LOCATION REQUIREMENTS

Allow at least 3 in. (7.5 cm) of air space at the top and on both sides of the freezer and 1 in. (2.5 cm) between the back of the freezer and the wall. If the freezer is to be against a wall, leave extra space on the hinge side so the door can open wider.

NOTE: This freezer may be installed side by side with another refrigerator or freezer. Allow for a 3 in. (7.5 cm) clearance at the top and sides and a 1/4 in. (0.64 cm) clearance between the appliances.

IMPORTANT: Do not install the freezer near an oven, radiator, or other heat source, nor in a location where the temperature will fall below 40°F (5°C).
