Selec-Terrain Modes

TIP:
Selec-Terrain combines the capability of the vehicle control systems, along with driver input, to provide the best option for all terrains.

Scan For Selec-Terrain Video

You can choose from the following modes:

AUTO Continuous operation, fully automatic, and can be used on- and off-road, balances traction to ensure maneuverability and acceleration improvement

SNOW Greater stability under conditions of bad weather, for use on- and off-road on surfaces with poor traction (e.g. roads covered with snow)

SAND For off-road driving use on surfaces with poor traction (e.g. dry sand)

MUD For off-road driving use on surfaces with poor traction (e.g. roads covered by mud or wet grass)

ROCK Only available in 4WD Low range, for maximum off-road performance, used for low-speed obstacles such as large rocks and deep ruts **(Available With TrailHawk Only)**

Pair a Phone

1. Make sure Bluetooth® is enabled on your mobile device.
2. With the vehicle in the ACC or ON/RUN position, press the Phone button on the vehicle's touchscreen menu bar.
3. Press "Pairing".
4. Press "Paired Phones and Audio Devices".
5. Select "Add Device" then follow the prompts on your phone and on the touchscreen.

CONNECT YOUR APPS

Connect your smartphone to the media USB port.

The Android Auto™ or Apple CarPlay® icon will replace the phone icon on the touchscreen.

KEEP IN MIND:

For Android™ Users, if the Android Auto™ app was not previously downloaded, it will download the first time you plug in your device.

For Apple® Users, Apple CarPlay® is only compatible with iPhone®5 or later and requires Siri being enabled in Settings.

Ready to remove a phone or audio device?

1. Press the Pairing button on the touchscreen.
2. Press "Paired Phones and Audio Devices".
3. Press "Settings" next to the phone or device you want to remove.
4. Press "Delete Device".
5. Press "X" to exit the settings screen. The device should be removed.

Connected Services

WITH CONNECTED SERVICES YOU CAN...

- **Lock Your Vehicle**
- **Unlock Your Vehicle**
- **Remote Start Your Vehicle**
- **Cancel Remote Start**
- **Activate Your Horn**

ACTIVATE YOUR REMOTE SERVICES

1. Press "Apps" on the touchscreen.
2. Press "Activate Services".
3. Press "Activate Now".
4. There are two ways to activate: via email or via an agent. On the next page, you can either enter your name and email, or press "Call An Agent" to directly speak with a certified agent.

SET UP SERVICES & OWNER'S PROFILE

Dual Pane Panoramic Sunroof

TIP:
The sunroof switches are located on the overhead console. The sunroof and sunshade will only operate when the ignition is in the ON/RUN position.

Scan For Sunroof Video

Sunroof Operation

OPEN & CLOSE

Push the open/close switch to open. From the fully open position, pull the switch to close. The sunroof can be stopped in any position by pushing/pulling the switch a second time while opening or closing.

SUNSHADE

Express Open/Close:
Push/pull the sunshade switch for about 1/2 second to open/close the sunshade automatically.

Manual Open/Close:
Push/pull the sunshade switch briefly and release to open/close the sunshade part way.

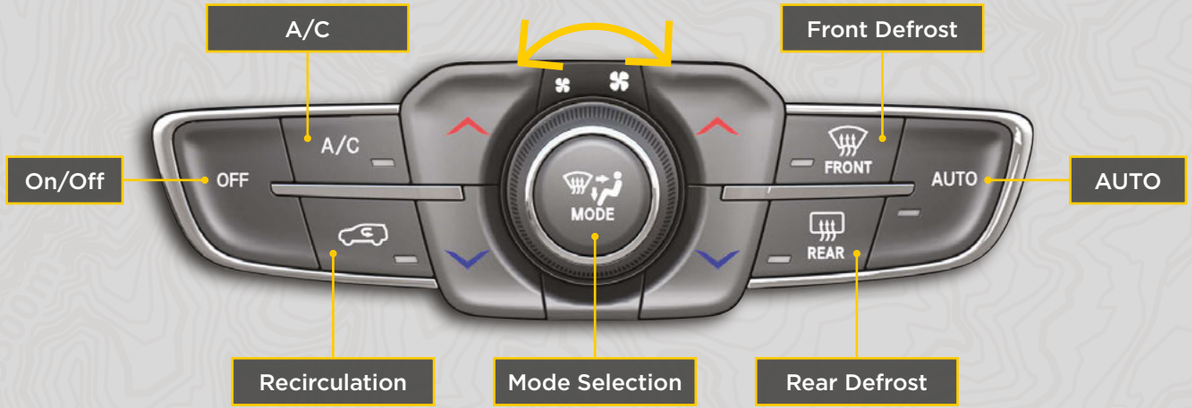

VENT

Push the vent switch to vent the sunroof.

The pinch protect feature will stop the sunroof from moving if it detects that an obstacle is present.

Automatic Climate Controls

Rotating the **Blower Control knob** regulates the amount of air forced through the system in any mode.

TIP:
Push the **red arrow** button to increase the temperature or push the **blue arrow** button to decrease the temperature for the driver or the passenger.

Scan For Climate Controls Video

A/C The button will engage the Air Conditioning (A/C) system.

RECIRCULATION The button will change the system to recirculation mode.

AUTO The button will automatically control the cabin temperature.

FRONT DEFROST The button will engage the Front Defrost mode.

REAR DEFROST The button will turn on the rear window defroster and heated outside mirrors.

BLOWER CONTROL Rotating the knob on the faceplate or pressing the blower icon on the touchscreen regulates the amount of air forced through the system in any mode.

MODE The button (on the faceplate or touchscreen) will change the airflow distribution mode.

OFF The button will turn the Climate Controls on/off.

Advanced Driving Assist Systems

The **Cruise Control system** will hold your vehicle's speed when you take your foot off of the accelerator.

The **Adaptive Cruise Control system** will adjust the speed you have set in order to maintain a set distance from the vehicle in front of yours.

Scan For FCW Video

The **Forward Collision Warning system** provides the driver with audible and visual warnings, and may apply a brake jerk to warn the driver when it detects a potential frontal collision.

Scan For Park Assist Video

The **ParkSense Front/Rear Park Assist system** provides visual and audible alerts when an obstacle is detected when backing up or moving forward. The vehicle brakes may be automatically applied and released when performing a reverse parking maneuver if the system detects a possible collision with the obstacle.

Scan For LaneSense Video

The **ParkSense Active Park Assist system** aids you during parallel, perpendicular, and parallel park exit maneuvers by identifying a proper parking space, providing audible/visual instructions, and controlling the steering wheel.

The **LaneSense system** may provide a visual warning, apply pressure to your steering wheel or both if your vehicle drifts out of the lane without a turn signal applied.

The **Blind Spot Monitoring system** can detect highway-licensable vehicles (automobiles, trucks, motorcycles, etc.) that enter the blind spot zones from the rear, front, or side of the vehicle.
