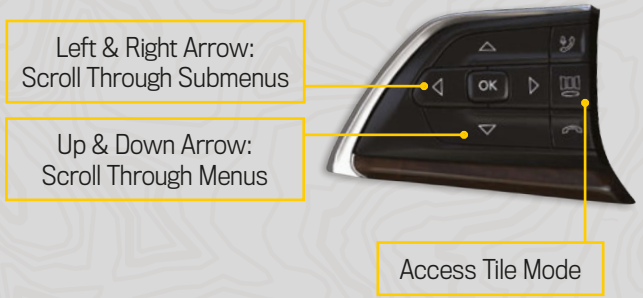

Off Road
Terrain Status · Vehicle Dynamics · Pitch & Roll

Audio

Messages

Trip Info
Screen Setup · Head-Up Display

To view the Cluster in Tile Mode, push the Tile Mode button. Use the Left/Right Arrows to scroll through menus and the Up/Down Arrows to access submenus. Tile information can be edited with the "OK" button.

CUSTOMIZE YOUR INSTRUMENT CLUSTER DISPLAY

Select the Settings menu and the Screen Setup submenu. Press "OK" to begin and select the area you would like to customize.

DID YOU KNOW?

You can also adjust the Instrument Cluster Display menu **Favorites** and restore the cluster to its **Default** settings.

HEAD-UP DISPLAY – WILL DISPLAY ON YOUR WINDSHIELD

Activate the Head-Up Display through your Cluster. Select the Settings menu and the Head-Up Display submenu. Press "OK" to begin.

MENU OPTIONS

- Display On and Off
- Content/Layout
- Display Height

Driver & Passenger Memory Settings

Scan me

MEMORY BUTTONS

Save up to two memory profiles for the driver and front passenger seats, including position settings for:

- Seat position
- Easy Entry/Exit seat*
- Side mirrors*
- Power tilt/telescoping steering column*
- Radio station presets*

*Driver memory settings only

PROGRAMMING A MEMORY PROFILE:

1. Place the vehicle's ignition in the ON/RUN position (do not start the engine).
2. Adjust all memory profile settings to desired preferences.
3. Push and release the Set (S) button on the memory switch.
4. Within five seconds, push and release either of the memory buttons (1) or (2).

Active Driving Assist (ADA) System

COMBINES ACTIVE LANE MANAGEMENT AND ADAPTIVE CRUISE CONTROL

INDICATOR LIGHT & INSTRUMENT CLUSTER DISPLAY GLOW:

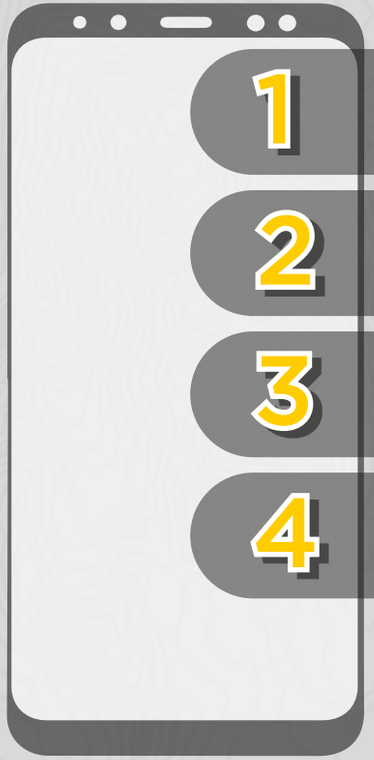

OFF	System not turned on/enabled
WHITE	System is turned on/enabled, but is not actively steering the vehicle
GREEN	System detects driver attentiveness and is actively steering the vehicle
YELLOW	System detects driver inattentiveness and warns the driver to place hands on the steering wheel
RED	System still detects driver inattentiveness and still warns the driver to place hands on the steering wheel, or the system will cancel

The base ADA system requires the driver keep both hands on the steering wheel at all times.

Scan me

USE YOUR MEMORY PROFILE & ACTIVE DRIVING ASSIST

Pair a Phone

1. Make sure Bluetooth® is enabled on your mobile device.
2. With the vehicle in the ON/RUN position, press the Phone button in the vehicle's touchscreen menu bar.
3. Press “Device Manager”.
4. Press “Add Device” and follow the prompts.

Scan me

KEEP IN MIND:

Some mobile phones will require you to enter a PIN as part of the connection process.

For more detailed connecting instructions, refer to “Phone Operation” in your Uconnect Owner's Manual Supplement.

Ready to remove a phone or audio device?

1. Press the “Device Manager” button on the touchscreen.
2. Press the “Settings” gear icon next to the phone or device you want to remove.
3. Press “Delete Device”. The device will be removed.

CONNECT YOUR APPS

Your vehicle is equipped with Android Auto™ & Apple CarPlay®; connect your unlocked smartphone to one of the media USB ports in your vehicle, or connect your phone via Bluetooth® and select the appropriate icon from the Device Manager screen.

Once connected and recognized, the Android Auto™ or Apple CarPlay® icon will replace the phone icon on your personalized menu bar.

KEEP IN MIND:

For Android™ Users, if the Android Auto™ app was not previously downloaded, it will download the first time you plug in your device.

For Apple® Users, Apple CarPlay® is only compatible with iPhone® 5 or later and requires Siri being enabled in Settings.

Connected Services

WITH CONNECTED SERVICES YOU CAN...

- Lock Your Vehicle
- Unlock Your Vehicle
- Remote Start Your Vehicle
- Cancel Remote Start
- Activate Your Horn

ACTIVATE YOUR REMOTE SERVICES

1. Press "Apps" in the menu bar.
2. Press "Activate Services".
3. Press "Activate".
4. There are two ways to activate: via email or via an agent. On the next screen, you can either enter your name and email, or press "Call Care" to directly speak with someone.
   If you previously were registered for Connected Services at the dealership, you will only need to enter your email and PIN to activate them on your vehicle.
5. Download the Jeep® Mobile App from the Google Play Store or Apple App Store for access to Remote Commands. Log in with your account information.

TIP:

You can use your remote commands from the Uconnect App, your Owner's Site account, or by calling an agent.

However, not all remote commands will work when calling the agent.

Multicolor Ambient Lighting

CUSTOMIZE AMBIENT LIGHTING THROUGH UCONNECT SETTINGS

Scan me

CHOOSE FROM FIVE COLORS FOR THE FOLLOWING ZONES:

- Instrument panel and door panel decorative ambient lights
- Front seat footwell areas below the instrument panel, lighting below the second row seats, and map pocket lighting on all four door panels

TIP:
Select the SYNC button in the settings menu to set the two zones to the same color automatically.

KEEP IN MIND:
All other ambient lighting outside of these two zones will remain white. The dimmer control adjusts all ambient lighting at the same time.

Night Vision

USES AN INFRARED CAMERA TO DETECT PEOPLE & LARGE ANIMALS

LEVEL 1 WARNING

- Yellow telltale and yellow highlight around detected pedestrian/animal when it is approaching or is in the vehicle's path

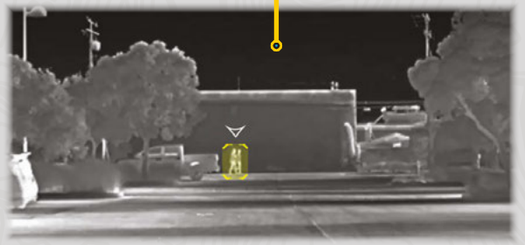

LEVEL 2 WARNING

- Red telltale and red highlight around detected pedestrian/animal when it is directly in the vehicle's path, near the headlights, and a collision is possible
- If enabled, a chime will sound and a video pop-up may display when a detection event occurs

KEEP IN MIND:
Warm objects (e.g. animals) will appear lighter on the display while cold objects (e.g. traffic signs) will appear darker.

NIGHT VISION SCREEN

IN THE INSTRUMENT CLUSTER DISPLAY

Displays green when Night Vision alerts are active and gray when suppressed

Pedestrian Warning

Animal Warning

Night Vision is located in the instrument cluster within **Main Menu**.

Hands-Free Liftgate

Use a Straight In-and-Out Kicking Motion

LIFTGATE NOT OPENING?

Make sure your kicking motion is straight in and out and within the activation zone.

Do not move your foot sideways or in a sweeping motion, as the sensors may not detect the motion.

Scan me

Activation Zone

Rain Sensing Wipers

When enabled in Uconnect Settings, this feature automatically activates the wipers when rain or snow is detected on the windshield.

The windshield wiper must be in one of the intermittent positions for this feature to operate, not in the LOW, HIGH, or OFF position.

Scan me

Adjustable Power Liftgate Height

SAVE THE MAXIMUM HEIGHT THAT YOUR LIFTGATE OPENS TO

Scan me

TO SET AN OPENING HEIGHT:

1. Open the liftgate fully, then manually pull down or push up to the desired height.
2. Push and hold the liftgate close button for three seconds. An audible chime will sound to let you know that the height has been saved successfully.

TIP:

The liftgate close button is located on the left side trim panel inside the cargo area.

PASSIVE ENTRY:

LOCK & UNLOCK YOUR VEHICLE USING THE DOOR HANDLES

WITH YOUR KEY FOB ON YOUR PERSON:

- Touch the **lock icon** on the door handle, making sure not to grab the door handle, to lock the vehicle.
- Grab the door handle to unlock the vehicle.

KEEP IN MIND:

Grabbing the driver's door handle will unlock the driver's door. The front passenger handle (or a rear handle, if equipped with four-door Passive Entry) unlocks all doors and the liftgate.
