

User Manual

■ Safety Tips

1. The LED light strip consumes DC 12V power, NEVER connect it to DC 24V.
2. Do NOT immerse the light strip/controller/power adapter into water.
3. Do NOT light the strip on for over 5s when they are rolled on the plastic reel.

■ Package Contents

1 x LED Light Strip

1 x Controller

1 x Connector

1 x Power Adapter

5 x Fixing clip

* If you find any part missing in the package, please contact support@meross.com. We will provide proper solution for you.

■ Installation Guide

1. Download the Meross app.

2. Connect the power cable and power the device up.

3. Set up the device.

- (1) Make sure your smart device is covered by strong Wi-Fi signal.
- (2) Launch the Meross app and log in to your account, or if you are a new user, tap Sign up to create a new account.
- (3) Tap the "+" icon to select the type of smart device you want to add, then you can just follow the setup wizard to finish configuration.
- (4) Relocation of the smart device does not require additional operations provided that it remains on the same network with strong Wi-Fi signal.

NOTE:

1. If this is not the first time you've added this smart device, you'll have to reset it before going any further.
2. Find more at <https://www.meross.com/support/>.

4. Use the provided clips or the tape on the light strip to hang or attach the device to the place you desire.

NOTE: Please be careful not to tear off the adhesive tape.

NOTE:

Please make sure the surface is smooth, dry, clean. DO NOT stick the LED strip on such surfaces, as knitted/wool fabrics, dust wall, rough plastic surface, frosted glass.

Tips: How to make a 90 degree turn with the smart LED light strip?

■ How to Use

1. General Settings

Device name:
Change device name.

User manual:
Check user manual.

2. Voice Control

Amazon Alexa & Google Assistant:
Check how to pair Amazon alexa and Google assistant under **Account->Integration**.

Amazon Alexa:  WORKS WITH amazon alexa

The example commands are as follows:

- “Alexa, set the smart light strip to red.”
- “Alexa, set the smart light strip warmer.”
- “Alexa, dim smart light strip by 30%.”

Google Assistar  works with the Google Assistant

The example commands are as follows:

- “Hey Google, brighten smart light strip.”
- “Hey Google, set the smart light strip to cool light.”
- “Hey Google, change the smart light strip to magenta.”

■ FAQ

At Meross, we strive to assure your satisfaction. Attached below is a non-exhaustive list of questions that users are mostly concerned about.

1. Can I cut and splice the light strip?

Yes, the light strip is cut-able. Please use the provided connector to splice the 2 light strips, as the output of the provided power adapter is only 12V/1.5A, it can support powering up light strip of 16.8ft long or less.

NOTE:

Please make sure that the metal terminals are exposed and meet each other.

2. How do I reset my Smart Wi-Fi LED Light Strip?

Press and hold the power button for 5 seconds, it will reset and enter Wi-Fi configuration mode. Note that factory reset will erase all your custom settings, and you'll have to set it up again.

3. What should I do when my Meross app is unable to control the added Smart Wi-Fi LED Light Strip?

Please check the following:

- Check the main Wi-Fi internet connection.
- Make sure the main Wi-Fi password hasn't been changed.
- Hold button for 5 seconds to reset and try to add it again.

■ **Warranty**
