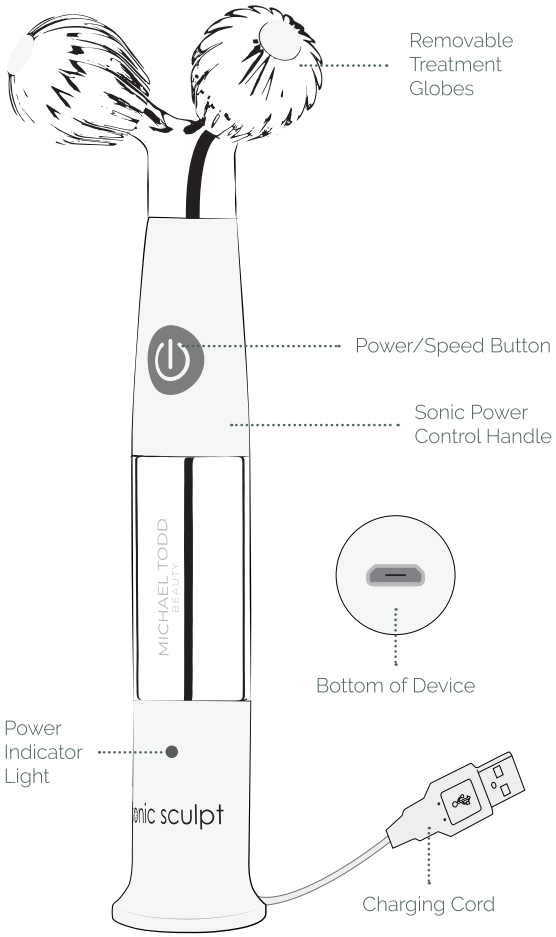
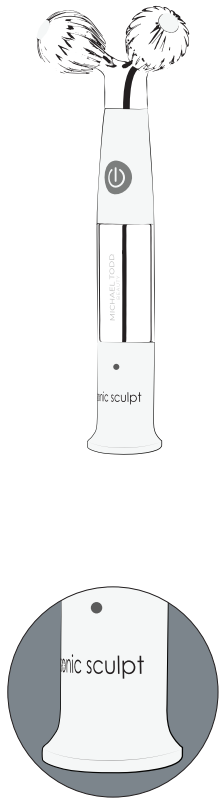
sonic sculpt Simple Quick Start Guide

INTRODUCING
Sonic sculpt
Sonic Face & Body Contouring Ice & Heat Roller



Charging
Sonic sculpt

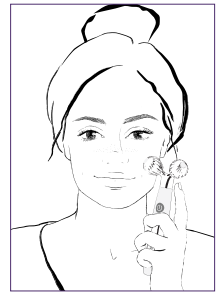


See cautions and warnings before using.

Sonic sculpt is cordless and rechargeable. Before use, charge fully for 24 hours. Sonic sculpt can run up to 40 minutes on a single charge.

CHARGING
To recharge, connect the small end of the Charging Cord into the port on the bottom of Sonic sculpt. Then connect the USB end of the charging cord into a USB port on a computer or USB wall adapter and plug into an electrical outlet. When the Sonic sculpt's battery needs charging, the Power Indicator Light will flash red. When battery power runs out, Sonic sculpt will power off. As the battery charges, the flashing red light will turn solid red, and then green when the device is fully charged and ready for use. Recharge the Sonic sculpt only as needed for 8 hours. DO NOT overcharge which can shorten battery life. Disconnect the USB Cord from the power source when not charging. DO NOT charge Sonic sculpt for more than 30 continuous hours.

STEP BY STEP
Sonic sculpt



Always use upward and outward movements

READY TO USE
1. Cleanse the skin of the face or body area you wish to use Sonic sculpt, rinse clean and pat dry.
2. Turn on your Sonic sculpt by pressing power button on the control handle. You may select low or high speed depending on personal preference and area treated. We recommend the lower speed around the eyes and where thinner skin is located.
3. Position the Sonic sculpt onto the area of clean, dry skin. Starting from chin on your jawline, roll upwards and outwards toward your ear. Repeat up to 5 rolls in each area. Then roll up and out under your cheek bone then along it toward you ear. Roll from your nose toward your ear for the lip area. Finally, roll flat along the brows, then upwards on the forehead. Neck area can be massaged in an upward movement if desired as well as other areas of the body. For best results, DO NOT roll the device up then down or back and forth. Always use an upward and outward movement for best contour lifting results and to help promote lymphatic drainage of excess toxins.

Features & Benefits
Sonic sculpt

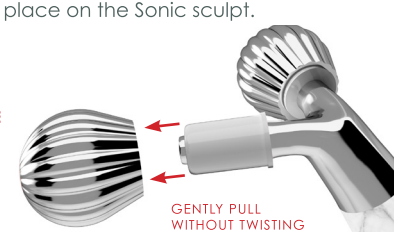
SONIC TECHNOLOGY Sonic sculpt is equipped with Sonic Technology and two Medical-Grade Stainless-Steel Treatment Globes for Face and Body Treatments and designed to replicate the spiral kneading action of an Estheticians fingers.

The sonic technology has more than 30,000 movements per minute. It gently massages, tones your skin and increases circulation.

Sonic sculpt works through a unique combination of sonic vibration and manual acupressure by rolling across the face. Note, the sonic vibration may cause the rollers to rotate slightly on their own. This is normal and not a feature of the treatment.

DETACHABLE STAINLESS-STEEL TREATMENT GLOBES
Enhance your treatment by removing treatment globes by gently pulling without twisting. You may place these in a freezer for 60 minutes to assist in a cooling treatment, let rest for 5 minutes before use. If a warm treatment is preferred, please place in a cup of warm/hot water for 20 minutes and then place on the Sonic sculpt.

CAUTION: DO NOT OVERHEAT THE GLOBES. NEVER PLACE SONIC SCULPT'S STAINLESS STEEL GLOBES IN THE MICROWAVE OVEN



EASY CLEANING OF THE TREATMENT GLOBES
Detachable Stainless-Steel Treatment Globes make cleaning a breeze! When cleaning the Globes, simply spray with 70% rubbing alcohol and wipe clean. DO NOT submerge the device in water.

Expert Advice
Sonic sculpt

Sonic sculpt's Treatment Globes can provide **heat therapy and cold therapy to enhance any facial massage**. The cold therapy helps to firm, calm and cool your skin, while also de-puffing your under eyes. The heat therapy can relieve aches and facial muscle tension and relax. Which help to reduce the appearance of fine lines and wrinkles.

Sonic sculpt is **an ideal anti-aging device** that pairs perfectly with your favorite serum, creams, moisturizers, oils & sheet masks. Using Sonic sculpt **to apply your skin care products** helps to ensure maximum absorption. Try using heat therapy while applying. You will get the most from your products while using the heat therapy combined with the Sonic sculpt. Apply a few drops of serum, creams, moisturizers and oils or roll over sheet mask to your clean, dry face, then gently glide Treatment Globes across your skin until the product is absorbed.

For best results, DO NOT roll the device up then down or back and forth. **Always use an upward and outward movement** for best contour lifting results and to help promote lymphatic drainage of excess toxins.

You may safely use the device any time of day as often as you would like. Use with your serums and/or creams in the a.m. and p.m., with heat therapy or cold therapy. The possibilities are endless in achieving firm, smooth and rejuvenated skin with Sonic sculpt!

WARNINGS & WARRANTY

1. Sonic sculpt is to be used on uncompromised treatment areas. Avoid use in treatment areas where any of the following is present; any area that was recently treated with chemical peels or lasers. Avoid treatment areas where cancer is present or suspected to be present. DO NOT use over compromised skin. Compromised skin may include but is not limited to sunburns, areas of healing, blisters, Rosacea, Psoriasis, abrasions, cuts and acne.
