Garage Door Opener

1. With the vehicle in the ON/RUN position, hold the garage door transmitter 1-3 inches from the HomeLink® button you want to program.
2. Push and hold the HomeLink® button and the button on the garage door transmitter.
3. **Watch the indicator light.**
   If it turns solid or blinks rapidly and the door operates programming is complete.
   If it blinks rapidly but the garage door doesn't operate, continue to step 4.
4. For **Rolling Code** garage door openers, push the "Learn", "Program", "Smart", or "Train" button on your garage door opener, then push and hold the HomeLink® button in your vehicle up to three times (holding for two seconds each time).
5. If programming was successful, your garage door will open and close with the HomeLink® button.

TO ERASE ALL SET CHANNELS:
Push and hold the two outside HomeLink® buttons until the indicator flashes.

ROLLING OR NON-ROLLING

Check your garage door opener motor in your garage for a "Learn", "Program", "Smart", or "Train" button by the hanging antenna. If you have one of these, you have a Rolling Code garage door opener.

Connected Services

WITH CONNECTED SERVICES YOU CAN...

- Lock Your Vehicle
- Unlock Your Vehicle
- Remote Start Your Vehicle
- Cancel Remote Start
- Activate Your Horn

ACTIVATE YOUR REMOTE SERVICES

1. Press “Apps” on the touchscreen.
2. Press “Activate Services”.
3. Press “Activate Now”.
4. You can activate via email or an agent. Press "Call An Agent" to speak with an agent. If you were registered for Connected Services at the dealership, simply enter your email and PIN to activate them.
   Some Connected Services Features require an active subscription.
5. Download the Jeep® Mobile App from the Google Play® Store or Apple® App Store® for access to available Remote Commands. Log in with your account information.

MOPAR

Scan me (U.S. Residents Only)*

Mopar® YOUR Way

Get 24/7 access to everything you need, including custom vehicle dashboards, maintenance records, mobile vehicle commands and more. Scan the QR code to register.

*Canadian residents are not required to create a profile, as one is created when a Jeep® Connect account is activated.

Uconnect 5/5 NAV

Available Modes:

- **Home:** Customize the Home screen with widgets
- **Media:** Listen to the radio and play media
- **Comfort:** Adjust the vehicle's multiple climate systems
- **Navigation:** Search for and navigate to any destination
- **Phone:** Pair your smartphone and make hands-free calls
- **Vehicle:** Change vehicle settings

Scan For Voice Recognition Video

Voice Recognition

Use Your Voice To Control Uconnect

To begin, push the Voice Recognition button on the steering wheel. If activated within Vehicle settings, you can also say the vehicle's Wake Up commands, “Hey, Uconnect” or “Hey, Jeep®”, without pushing any buttons.

Head Up Display (HUD)

The Head-Up Display projects important driving information onto the windshield within your line of sight.

Select the HUD menu in the instrument cluster by using the steering wheel instrument cluster controls.

Available settings include: Content & Layout, Display Height, and Brightness.

Instrument Cluster Display Control Buttons

TIP:
Select from four available options: Standard, Simple, Advanced, and Custom.

NOTE:
HUD will appear on your windshield.

Multi-Zone Climate Control

YOUR VEHICLE IS EQUIPPED WITH FRONT AND REAR CLIMATE CONTROL SYSTEMS

To optimally heat or cool your vehicle, we suggest you have both the front and rear climate control systems running.

AUTOMATIC CLIMATE CONTROL

This system will measure conditions like outside temperature, solar load, cabin temperature and humidity, and desired cabin temperature to automatically select the optimum HVAC mode, blower, and outlet settings to keep you comfortable.

Recommended settings are: Auto at 72°F with front and rear climate synced.

Recommended settings for hot and cold weather:

COLD WEATHER

Have both the front and rear climate control systems on and set to Floor or Mix modes. Set the temperature to High and adjust blower speeds to preference.

HOT WEATHER

Have both the front and rear climate control systems on and set to Panel mode. Set the temperature to Low and adjust blower speeds to preference.

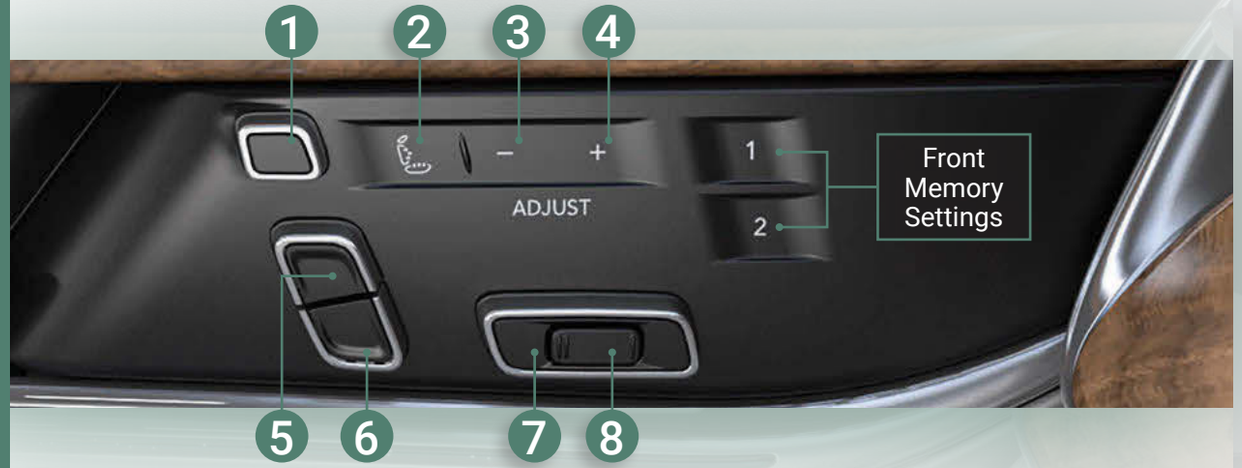

MANUAL OVERRIDE CLIMATE CONTROL

This system allows you to control your climate systems. You can choose between various modes, temperature settings, blower speeds, and more.

Cruise Control Systems

TIP:
The ACC distance setting appears in the instrument cluster display.

The Cruise Control system will hold your vehicle's speed when you take your foot off of the accelerator.

The Adaptive Cruise Control (ACC) system will adjust the set speed in order to maintain a set distance from the vehicle in front of yours.

Scan For ACC Video

Active Driving Assist (ADA) System

COMBINES ACTIVE LANE MANAGEMENT AND ADAPTIVE CRUISE CONTROL

The base ADA system requires the driver to keep both hands on the steering wheel at all times.

INDICATOR LIGHT & INSTRUMENT CLUSTER DISPLAY GLOW:

OFF System not turned on/enabled

WHITE System is turned on/enabled, but is not actively steering the vehicle

GREEN System detects driver attentiveness and is actively steering the vehicle

YELLOW System detects driver inattentiveness and warns the driver to place hands on the steering wheel, or if equipped with hands-free ADA, look toward the road

RED System still detects driver inattentiveness and still warns the driver to place hands on the steering wheel, or if equipped with hands-free ADA, take control of the vehicle, or the system will cancel

Second & Third Row Seats

ADJUST, FOLD, AND UNFOLD YOUR REAR SEATS

Rear Seat Power Folding Switch

A one-touch power folding seat switch is located in the right rear trim panel inside the cargo area.

Third Row Power Recline Switch

Adjust the third row seatback angle forward/ rearward for occupant comfort. This switch is located on the trim panel next to the seat.

Scan For Power Folding Seat Video

Hands-Free Liftgate

OPEN YOUR LIFTGATE WITHOUT PRESSING A BUTTON

USE A STRAIGHT IN-AND-OUT KICKING MOTION

Use a straight in-and-out kicking motion within the activation zone or a sweeping motion under the zone for hands-free activation.

KEEP IN MIND:

The liftgate will only respond to kicks if the key fob is within 5 ft (1.5 m) of the liftgate handle.

TO SET AN OPENING HEIGHT:

1. Open the liftgate fully, then manually pull down or push up to the desired height.
2. Push and hold the liftgate close button, located on the left side trim panel inside the cargo area, for three seconds. An audible chime will sound.
