Key Features & Benefits

Preserva® Food Care System

Two independent cooling systems provide a dedicated refrigeration unit to help keep food fresh longer, and a separate system for frozen food. The FreshFlow™ Air Filter helps minimize odors while the Produce Preserver helps delay over-ripening.

LED Lighting

Gradually increases to full intensity making it easy to find items inside the refrigerator, freezer and even the crisper. Unlike incandescent bulbs, the LED lights framed in chrome are maintenance-free and never need to be replaced.

In-Door-Ice® System

Adds interior room in the freezer with an ice bin that mounts on the inside left door of the freezer, allowing for extra shelf space.
