JETSON

# SAFETY WARNINGS.

## Important:

- Your RackIt Companion Carry-All Accessory is only compatible with RackIt Smart Cargo System rear cargo racks, found on select Jetson e-bike models. To see if the cargo rack on your Jetson is part of the RackIt system, consult its user manual at ridejetson.com/product-manuals.
- The addition of cargo with significant weight may affect the performance of your Jetson.
- Never leave your RackIt Companion Carry-All Accessory or any cargo unattended on your Jetson

## ⚠ Ensure that:

- All hardware on your rear cargo rack is checked and fully tightened prior to each ride.
- The rear cargo rack is securely fastened to the bike frame.
- Your RackIt accessory is securely clicked onto the RackIt rear cargo rack.
- Your cargo is fully contained inside the accessory or is secured directly on top of the rear cargo rack with a bungee cord or strap.
- No accessory straps, handles, or parts are dangling onto the riding surface or near any of your bike's moving parts, including the wheels, pedals, brakes, and chain.
- Your bike's safety reflectors and lights are not obscured by placement of the accessory or your cargo.
- The weight of your cargo is distributed evenly on both sides of the rear cargo rack.
- The combined weight of your accessory and any cargo does not exceed the maximum carrying weight of the rear cargo rack.
- The combined weight of the accessory, cargo, and rider does not exceed the maximum carrying weight of the e-bike.

## ⚠ Never:

- Use the RackIt rear cargo rack as a seat for another passenger or a platform on which to attach a child seat.
- Modify or disassemble the rear cargo rack or the attachment plate and mechanisms on the underside of your RackIt accessory.
- Use the rear cargo rack to pull a trailer.
- Relocate your RackIt rear cargo rack to a different bike or e-bike.
- Use any RackIt rear cargo racks or accessories on bikes with wheels measuring over 27.5".
