ON

To Power ON, pull the MW01 into the extended position.

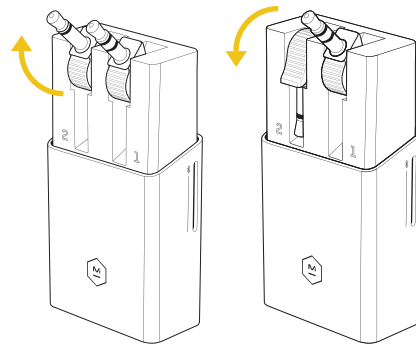

PAIRING INDICATOR

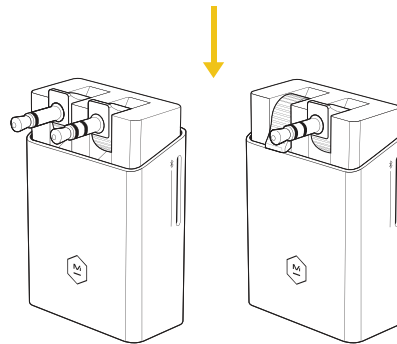

- A pulsing white light indicates the MW01 is in pairing mode.
- A solid white light indicates a device is connected.

The first time you power ON the MW01 it will automatically enter pairing mode. To manually activate pairing mode, leave the MW01 in the extended position for 5+ seconds and look for the pairing indicator light. Once in pairing mode, activate pairing mode on your earphones or headphones and place them adjacent to your MW01.

USING THE DEVICE

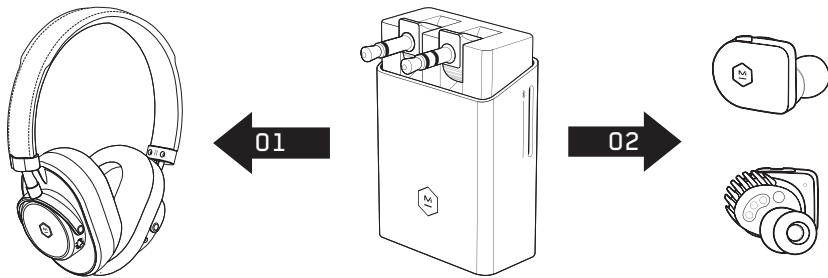

The MW01 will automatically connect to previously connected headphones/earphones. Select the number of prongs required to connect to your intended device. If using a one-prong connection, use only the prong marked "1".

Once prongs are selected, push down to retract the MW01 and connect the prongs to your analog device.

CONNECTING A SECOND PAIR OF EARPHONES OR HEADPHONES

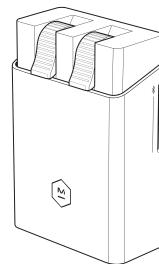

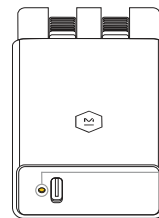

Connect to your first earphone or headphone, then activate pairing mode again by putting the MW01 into the extended position and tucking away both prongs. Do not power OFF. Once the MW01 is in pairing mode (indicated by a pulsing white light), activate pairing mode on your second pair of earphones or headphones and place them adjacent to your MW01. A solid white light indicates you are connected. Select the required prongs and use MW01 normally. The MW01 will automatically forget the second earphone or headphone after powering OFF.

BATTERY INDICATOR

Battery Indicator light is only shown when powering ON/OFF or charging the MW01.

● HIGH ● MED ● LOW

OFF

To power OFF, tuck away the prongs and retract the MW01.

If no headphones or earphones are connected, the MW01 will power OFF in 10 minutes.

Brilliant sound, design and performance motivate everything we do.

Master & Dynamic is a New York City-based premium audio company with a deep passion for building technically sophisticated sound tools. Designed to be modern yet timeless, our products utilize only the finest materials and are engineered to last, creating the perfect balance of aesthetics, strength, and exceptional sound.
