Rev.1.0

Package

GM60-550120-F

AC Power Cord (C13 Type)

Quick Start Guide

Overview

The GM60-550120-F is a high-performance AC/DC power adapter designed to provide a stable 57V DC supply to compatible electronic devices. It features a high-efficiency design (Level VI) and comprehensive safety protections.

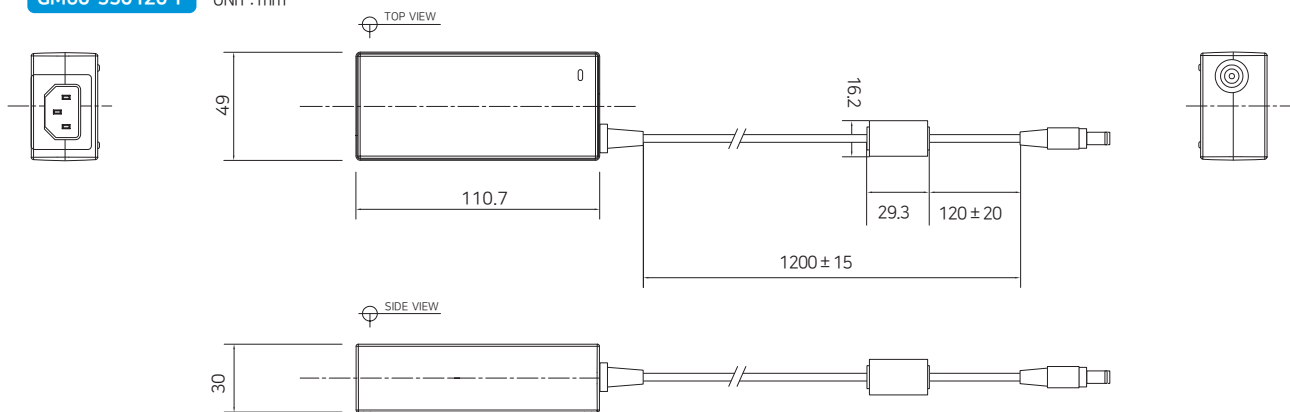

Features

- High Efficiency: Compliant with Energy Efficiency Level VI to reduce standby power and energy consumption.
- Universal Input: Supports a wide range of input voltages (100 – 240V~) for global compatibility.
- Comprehensive Protection: Built-in Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP).
- High Reliability: Ensures stable power delivery and long-term durability for professional equipment.
- Compact Design: Slim and lightweight form factor for easy installation in various environments.

Dimension

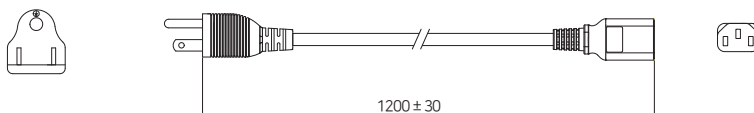

GM60-550120-F

UNIT : mm

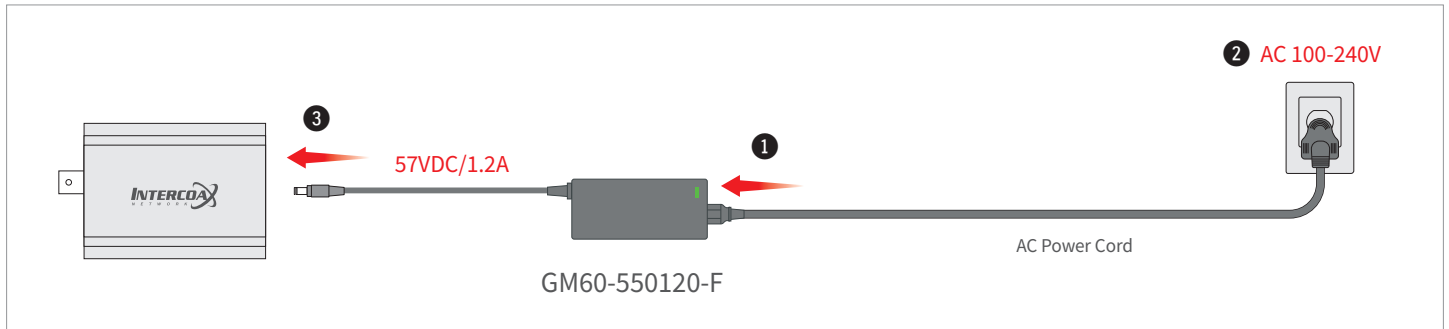

AC Power Cord

UNIT : mm

Installation Guide

1. Connect the AC power cord to the C14 inlet of the adapter.
2. Plug the AC power cord into a grounded electrical outlet (100-240V~).
3. Connect the DC output jack to the power input port of your device.
4. Ensure the connected device's power indicator LED is active.

Specification

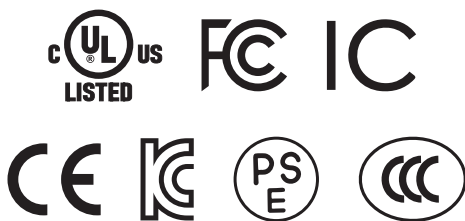

Model	GM60-550120-F
Input Voltage	100-240V~, 50/60Hz
Input Current	2.0A Max
Output Voltage	57.0V DC
Output Current	1.2A
Total Power	68.4W
Efficiency	DOE Energy Efficiency Level VI
Environment	Indoor Use Only
Operating Temperature	0°C ~ 40°C
Storage Temperature	-20°C ~ 70°C
Available Certifications	UL / cULus, FCC, ISCED / IC CE, KC, CCC, PSE

Caution

- Indoor Use Only: Do not expose to rain or moisture.
- Ventilation: Do not cover the adapter during operation to prevent overheating.
- Rated Power: Use only with devices that match the output specification.
- Handling: Do not touch the device or cables with wet hands.
- No Serviceable Parts: Do not disassemble or modify the product.

Warranty

This device has passed the quality control and product inspection. Standard warranty applies according to company policy. Any damages from user's abuse, accident, or modification will not be covered.

This device complies with part 15 of the fcc rules. Operation is subject to the following two conditions :

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received including interference that may cause undesired operation
