

The friendly user guide for

The Play Gym

What's included

The Play Gym

- A. Top bar
- B. Legs (x4)
- C. Silicone Teethers (x4)
- D. Sensory Ball
- E. Mirror Prism
- F. Mat

Step 1

Insert the four legs into the top bar until you hear a click.

Step 2

Roll out the mat, and place The Play Gym on top of it. Then, attach sensory toys to the top bar. You're ready to play!

Safety First

⚠️ WARNING:

Important! Read carefully and keep for future reference.

- **NEVER** leave your baby unattended with their play gym
- This product is only suitable for indoor use
- Use this product only on the floor
- **NEVER** use with accessories or replacement parts not approved by Lalo for use with this product
- Do not use The Play Gym, Mirror Prism, Sensory Ball, Teethers, or Mat if any part is broken, torn, or missing, or if any connectors are loose
- Keep product away from all flames and heat sources
- **STRANGULATION HAZARD:** Strings and cords can cause strangulation; do not add or suspend strings on product or use strings to attach toys
- Keep product and baby away from window blind cords, electrical cords, and other cords
- Ages: 0+

The Play Gym Sensory Toys

“The Play Gym offers a safe space for nurturing your baby’s development through their own, self-directed pace. The best part? Your baby gets to explore and play independently while your hands are finally free.” - Dr. Bronwyn Charlton, early childhood development specialist.

Sensory Ball

Six panels of different textures and a hidden bell inside the Sensory Ball will inspire babies to use their gross motor muscles to reach out and fine motor muscles to grasp it, while providing a sensory learning experience once they do.

Mirror Prism

The Mirror Prism, which can hang on the bar or be used on the mat, can be a great way to distract babies from the grueling aspects of tummy time and motivate them to keep at it too! Trying to focus on their own reflection will strengthen their attention and visual tracking skills, and they'll get practice working their big muscles.

Silicone Teether

Oral exploration is an important way for babies to play with and learn about new things. Dangling from the bar, the Silicone Teether motivates babies to reach and grasp, and detached, it provides a safe option for soothing sore gums.
