

10" Bench Grinder

Product Features:

- Powerful 1-1/2 HP, 13 Amp. 1,750 RPM low speed motor
- Low speed design is ideal for smooth grinding and sharpening applications as the low speed feature reduces heat build-up
- Adjustable shatter resistant plastic eye shields
- Direct drive motor with no brushes or belts to adjust or replace
- Permanently lubricated motor bearings
- Removeable wheel covers allowing easy grinding wheel change
- Cast-iron base with rubber feet to reduce vibrations
- Comes complete with adjustable tool rests, shatter resistant plastic eye shields, medium 60 Grit and course 36 Grit 10" x 1" grinding wheels
